Research experience is an integral part of the training and begins in the first year under the guidance of a faculty advisor. During their first two years, students plan and conduct research toward their master’s thesis and develop a comprehensive research project their third year that prepares them for the dissertation. Research for the dissertation usually begins during the fourth year. Students are supported with competitive stipends and other funding opportunities.

---

**Program Requirements**

**MA Degree Requirements**
48 Quarter Hours

**Additional PhD Degree Requirements**
28 Quarter Hours

**Total hours required**
76 Quarter Hours

---

**Learning Outcomes**

Students will be able to:

- Identify major theoretical concepts in psychological science, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how psychological science currently advances knowledge.
- Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
- Develop testable research questions, identify strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature in psychological science.
- Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.
- Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals in psychological science.

---

**MA/PhD Degree Requirements**

The Psychological Science MA/PhD is a combined degree. The MA is non-terminal and, therefore, only students intending to confer the PhD are admitted.

---

**MA Course Requirements**

The MA portion of the combined degree program requires a minimum of 48 quarter hours beyond the completion of a bachelor’s degree.

---

PSY 594  DIRECTED READINGS IN PSYCHOLOGY
(Independent Study)

1 Cannot count towards core requirements listed above if taken as an elective.

Professional Development
Course  Title  Quarter Hours
PSY 588  TOPICS IN PSYCHOLOGICAL SCIENCE  4

Research Course
Course  Title  Quarter Hours
PSY 597  MASTER'S THESIS RESEARCH  1-4

Master's Research Thesis
Students must complete a thesis on a topic approved by the program. Research experience is considered an integral part of the training. Students are expected to begin directed research during their first year under the supervision of an advisor. During their second year, students are expected to conduct research and complete their master's thesis. Research experience during the third year might involve a continuation of the line of research initiated in the thesis project or other projects that students develop.

Master's Thesis Examination
For both the proposal and the completed project, an oral defense of the research must be passed and the written document must be approved.

PhD Course Requirements
The PhD portion of the combined degree program requires a minimum of 28 quarter hours beyond the completion of the master's degree, including four quarter hours of dissertation research. The following requirements must be completed to confer the PhD.

Cognitive Seminar Courses
Course  Title  Quarter Hours
Select two of the following (not taken towards the MA):  8
PSY 404  PERCEPTION AND COGNITION
PSY 426  LANGUAGE AND COGNITION
PSY 473  THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING
PSY 560  SOCIAL COGNITION (Can count towards a social or cognitive seminar but not both)

Developmental Seminar Courses
Course  Title  Quarter Hours
Select two of the following (not taken towards the MA):  8
PSY 439  COGNITIVE DEVELOPMENT
PSY 554  EMOTIONAL DEVELOPMENT
PSY 555  SOCIAL DEVELOPMENT

Social Seminar Courses
Course  Title  Quarter Hours
Select two of the following (not taken towards the MA):  8
PSY 430  SOCIAL PSYCHOLOGY OF THE SELF
PSY 435  SPECIAL SEMINAR IN PSYCHOLOGICAL SCIENCE
PSY 556  PREJUDICE AND INTERGROUP RELATIONS
PSY 560  SOCIAL COGNITION (Can count towards a social or cognitive seminar but not both)

Professional Development
Course  Title  Quarter Hours
Optional:
PSY 550  SEMINAR IN TEACHING PSYCHOLOGY  0
(3 quarters, 0 credit hours; beginning winter quarter after successful defense of master's thesis)

Research Course
Course  Title  Quarter Hours
PSY 599  DOCTORAL DISSERTATION RESEARCH  1-4

Areas of Specialization
The psychological science faculty consists of members from each of the following major experimental areas: cognition, cognitive neuroscience, developmental psychology (child, adolescent, and lifespan), social cognition, and social psychology. Students may specialize in an area in which a faculty member has expertise.

Doctoral Candidacy Project
This requirement is completed after the student has defended the master’s thesis and before defense of the dissertation proposal. PhD students in PS have two options for fulfilling the requirement for admission to doctoral candidacy: Writing a grant proposal or writing a journal-appropriate review article.

Admission to Doctoral Candidacy
Formally given to the student with satisfactory coursework performance who has successfully completed the master's thesis and passed the Doctoral Candidacy Project. The candidate has no more than five years from the date of admission to doctoral candidacy to complete the PhD requirements or dismissal from the program will ensue.

Students denied candidacy will be required to withdraw from the program or withdraw after completion of the MA.

Dissertation
Departmental committee approval and acceptance of topic and outline of dissertation is given only after admission to doctoral candidacy. Research for the dissertation should normally be completed during the student's fourth year in the program.

Oral Examination
For both the proposal and the completed project, an oral defense of the research must be passed and the written document must be approved. Students are expected to defend their dissertation and
demonstrate competence in psychological science and their area of specialization.

**Time Limitations**

1. No more than four years between admission to the MA/PhD program and admission to doctoral candidacy.
2. No less than eight months and no more than five years between admission to doctoral candidacy and the final doctoral oral examination; or dismissal from the program will ensue.

**Program Graduate Academic Student Handbook**

**Minimum Grades**

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.
2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can gain competence in the course material, and demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.
3. A second occurrence of a grade lower than B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student’s record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student’s advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.
4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student's program to hear the appeal. Depending on the student’s academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master’s degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

**Academic Probation**

Students are expected to maintain a minimum grade point average (GPA) of 3.2. If a student’s GPA goes below this minimum, the student will be put on probation and will have one quarter to bring their GPA up to the minimum or face dismissal from the program. If the student’s GPA goes below the minimum a second time, they will be dismissed from the program.

**Academic Dismissal**

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA, students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility articulated in the DePaul University Student Handbook.

**Time Limitations**

Students must complete their MA degree requirements prior to completing their requirements for admission to doctoral candidacy. Further, no more than four years may pass between admission to the doctoral program and successful completion of the doctoral candidacy examination/project, and no less than eight months and no more than five years may pass between admission to candidacy and the final examination (i.e., the oral dissertation defense).

Students are required to meet the timelines specified by the program even if the timeline is more stringent than the College timeline. Failure to do so could result in dismissal.

Extensions on these timelines must be requested in writing to both the department (Program Director) and the college (to the Dean) and must be approved at both levels. Students must complete all requirements for the degree (which may include additional coursework, examinations, or other conditions) by the deadline outlined in the extension. Failure to meet specified time limitations or deadlines can result in dismissal from the program.

**Graduation Requirements**

Students need a minimum cumulative GPA of 3.20 in courses required by the program. In addition to meeting the minimum cumulative GPA requirement, failing the doctoral candidacy exam (or one retake) or project, lack of progress towards degree completion, and/or unsatisfactory evaluation could result in academic dismissal. See individual program policies for more details.

**Graduation with Distinction for MA**

The criteria for graduation With Distinction is based on a GPA of 3.75 or higher at the time of degree conferral. This distinction is only given for the Master’s degree, and is not awarded at the PhD level.

For topics not listed above, please consult the Graduate Student Handbook of the Department of Psychology, your program manual, or the Psychology Graduate Program Assistant.

**Psychology (BA)**

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology.

The primary means of attaining our mission is classroom instruction. We offer courses across a wide range of disciplines within psychology, some of our courses also include laboratories that focus on experimental and statistical work. Some of these courses are beginning to be offered as fully online and as hybrid courses (partially online and partially in the classroom). Further learning opportunities are made available through field work, the Honors Program, Experiential Learning, Independent Study, and Internships. Our Internship Program consists of supervised work placements for which students earn academic credit; potential sites include human service organizations as well as community and industrial settings.

Bachelor of Arts Psychology majors must select one of the six B.A. concentrations: Standard, Human Development, Human Services,
Industrial/Organizational, Community, or Comprehensive Evening Program. Students are limited to only declaring one concentration.

There is an option to complete the BA in Psychology online, with no face-to-face classes on DePaul Campuses (see "Special Programs" for prerequisites). Students who qualify and wish to pursue the BA in Psychology online may complete either the Standard or Human Development concentrations.

After completing any one of the concentrations, a psychology major should be able to understand key concepts, principles, and overarching themes in psychology, read and understand behavioral science data, design and conduct rudimentary psychological research studies, and apply research findings to everyday situations. These skills are applicable to a wide variety of occupations and professions. Psychology as a major provides excellent opportunities for students planning to go to graduate or professional school. Psychology as a minor provides a flexible complement to other majors.

</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Describe key concepts, principles, themes, and applications across a variety of content domains in psychology.
- Use scientific reasoning and critical thinking to interpret psychological phenomena.
- Design, conduct, and interpret basic psychological research, accounting for sociocultural factors.
- Apply ethical standards to evaluate psychological science and practice.
- Write a paper applying cogent scientific argument that includes presenting information using a scientific approach, discussing psychological concepts, explaining the ideas of others, and expressing their own ideas with clarity.

**College Core Requirements**

**Modern Language Requirements**

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul

- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**Major Declaration Requirements**

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Senior Year

Capstone

Select one of the following:

PSY 361  HISTORY AND SYSTEMS OF PSYCHOLOGY  1,3  4

PSY 389  PSYCHOLOGY SENIOR SEMINAR  1  4

1  Students must earn a C- or better in this course.
2  Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
3  Students with a primary major in Psychology are required to complete the Capstone offered by the Psychology department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Psychology are required to complete the Capstone offered by the Psychology department. Psychology students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1174)
• 3 Courses Required

Historical Inquiry (HI) (p. 1178)
• 2 Courses Required

• 1 Course Required
  [1 CR Course]

Philosophical Inquiry (PI) (p. 1180)
• 2 Courses Required

Religious Dimensions (RD) (p. 1181)
• 2 Courses required

Scientific Inquiry (SI) (p. 1183)
• 2 Courses Required
  [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
• 1 Course Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Psychology BS Healthcare

The BS healthcare concentration requires a different set of Liberal Studies Program requirements. Please refer to the healthcare concentration requirements (p. 830) for details.

Major Requirements

The program consists of the common core plus eight additional courses in a concentration area. Bachelor of Arts students are required to take fourteen general electives which may be psychology and/or other department courses. Students may choose to complete a minor or double-major. Bachelor of Arts students must fulfill the Modern Language requirement.

Common Core

<td></td>
</tr>
</tbody>
</table>

1  Students accepted into the honors program must register for PSY 391 and PSY 396 for 3 quarters (autumn, winter, spring) and a maximum of 4 credits total for each course.
PSY 105 and PSY 106 are not sequential, i.e., one is not a prerequisite for the other. They may be taken in either order.

For the research sequence, PSY 240 must be taken first; PSY 241 and PSY 242 may be taken in either order. A special note: PSY 340, an elective course, may be taken immediately after the completion of PSY 240.

Concentration Requirements

Students must complete the requirements from one of the following concentrations: Standard; Human Development; Human Services; Industrial/Organizational; Community; or Comprehensive Evening Program. Students are limited to only declaring one concentration.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Community Concentration, Psychology (BA) (p. 823)
- Comprehensive Evening Program, Psychology (BA) (p. 823)
- Human Development Concentration, Psychology (BA) (p. 823)
- Human Services Concentration, Psychology (BA) (p. 824)
- Industrial/Organizational Psychology Concentration, Psychology (BA) (p. 824)
- Standard Concentration, Psychology (BA) (p. 827)

Select four additional Psychology courses 1 16

1. Psychology courses must be numbered PSY 317 and above to count toward major field.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Psychology (BA) Community Concentration + Community Psychology (MS)

The combined Bachelor’s + Master’s degree program allows students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate programs.

The department of psychology offers BA+MS in Community Psychology. Students interested in this program should meet with the MS in Community Psychology BA-MS program director, preferably during their second year. Applications for admission into the combined program are accepted during the junior year.

This program has been developed in response to needs expressed by community groups and organizations for assistance in addressing the needs of their most vulnerable members. The program prepares students to work at the master’s level in the field of Community Psychology in a variety of community, government, and consulting work settings. Students will learn how a community-based social justice perspective recognizes inequalities and promotes the exercise of greater power (i.e., access to resources and decision-making) for communities that have been marginalized, and creates ties to advocacy work with oppressed populations. The program leads to an applied, terminal MS degree and is not designed as an intermediate step toward a doctoral degree. Students interested in pursuing a PhD should speak with their academic advisor about the best way to prepare for a doctoral program.

The combined program requires the completion of 48 courses (192 quarter hours). Included is a community fieldwork experience.

The undergraduate component of the program includes:

Open electives to reach a total of 192 credits - approximately 15 courses (60 hours)

Students should apply to the program during their junior year, by May 1st. Students should have a grade point average of 3.20 or higher. Admissions decisions will be made by the faculty administering the program.

The application process will require prospective students to submit the following information:

- Summary of Psychology Courses taken
- A list of community psychology-related volunteer or employment activities
- One letter of recommendation from a faculty member in the Psychology Department
- A brief description of future career plans

Admitted students will take the three graduate courses during their senior year. A maximum of three courses as 12 credit hours will count toward both the BA degree and the MS degree. No other others may count more than once.

Students will need to apply for degree conferral of the BA degree before fully matriculating into the MS degree. After completing the BA degree, an additional nine courses (36 credit hours) are required to complete the MS degree. The MS includes 48 credit hours (12 courses plus Field Work). A maximum of three courses from the BA will count toward the MS (PSY 410, PSY 411, PSY 420). The remaining courses for the graduate program are as follows:

<table>

Psychology (BA) Industrial and Organizational Concentration + Psychology (MS) Industrial and Organizational

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The Psychology (BA) offers several options:

- The department of psychology offers a combined BA + MS in Industrial and Organizational (I-O) Psychology. Students interested in this option should meet with an I-O faculty member for advising ideally by their second year.
- Many other combined degree options (BA + MS, BA + MA, BA + MPH, BA + MPA, BA + MSF, etc.) exist for an undergraduate psychology degree and a master's degree in second area of study, including master's degrees offered by other colleges at DePaul. Students should contact the second area of study for advising ideally in their second year. Students may view options in the course catalog.

This program was designed and approved by DePaul University in the late 1980's as a way to give qualified DePaul undergraduates the opportunity to earn both a BA and an MS degree in the field of Industrial and Organizational Psychology. Only students who are pursuing an undergraduate degree at DePaul are eligible to apply for this program. The program leads to a terminal MS degree, and should not be seen as an intermediate step towards a doctoral degree. Students who are interested in pursuing a PhD should speak to their advisor regarding the best way to prepare for such a program.

The combined program requires completion of 39 four-credit courses (156 credit hours) by the end of the student's junior year. Note that this requirement is three courses higher than the typical 36 that a student would earn by taking four classes per quarter.

The undergraduate component of this program includes the following:

<table>

</tr>
</tbody>
</table>
Students should work with their I-O advisor or I-O Program Director beginning as early as possible, ideally no later than their sophomore year. Applications for the combined program are due by June 1 of their junior year, and they can be found on the CSH Office of Advising and Student Services website. At the time of application, the student should have completed the undergraduate requirements with a grade point average of 3.2 or higher; a strong GPA of at least 3.5 is preferred. Supplemental application forms can be obtained from the I-O Program Director, and they must be submitted to the I-O Program Director together with the student’s Unofficial Transcript from DePaul, statement of goals, and General Graduate Record Examination (GRE) scores. Applications will be evaluated by DePaul’s Office of Graduate Admission and the Department of Psychology’s I-O Admissions Committee. Typically, applicants are informed of the admission decision by mid-June of the same year.

Students accepted into the graduate portion of the program take three courses per quarter during year four and an additional three courses per quarter during year five. The requirement of nine classes during year five cannot be reduced by taking additional classes during year four; and given the demands of graduate-level coursework, students are strongly discouraged from attempting to take more than three classes at a time. The nine courses taken during year four carry 36 credit hours; these 36 credit hours are added to the completed 156 credit hours to produce 192 credit hours, which meets the minimum requirement for conferral of the BA degree.

The MS degree requires an additional 36 credit hours of graduate coursework earned after conferral of the BA. After a student’s BA is conferred, they must adhere to the guidelines that appear in the MA/PhD I-O Program Graduate Academic Student Handbook (p. 533). One exception is students must maintain at least a 3.00 cumulative GPA in MS coursework to remain in good standing, and they must earn at least a 3.00 cumulative GPA by the time of anticipated degree conferral as one of the criteria to be eligible to graduate with their MS.

The required 18 courses taken during years four and five include the following courses:

**Statistics and Methodology**

<tbody>
<tr>
<td></td>
<td>Select six additional four-credit courses</td>
<td>24</td>
</tr>
</tbody>
</table>

In addition to enrolling in four credit hours of PSY 597, students are required to complete a master’s thesis to confer the MS degree. The
thesis is a project that allows the student to focus on a particular area of interest within the I-O field. There are three options available for the MS thesis:

1. An empirical research project, involving the collection and analysis of data and the writing of the thesis paper in APA style.
2. A library research paper, where the student reviews work already done on a topic, and writes a paper describing and summarizing that work and making recommendations for theory, research or practice.
3. An applied thesis, based on work the student is doing at an internship site.

After choosing one of the above options, the student is required to form a thesis committee consisting of a DePaul I-O faculty member who will serve as the committee chair, and a DePaul Psychology faculty member who will serve as a reader; both faculty must hold doctoral degrees. The thesis committee must approve of the student's thesis proposal, which may also need to be approved by the Institutional Review Board before the student may begin work.

Students in the combined program are not required to have a minor area of graduate study. However, the areas of specialization listed for the MA/PhD program are also available to students in the combined program, should they choose to select one.

Students in this program may apply a maximum of twelve graduate credit hours as three courses in their senior year toward both the undergraduate and graduate psychology requirements. The required application for degree conferral for the MS is separate from the required application for degree conferral for the BA. Students must apply for undergraduate degree conferral in anticipation of completing their fourth year of study.

Select four additional Psychology courses

1. Psychology courses must be numbered PSY 317 and above to count toward major field.

#### Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

### Psychology (BS)

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology.

The primary means of attaining our mission is classroom instruction. We offer courses across a wide range of disciplines within psychology; some of our courses also include laboratories that focus on experimental and statistical work. Some of these courses are beginning to be offered as fully online and as hybrid courses (partially online and partially in the classroom). Further learning opportunities are made available through field work, the Honors Program, Experiential Learning, Independent Study, and Internships. Our Internship Program consists of supervised work placements for which students earn academic credit; potential sites include human service organizations as well as community and industrial settings.

Bachelor of Science Psychology majors must select one of the three Bachelor of Science concentrations: General, Cognitive Neuroscience or Healthcare. Students are limited to only declaring one concentration.

After completing any of the concentrations, a psychology major should understand key concepts, principles, and overarching themes in psychology and be able to read and understand behavioral science data, design and conduct rudimentary psychological research studies, and apply research findings to everyday situations. These skills are applicable to a wide variety of occupations and professions. Psychology as a major provides excellent opportunities for students planning to go to graduate or professional school. Psychology as a minor provides a flexible complement to other majors.

#### Learning Outcomes

Students will be able to:

- Describe key concepts, principles, themes, and applications across a variety of content domains in psychology.
- Use scientific reasoning and critical thinking to interpret psychological phenomena.
- Design, conduct, and interpret basic psychological research, accounting for sociocultural factors.
- Design, conduct, and interpret basic psychological research, accounting for biological and/or quantitative factors.
- Apply ethical standards to evaluate psychological science and practice.
- Write a paper applying a cogent scientific argument that includes presenting information using a scientific approach, discussing psychological concepts, explaining the ideas of others, and expressing their own ideas with clarity.
College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Junior Year

| Experiential Learning |       |
| Required             |       |

Senior Year

Capstone

Select one of the following:

| PSY 361 | HISTORY AND SYSTEMS OF PSYCHOLOGY |
| PSY 389 | PSYCHOLOGY SENIOR SEMINAR |

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
3. Students with a primary major in Psychology are required to complete the Capstone offered by the Psychology department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Psychology are required to complete the Capstone offered by the Psychology department. Psychology students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1174)
- 3 Courses Required

Historical Inquiry (HI) (p. 1178)
- 2 Courses Required

- 1 Course Required

[1 CR Course]
Philosophical Inquiry (PI) (p. 1180)  
• 2 Courses Required

Religious Dimensions (RD) (p. 1181)  
• 2 courses required

Scientific Inquiry (SI) (p. 1183)  
• 2 Courses Required  
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)  
• 1 Course Required

Notes  
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Psychology BS Healthcare Concentration  
The BS Healthcare concentration requires a different set of Liberal Studies Program requirements. Please refer to the H (p. 830) healthcare concentration requirements (p. 830) for details.

</tr>
</tbody>
</table>

PSY 397  
EXPERIENTIAL LEARNING/PSYCHOLOGY RESEARCH

PSY 398  
TUTORING AND MENTORING IN PSYCHOLOGY

PSY 399  
INDEPENDENT STUDY

1 Students accepted into the honors program must register for PSY 391 and PSY 396 for 3 quarters (autumn, winter, spring) and a maximum of 4 credits total for each course.

PSY 105 and PSY 106 are not sequential, i.e., one is not a prerequisite for the other. They may be taken in either order. For the research sequence, PSY 240 must be taken first; PSY 241 and PSY 242 may be taken in either order. A special note: PSY 340, an elective course, may be taken immediately after the completion of PSY 240.

Concentration Requirements  
Students must complete the requirements for one of the following three concentrations: General, Cognitive Neuroscience or Healthcare. Students are limited to only declaring one concentration.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

• Cognitive Neuroscience Concentration, Psychology (BS) (p. 829)
• General Concentration, Psychology (BS) (p. 830)
• Healthcare Concentration, Psychology (BS) (p. 830)

Note: An exceptional student who has completed the required courses in Psychological Science may, upon consent of his advisor and the chair, be admitted in the senior year to certain 400-level courses described in the Graduate Catalog for Psychology. Any 400-level courses will only apply toward the B.S. degree.

In addition, all psychology majors are encouraged to engage in individual research projects with the supervision of faculty. Upon faculty approval psychology majors may register for the following psychology courses:

<table>

</tbody>
</table>
Electives

• Six additional major level science (BIO, CHE, HLTH, MAT, NEU, or PHY) courses chosen in consultation with an academic advisor. Psychology courses are not applicable.
• Four general (open) electives

1 Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Prerequisites (or placement out): MAT 130 for BIO 191. MAT 131 for PHY courses. Chemistry placement test is required before attempting CHE courses. Other liberal studies requirements: students take SOC 101 (SCBI) and one Ethics course (PHL 229 or REL 229 or HLTH 229) for either PI or RD.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

</table>

1 Students must earn a C- or better in this course.
2 Students with a primary major in Psychology are required to complete the Capstone offered by the Psychology department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Psychology are required to complete the Capstone offered by the Psychology department. Psychology students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p.   )
• 3 Courses Required

Historical Inquiry (HI) (p. 1178)
• 2 Courses Required

• Not Required

Philosophical Inquiry (PI) (p.   )
• 2 Courses Required

Scientific Inquiry (SI) (p.   )
• Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p.   )
• 3 Courses Required:
  • SOC 101
  • 2 Additional Courses

Religious Dimensions (RD) (p.   )
• 2 Courses Required

1 Students must take one ethics course in HLTH 229, PHL 229, or REL 229 to fulfill either a PI or RD requirement.

Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or as the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Psychology (MS)

This program offers a terminal Master of Science degree which serves as a foundation for students interested in pursuing doctoral training. It also provides students with the basic knowledge and skills appropriate for a range of occupations in business, government, and human services (excluding the provision of clinical services).

The master's program has two goals. The first is to provide the student with sufficient breadth in the methodology and content of psychology to demonstrate competence in two major areas: (1) Core areas of the discipline of psychology; and (2) Methods of the discipline of psychology. A second goal of the program is to provide the student with sufficient information and skills to apply the knowledge of the discipline competently in their daily lives and careers. This includes course work in the theory and techniques of the application of psychological principles, and also includes a thorough grounding in ethical and professional standards of psychologists. Although the program builds upon a core of basic courses, it provides some flexibility for students (with the approval of their advisors) to shape their course of study to fit special interests and needs.

Program Requirements

<tr>
<td>Core Requirements</td>
<td>40</td>
</tr>
<tr>
<td>Elective Requirements</td>
<td>8</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Identify major theoretical concepts in psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how the field of psychology currently advances knowledge.
- Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
- Develop testable research questions, identify the strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature in psychology.
- Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.

MS Degree Requirements

Course Requirements

Students must complete at least 48 quarter hours and maintain a cumulative GPA of at least 3.20.

Graduate Capstone

Select one of the following:

| PSY 420 | QUANTITATIVE RESEARCH DESIGN | 4 |

Select one of the following:

| PSY 439 | COGNITIVE DEVELOPMENT        |
| PSY 554 | EMOTIONAL DEVELOPMENT        |
| PSY 555 | SOCIAL DEVELOPMENT           |

Select one of the following:

| PSY 404 | PERCEPTION AND COGNITION     |
| PSY 426 | LANGUAGE AND COGNITION       |
| PSY 473 | THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING |

Select one of the following:

| PSY 430 | SOCIAL PSYCHOLOGY OF THE SELF |
| PSY 435 | SPECIAL SEMINAR IN PSYCHOLOGICAL SCIENCE |
| PSY 556 | PREJUDICE AND INTERGROUP RELATIONS |
| PSY 560 | SOCIAL COGNITION              |

Diversity Core Courses

Select one of the following:

| PSY 520 | PRINCIPLES OF HUMAN DIVERSITY |
| PSY 521 | PSYCHOLOGY OF THE AFRICAN-AMERICAN CHILD |
| PSY 561 | ADVANCED PSYCHOLOGY OF WOMEN AND GENDER |
| PSY 554 | EMOTIONAL DEVELOPMENT        |
| PSY 555 | SOCIAL DEVELOPMENT           |
| PSY 556 | PREJUDICE AND INTERGROUP RELATIONS |

Sample Psychology Elective Courses

Select three of the following:

| PSY 416 | METHODS IN QUALITATIVE RESEARCH |
| PSY 418 | MULTIVARIATE STATISTICAL ANALYSIS |
| PSY 419 | FACTOR ANALYSIS AND PATH MODELING |
| PSY 422 | COMPUTING FOR THE BEHAVIORAL SCIENTIST |
| PSY 435 | SPECIAL SEMINAR IN PSYCHOLOGICAL SCIENCE |
| PSY 440 | PSYCHOLOGY OF WORK AND MOTIVATION |
| PSY 441 | PSYCHOLOGY OF LEADERSHIP |
| PSY 442 | PERSONNEL PSYCHOLOGY |
| PSY 444 | PERFORMANCE APPRAISAL |
| PSY 446 | PSYCHOLOGICAL THEORIES OF ORGANIZATIONS |
With the permission of the Program Director, students may be able to substitute other psychology or non-psychology courses for the diversity and elective requirements detailed above.

Additional Requirements

In addition, program requirements include two options for demonstrating successful completion of the program: 1) a traditional master’s thesis involving an empirical study; or 2) a research study or program evaluation "Capstone" project based on the student’s internship or employment experience. Upon completion of coursework, students are required to maintain active student registration status until graduation.

Time Limitation

All degree requirements must be successfully completed within a maximum period of five years.

Program Graduate Academic Student Handbook

The content on this page is shared from another website. If you are seeing this message, the referring website is not available or is experiencing technical difficulties.

Minimum Grades

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.

2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.

3. A second occurrence of a grade lower than a B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student’s record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student’s advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.

4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student’s program to hear the appeal. Depending on the student’s academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master’s degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

Academic Probation

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.00. If a student’s cumulative GPA falls below this minimum, the student will be put on academic probation and will have one quarter of coursework to raise it up to the minimum.

Academic Dismissal

If the student does not raise their cumulative GPA to at least a 3.00 after one quarter of coursework while on academic probation, the student will be academically dismissed from the program. If the student’s cumulative GPA falls below the minimum a second time, they will be academically dismissed from the program without a second academic probationary period.

Graduation Requirements

Students need a minimum cumulative GPA of 3.20 in courses required by the program. In addition to meeting the minimum cumulative GPA requirement, lack of progress towards degree completion, and/or unsatisfactory evaluation could result in dismissal. See individual program policies for more details.

Graduation with Distinction for MS

The criteria for graduating "with distinction" are a minimum cumulative GPA of 3.75 and the recommendation of "with distinction" by the thesis committee.

Time Limitation

Students must complete their degree requirements within a five-year period from the first registration date for a course in the program.

Public Administration (MPA)

The Master of Public Administration (MPA) at DePaul University prepares students interested in public administration to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MPA is designed for current government professionals or individuals seeking
to pursue a career in the public sector. The degree equips students with a broad public administration knowledge in government—local, state, federal and international.

The MPA program offers six on-site concentrations: public management; emergency management; health care administration; international public management; standard, and metropolitan planning and urban affairs. Four of these concentrations can be completed in the online only MPA: public management; emergency management; standard; and metropolitan planning and urban affairs.

This degree is accredited by Network of Schools of Public Policy, Affairs and Administration (NASPAA).

### Mission Statement
The Master in Public Administration (MPA) degree prepares students for leadership and administrative roles in the public sector. We educate students on the technical, managerial, informational, and leadership skills required to deliver effective, accountable, and equitable government services to the public. We promote compassion for marginalized communities and ethical service to all people with a focus on social justice, professionalism, cultural sensitivity, and transparency.

### Degree Requirements
Students complete a total of 13 courses (52 credit hours). Nine courses (36 credit hours) of core course work and four courses (16 credit hours) in a concentration are required.

#### Internship Capstone Option

Students may choose to replace MPS 593 with MPS 610 Internship Capstone option.

#### Concentration

Students in the MPA program are required to choose one of six concentrations: Emergency Management, Metropolitan Planning and Urban Affairs, International Public Management, Health Care Administration, Public Management and Standard. Four of these concentrations are available to students pursuing the online only MPA: Metropolitan Planning and Urban Affairs, International Public Management, Standard, and Public Management concentrations.

#### Internship Option

Students can opt to complete an internship or professional development experience in a government setting. The student would enroll in MPS 601 for course credit, which will be applied to the MPA degree by the student’s adviser. Contact SPSAdvising@depaul.edu (spsadvising@depaul.edu) for more details.
## Concentration Requirements

### Emergency Management Concentration

Emergency Management is a critical concern for the public, private and non-profit sectors. The concentration explores both the conceptual elements of emergency preparedness and the practical implementation of emergency management that typically occur at the intersection of local and national politics. Courses will address topics such as public safety and law enforcement, crisis management, disaster response and recovery. This concentration will provide students with both theoretical and practical knowledge that will prepare them for private or public sector employment in the area of emergency preparedness for both security and non-security related incidents.

</table>

Select two electives from the following:

- MPS 513 VOLUNTEERISM IN GLOBAL CIVIL SOCIETY
- MPS 526 LOCAL GOVERNMENT ADMINISTRATION
- MPS 527 BEHAVIORAL STRATEGIES FOR PUBLIC SERVICE
- MPS 552 GIS FOR COMMUNITY DEVELOPMENT
- MPS 564 PUBLIC SAFETY ADMINISTRATION AND PLANNING
- MPS 578 URBAN RESILIENCE AND CLIMATE ADAPTATION POLICY
- MPS 601 PROFESSIONAL DEVELOPMENT AND INTERNSHIP
- MPS 616 INTERNATIONAL RELATIONS AND CONFLICT MANAGEMENT
- PRAD 540 CRISIS COMMUNICATION MANAGEMENT
- FMS 419 HUMANITARIAN LOGISTICS
- or MGT 520 HUMANITARIAN SUPPLY CHAIN

### Health Care Administration Concentration

The Health Care Administration concentration provides students with the managerial and analytical skills necessary to understand and influence the processes through which hospitals, associated health care organizations, and public and private agencies provide health care opportunities to explore the roles of specific nonprofit and governmental health care providers and regulatory agencies.

<table>

</tbody>
</table>

Select two electives from the following:

- MPS 513 VOLUNTEERISM IN GLOBAL CIVIL SOCIETY
- MPS 516 MANAGEMENT OF INFORMATION TECHNOLOGY
- MPS 519 RESOURCE DEVELOPMENT
- MPS 527 BEHAVIORAL STRATEGIES FOR PUBLIC SERVICE
- MPS 529 STRATEGIC MANAGEMENT AND PLANNING
- MPS 534 MEDICAL SOCIOLOGY
- MPS 535 HEALTH CARE POLICY
- MPS 537 COMPARATIVE HEALTHCARE SYSTEMS
- MPS 546 ADVOCACY AND LOBBYING
- MPS 552 GIS FOR COMMUNITY DEVELOPMENT
- MPS 562 INTRODUCTION TO HEALTH DEVELOPMENT
- MPS 575 STUDY ABROAD SEMINAR
- MPS 576 ENERGY POLICY AND THE ENVIRONMENT
- MPS 578 URBAN RESILIENCE AND CLIMATE ADAPTATION POLICY
- MPS 601 PROFESSIONAL DEVELOPMENT AND INTERNSHIP
- MPS 604 SPECIAL TOPICS
- MPS 616 INTERNATIONAL RELATIONS AND CONFLICT MANAGEMENT
- MPS 619 INTERNATIONAL LAW

### International Public Management Concentration

Students intending to work in international organizations require a special understanding of how public and non-profit institutional structures and managerial processes vary around the world. This concentration emphasizes the interdependence of government and non-government organizations (NGOs), while addressing a variety of management, ethics, and policy issues.

<table>

- MPS 612 INTERNATIONAL POLITICAL ECONOMY
- MPS 615 MANAGEMENT OF INTERCULTURAL DIVERSITY
- MPS 616 INTERNATIONAL RELATIONS AND CONFLICT MANAGEMENT
- MPS 618 MIGRATION AND FORCED MIGRATION
- MPS 619 INTERNATIONAL LAW
Metropolitan Planning and Urban Affairs Concentration

This concentration is for students wanting to work in land use, transportation, economic development, zoning, housing, and other areas of community development. Coursework emphasizes the technical skills of public administration and the tools of analyses and development as applied in a broad public setting. Students study best practices to illustrate the effectiveness of alternative designs and models.

Public Management Concentration

For those who aspire to become city managers, chief administrative officers, department directors, and senior project managers, this concentration focuses on the roles, requirements, challenges, and processes of running a public organization. Students gain the knowledge and skills needed to work successfully with professional staff, an elected governing board, consultants, and the public in the implementation of broad policy decisions. Legal issues of interest to public managers are also included.

Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.
Non-Degree Seeking Students
While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Public Administration (MPA), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Public Administration (MPA)
The Masters in Public Administration (MPA) is an externally-accredited degree (NASPAA) designed to prepare students pursuing careers in local, state and federal government organizations to be ethical and effective leaders in the spirit of St. Vincent de Paul. The combined degree program option is intended for selected students for whom the master’s degree is the preferred preparation for their career goals, or is viewed as additional preparation before pursuing a doctoral or law degree. The combined Bachelors/MPA program shortens the time to completion of the bachelor’s and master’s degrees by and costs less in tuition than pursuing the two degrees sequentially.

Combined program students take three MPA courses during their senior year, typically one per quarter, which double-count for both the bachelor’s and the master’s degrees. Placement of the successfully completed MPA courses either as open electives or as major field electives resides with the College hosting the specific Bachelor’s degree program. After the bachelor’s degree is awarded the three courses are credited toward the requirements of the MPA degree program as well.

Participants in the combined MPA program pay the current tuition rate applicable to their undergraduate program for any courses counted toward the requirements of both their bachelor’s and master’s degree programs. Participants will be eligible for the current Double Demon Discount for the remainder of their graduate coursework.

Through the combined Bachelors/MPA program, the student is responsible for working with both their undergraduate advisor to manage their undergraduate degree progress and the SPS academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to plan a graduate program of study that includes the MPA courses as open electives or major field electives. Undergraduates are advised to meet a faculty member once per quarter during their senior year as an undergraduate to ensure that they are on track to graduate and transition into the master’s program. They also must maintain at least a 3.0 GPA in their graduate-level courses in order to matriculate into the graduate program.

Click on DEGREE REQUIREMENTS (p. 834) for descriptions of the required MPA coursework.

Public Health (MPH)
The mission of the Master of Public Health program is to prepare dynamic public health leaders to work collaboratively with diverse communities to prioritize and investigate health concerns to achieve lasting social change, and foster health equity to promote the health and well-being of all people.

The Master of Public Health program has two concentrations, community health practice and social epidemiology. The program provides a collaborative, applied approach to education, focusing on health promotion and disease prevention with individuals, families, communities, and organizations. The objective of the program is to provide students with the professional knowledge and practical skills they will need to identify and address community health needs as a working public health practitioner.

MPH in Community Health Practice
The community health practice concentration prepares students to be leaders, innovators, and advocates in addressing community health problems and reducing health disparities. This concentration applies an interdisciplinary approach to problem solving and focuses on skill development around community health assessment, program design, and program evaluation. Students learn to appraise community health needs and design, implement, and evaluate interventions to address those needs. The objective is to provide students with the professional knowledge and practical skills to become effective public health leaders.

MPH in Social Epidemiology
The social epidemiology concentration prepares students to be public health leaders that use the methodological approaches of biostatistics and epidemiology to investigate and reduce health inequalities. This concentration focuses on social determinants of health as causes of health disparities and examines the role of concepts such as power and social context. Students learn to use data to inform research, policy, and intervention efforts that lead to effective action aimed at eliminating health inequalities.

Real-World Experience
During the final year of instruction, students gain practical experience working in the public health field while completing the required practicum. The practicum includes nine months of professional practice and provides students with a structured and integrated application of their coursework. There are a variety of practicum site opportunities available to students that represent a range of settings (e.g. governmental agencies, community-based organizations, health care delivery systems) and public health topics (e.g. sexual/reproductive health, childhood nutrition, refugee and immigrant health). Students choose from an approved list of opportunities and are matched to a practicum site based on their interests and career goals.

During the practicum, students work on a project that addresses a need or fills a gap at their practicum site. Students receive mentoring and guidance on their project from their site supervisor (public health professional at the practicum site) and faculty advisor. The project serves as the foundation for the capstone thesis, which is developed over a three-course sequence that runs concurrently with the practicum.

The Master of Public Health degree may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MPH/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following
All MPH students will be able to:

- Master of Public Health + Community Development Certificate
- Master of Public Health + Critical Ethnic Studies Certificate
- Master of Public Health + Global Health Certificate
- Master of Public Health + Health Care Administration
- Master of Public Health + Metro Planning and Development Certificate
- Master of Public Health + Social Research Certificate
- Master of Public Health + Sustainable Urban Food Systems Certificate
- Master of Public Health + Women’s and Gender Studies Certificate

### Learning Outcomes

#### Core MPH Learning Outcomes

All MPH students will be able to:

- Apply epidemiological methods to the breadth of settings and situations in public health practice
- Select quantitative and qualitative data collection methods appropriate for a given public health context
- Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming, and software, as appropriate
- Interpret results of data analysis for public health research, policy, or practice
- Compare the organization, structure and function of health care, public health, and regulatory systems across national and international settings
- Discuss the means by which structural bias, social inequities, and racism undermine health and create challenges to achieving health equity at organizational, community, and societal levels
- Assess population needs, assets, and capacities that affect communities’ health
- Apply awareness of cultural values and practices to the design or implementation of public health policies or programs
- Design a population-based policy, program, project, or intervention
- Explain basic principles and tools of budget and resource management
- Select methods to evaluate public health programs
- Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence
- Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes
- Advocate for political, social, or economic policies and programs that will improve health in diverse populations
- Evaluate policies for their impact on public health and health equity
- Apply principles of leadership, governance, and management, which include creating a vision, empowering others, fostering collaboration, and guiding decision making
- Apply negotiation and mediation skills to address organizational or community challenges
- Select communication strategies for different audiences and sectors
- Communicate audience-appropriate public health content, both in writing and through oral presentation
- Describe the importance of cultural competence in communicating public health content
- Perform effectively on interprofessional teams
- Apply systems thinking tools to a public health issue

#### Community Health Practice

Students in the Community Health Practice Concentration will be able to:

- Design components of a research study appropriate for a specific question and in a particular community
- Analyze population needs and assets that affect community health equity
- Develop program priorities, goals, and measurable objectives in response to community needs
- Design a well-constructed evaluation plan
- Develop an effective community health project component that applies theoretical study design and considers priority population, delivery method, and setting

#### Social Epidemiology

Students in the Social Epidemiology Concentration will be able to:

- Analyze key structural and social determinants of health and the evidence base underlying conceptual thinking about these factors
- Apply modelling strategies most commonly used in social epidemiology (OLS and logistic regression)
- Apply multilevel regression models incorporating area-level social determinants of health and individual level health outcomes
- Translate findings from an empirically-based project into recommendations for a population-based policy or program
- Contextualize results of data analysis for public health research, policy, or practice

### Degree Requirements

Students must complete a total of 58 quarter hours consisting of 7 required core courses, 7 required concentration specific courses, and two elective courses.

All MPH courses are offered during the evening. The program uses a cohort-based model in that students are admitted once per academic year and move through courses together as a single group. Students can complete their degree in two, three, or four years. Students complete the practicum field experience and capstone course sequence in their last year.

</table>
Concentration Courses (7 Courses, 28 Credit Hours)
The list of courses required for each concentration can be found under "Concentration Requirements."

Elective Courses (2 Courses, 8 Credit Hours)
Two elective courses, comprising eight credit hours, are required. Students are encouraged to select elective courses that align with their public health interests and career objectives. In addition to the MPH elective courses listed below, students should consider other graduate-level courses at DePaul. A student who chooses to take a course outside of MPH for elective credit must produce a brief rationale for the choice, discussing its relevance to the field of public health and the student’s course of study. Students must receive approval from the Program Director before enrolling in elective courses outside the MPH program.

Practicum Requirements
Students complete their practicum field experience during their last year in the program. Students are required to commit to 8-10 hours per week to their practicum site, for a minimum of 250 hours over the course of the nine-month placement. Students are required to be physically onsite at the agency for the majority of these hours providing students with a structured and integrated application of their coursework.

Capstone Thesis
During the practicum, students work on a project that address a need or fills a gap at their practicum site. The project serves as the foundation for the capstone thesis, which is developed over a three-course sequence that runs concurrently with the practicum. Students must receive a passing grade on their capstone thesis in order to complete the program and obtain their MPH degree.

Concentrations, tracks, and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Community Health Practice Concentration, Public Health (MPH) (p. 841)
- Social Epidemiology Concentration, Public Health (MPH) (p. 841)

Student Handbook
Mission Statement
The mission of the Master of Public Health program at DePaul University is to prepare public health leaders to work collaboratively with diverse communities to prioritize and investigate health concerns, achieve lasting social change, and foster health equity to promote the health and well-being of all people.

Admission
Please see the Admission Requirements on the MPH program webpage (http://las.depaul.edu/academics/public-health/graduate/public-health-mph/Pages/admission-requirements.aspx).

Advising
MPH students receive three levels of advising through the Technical Advisor, Practicum Advisor, and Professional Advisor as described below:

- Technical Advisor: The Program Manager serves as the technical advisor to all MPH students. The technical advisor assists students with curriculum planning, selecting electives, navigating the University, and providing overall assistance to ensure success.
- Practicum Advisor: The practicum advisor is the Director of Community Partnerships. MPH students work with the practicum advisor regarding their practicum, capstone product, and capstone poster.
- Professional Advisor: MPH students will be matched with a professional advisor upon entering the program. MPH faculty members will serve as professional advisors and will be able to offer valuable advice on professional development and career planning.

Degree Timeline
Upon matriculation, students meet with their technical advisor to create their course plan based on anticipated graduation date (2, 3, or 4 years). Continual assessment of completion date is encouraged, and any changes will be discussed and implemented through the technical advisor. The technical advisor also assists with elective selection and enrollment.

Credit Hours and Enrollment Requirements
Students are required to take a total of 56 quarter credit hours to complete the MPH program. Full-time study is at least eight (8) quarter hours plus practicum during the final year. Most courses earn four (4) credit hours each.

In order to take a full course load in the Autumn quarter of any year, students must have no more than one incomplete grade in formal coursework from the previous academic year. For each incomplete over one, the student must reduce his/her course load by one course. The student will have such a reduced course load for each subsequent quarter until no more than one incomplete remains. MPH students with two or more incompletes are prohibited from taking more than one course per quarter until the incompletes are resolved. The University policy, applicable to all MPH students, regarding incompletes states the following: "Undergraduate and graduate students have at most two quarters to complete an incomplete. At the end of the second quarter (excluding summer) following the term in which the incomplete grade was assigned, the incomplete will automatically convert to an F grade."
Transfer Credit

We do not accept prior academic credit towards the completion of an MPH degree. All students are required to complete the 56 credit hours at DePaul.

Leave of Absence

There is no formal leave of absence process, save for military leaves, for the MPH program. Students can take up to three consecutive quarters off before being discontinued in the system. Students wishing to take some time off must email the MPH Program Director and MPH Program Manager to provide a brief explanation. For students needing to take a military leave, the appropriate form can be found and completed on Campus Connect.

Withdrawal

Students who wish to discontinue studies, permanently or for some indefinite period of time, and are in good standing should complete the appropriate process. Withdrawal from or dropping courses may have financial implications. All related information is found here (p. 1430). A student who has withdrawn and subsequently wishes to resume studies must reapply to the program. Readmission is not guaranteed. If a student wishes to gain readmission less than a year from the initial withdrawal date, a readmission form may be completed through the Office of Graduate Admissions. For students wishing to be readmitted more than a year after the initial withdrawal date, a new application for admittance must be submitted through the Office of Graduate Admissions.

Repeating Required Courses

A graduate student may need to repeat a course. When a course is repeated, both grades earned are recorded on the academic record. They are designated as “original” and “repeated.” However, only the second grade counts toward that degree requirement, is added to cumulative credit, and is calculated into the degree’s cumulative grade point average. If a student wishes to repeat a course more than once, they need permission from their graduate program director. Students who register for a course for the third time without first obtaining permission may be dropped from the course. All repeated course grades are calculated into the cumulative grade point average and only the last course grade applies to that degree requirement. Note: Federal and state financial aid regulations restrict the number of times that a student may receive federal or state financial aid for repeating a course for which credit has been previously earned. The student should contact the Office of Financial Aid at DePaul Central to learn about the financial aid impact if they are considering repeating a course for which they have previously earned credit.

Academic Probation

If a student’s cumulative GPA is below 3.0 (on a 4.0 scale) after any academic quarter, the student is placed on probationary status. The student will receive a warning letter stating the specific conditions of probation. Students on probation are required to meet with the Program Director and technical advisor to establish an action plan for addressing the academic probation. Students on probation have one academic quarter to address the specific probation conditions or face dismissal from the program.

Discipline and Discontinuance

Violation of university or MPH program regulations and policies can result in disciplinary action ranging from restrictions on registration to termination of the student’s graduate status. Restriction on registration may simply mean that the student is not allowed to register for a full load of courses until he/she has resolved the issue. Other forms of disciplinary action can include lowered grades in coursework, or, in extreme cases, recommendation for termination from the program. The action taken is based on stated policies of the university and the MPH program, the magnitude and scope of student behavior, and current/prior evaluations of student performance.

Academic Integrity

Due to the serious nature of academic integrity violations, students found to have engaged in such actions jeopardize their status with the MPH program and the university. The MPH program will consider the student’s behavior with regard to the ethical and professional standards of public health and may recommend procedures up to and including permanent dismissal from the program.

Requirements for Degree Conferral

In order to be eligible for MPH degree conferral, students must:

- Submit all required paperwork to LAS by the College’s deadlines
- Submit all required paperwork to MPH by the Program’s deadlines
- Successfully complete the required 56 credit hours in 2, 3, or 4 years
- Have a cumulative GPA of 3.0 or higher
- Have a grade of Pass for MPH 600 and MPH 699
- Earn a grade of Pass on the MPH Capstone Thesis
- Present a poster at the MPH Graduate Forum
- Complete a minimum of 250 hours in practicum

Graduation with Distinction

In order to graduate with distinction from the MPH program, students must earn both a 3.75 cumulative GPA and a grade of distinction on their capstone thesis.

Dismissal from the MPH Program

Dismissal from the program may occur under any of the following circumstances (but is not limited to this list). Additionally, students should note that degree conferral might be delayed under any of these conditions.

- Fails to meet what the program, the college, or the university deems to be satisfactory progress toward a graduate degree
- Violates the university standards as specified by the program and college, including academic integrity policies
- Fails to address conditions for academic probation within one academic quarter
- Fails to resolve an incomplete grade (IN, R) in any course for more than two quarters
- Fails to complete MPH requirements for degree conferral as listed above

Students subject to disciplinary action by the MPH program are also subject to the university procedures as described in the Graduate Academic Policies.

MPH Grievance Policy

The MPH program realizes that students may have concerns throughout their academic career that will require the intervention of the university, or that will require a university response. The university has a number of established policies and procedures for responding to specific concerns. The MPH program further acknowledges that students may have concerns not addressed by university policies, which may require
further attention. These include concerns about coursework or working relationships with faculty and/or other students.

Students are always encouraged to try and address concerns through direct communication with involved parties. However, there may be time where such attempts at resolution are not successful, or where the assistance of another party may be helpful. In these instances, the MPH program and university have several resources available to students. If requested, all inquiries will be treated confidentially to the extent possible.

**Community Health Practice Concentration, Public Health (MPH)**

The community health practice concentration prepares students to be leaders, innovators, and advocates in addressing community health problems and reducing health disparities. This concentration applies an interdisciplinary approach to problem solving and focuses on skill development around community health assessment, program design, and program evaluation. Students learn to appraise community health needs and design, implement, and evaluate interventions to address those needs. The objective is to provide students with the professional knowledge and practical skills to become effective public health leaders.

**Public Health (MPH), Combined Bachelor's + Master's Degree**

**DePaul Undergraduate Degree + Public Health (MPH)**

Students completing any undergraduate degree at DePaul are eligible to apply for the bachelor’s + Master of Public Health in their Junior year if they meet the following criteria:

- They have achieved Junior status;
- They have completed at least 88.0 credit hours of their undergraduate degree;
- They have a GPA of 3.5 or higher.

If accepted to the bachelor’s + Master of Public Health, in their senior year, the student will take the following courses:

<table>

**Winter Quarter**

| MPH 511  | HEALTH AND BEHAVIOR THEORY                  | 4     |

**Spring Quarter**

Select one of the following:

- MPH 522 PROGRAM DEVELOPMENT AND GRANT WRITING (Community Health Practice Concentration)
- MPH 530 SOCIAL EPIDEMIOLOGY (Social Epidemiology Concentration)

These three courses will serve as electives in an undergraduate program, unless the student’s undergraduate advisor makes an exception and allows them to apply to a declared major or minor.

The combined degree program allows three graduate-level courses (12 credit hours) to count towards both the undergraduate degree and the graduate degree. The student will be awarded their Bachelor’s degree upon the completion of their undergraduate degree requirements. The Master of Public Health degree will be awarded upon completion of the graduate degree requirements.

For more information, please visit the Master of Public Health program website (https://las.depaul.edu/academics/public-health/Pages/default.aspx).

**Social Epidemiology Concentration, Public Health (MPH)**

The social epidemiology concentration prepares students to be public health leaders that use the methodological approaches of biostatistics and epidemiology to investigate and reduce health inequalities. This concentration focuses on social determinants of health as causes of health disparities and examines the role of concepts such as power and social context. Students learn to use data to inform research, policy, and intervention efforts that lead to effective action aimed at eliminating health inequalities.

Public Health (MPH/MBA in Management)

Program Description
The Master of Business Administration-Master of Public Health (MBA-MPH) joint degree develops students’ managerial acumen and their expertise as public health professionals.

Jointly offered by the Kellstadt Graduate School of Business and the College of Liberal Arts and Social Sciences, the 88 credit hour program provides students with the opportunity to earn advanced degrees in two highly complementary fields—business and public health. The landscape for healthcare managers is radically changing with advances in technology, shifts in demographics, and the aging of the population. Success in this highly competitive field not only requires skills in finance and operations, but also an in-depth understanding of disease prevention and health promotion at the organizational and community level. The combined degree program is designed for committed and enterprising students who want to take advantage of the growing emphasis on public health and population health in the design and delivery of healthcare.

The MBA-MPH program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive, or consulting positions in community/population health.

Concentrations
Management
This MBA concentration provides students with in-depth, applied learning that will enable them to successfully organize, lead, and direct others in the workplace. The program prepares students for professional opportunities across industries, with a focus on self-awareness, leadership development, teamwork, project management, and managing others.

Community Health Practice
This MPH concentration prepares students to be leaders, innovators, and advocates in addressing community health problems and reducing health disparities. The concentration applies an interdisciplinary approach to problem solving and focuses on skill development around community health assessment, program design, and program evaluation. Students learn to appraise community health needs and design, implement, and evaluate interventions to address those needs.

Learning Outcomes
Core MPH Learning Outcomes
All MPH students will be able to:

- Apply epidemiological methods to the breadth of settings and situations in public health practice
- Select quantitative and qualitative data collection methods appropriate for a given public health context
- Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming, and software, as appropriate
- Interpret results of data analysis for public health research, policy, or practice
- Compare the organization, structure and function of health care, public health, and regulatory systems across national and international settings
- Discuss the means by which structural bias, social inequities, and racism undermine health and create challenges to achieving health equity at organizational, community, and societal levels
- Assess population needs, assets and capacities that affect communities' health
- Apply awareness of cultural values and practices to the design or implementation of public health policies or programs
- Design a population-based policy, program, project, or intervention
- Explain basic principles and tools of budget and resource management
- Select methods to evaluate public health programs
- Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence
- Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes
- Advocate for political, social or economic policies and programs that will improve health in diverse populations
- Evaluate policies for their impact on public health and health equity
- Apply principles of leadership, governance, and management, which include creating a vision, empowering others, fostering collaboration, and guiding decision making
- Apply negotiation and mediation skills to address organizational or community challenges
- Select communication strategies for different audiences and sectors
- Communicate audience-appropriate public health content, both in writing and through oral presentation
- Describe the importance of cultural competence in communicating public health content
- Perform effectively on interprofessional teams
- Apply systems thinking tools to a public health issue

Community Health Practice
Students in the Community Health Practice Concentration will be able to:

- Access, evaluate, and utilize existing data to develop a community health assessment
- Integrate existing data and collected primary data to create an organizational assessment
- Critically assess and synthesize evidence-based public health research for addressing a health-related issue
- Develop an effective community health project that applies theoretical study design and considers priority population, delivery method, and setting
- Analyze and describe the outcomes/results of the community health project, as well as the implications of such outcomes/results
- Present capstone findings in a scientific poster format suitable for presentation at a professional conference

Health Sciences majors cannot earn a minor in Public Health Studies.

### Public Law and Political Thought (Minor)

This minor provides the non-major with an introduction to the study of law and its foundation in political thought.
Public Policy (BA)

The BA in Public Policy prepares students interested in public policy to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. Public policy is a discipline that explores the role and impact of decision-making by governments. The discipline includes knowledge of both process and substance of a particular policy area. Thus, a student in public policy must have both generalist and specialist skills to apply to a particular public problem. In terms of political process, the study of public policy examines questions of how public policy is formulated, implemented, and evaluated over time. It also explores notions of agenda-setting and framing of issues that lead to a problem gaining the attention of the government. Public policy specialists and analysts are hired by all levels of government. During the past several years in addition to the government sector, the nonprofit and private sectors have sought public policy analysts for employment. Therefore, the curriculum prepares students for being public policy specialists in both the private and nonprofit sectors in addition to the public sector. The curriculum is tailored to prepare students who would like to continue their education in graduate programs or law schools. The program offers opportunities to students to pursue internships, conduct research, and participate Global Learning Experiences (GLE).

Mission Statement
The Public Policy degree (BA) educates undergraduate students on the decisions and non-decisions made by government organizations and the ways in which businesses, nonprofit organizations, and civil society participate in policy making. The focus is on understanding how policy is designed, formulated, implemented and evaluated as part of the policy process. Being aware of public problems, policy agenda-setting, and decision making provides students with a broad background that will allow them to succeed in the workplace, graduate school, or law school. We promote compassion for marginalized communities and service to all people with integrity, accountability, justice, professionalism, sensitivity, and transparency.

PSC 120 is recommended, in addition to the above courses, for students who lack a background in American politics.

Students majoring in Political Science (BA) or minoring in American Politics or International Politics are restricted from earning this minor.

Learning Outcomes
Students will be able to:

- Evaluate different approaches to public policy studies in terms of theoretical and practical applications
- Evaluate the institutional and structural elements of public policy making and implementation.
- Apply critical thinking concepts of public policy analysis which includes understanding of research design and methods, interpretation and communication of results, and research ethics.
- Apply knowledge of a special topic related to public policy to demonstrate mastery of the subject matter.
contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

LSP 200  SEMINAR ON MULTICULTURALISM IN THE UNITED STATES  4

**Junior Year**

**Experiential Learning**

Required  4

**Senior Year**

**Capstone**

Select one of the following:

- PPS 393  CAPSTONE: GENTRIFICATION  1  4
- PPS 394  CAPSTONE: GREEN INFRASTRUCTURE  1,3  4

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computation Reasoning and Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3. A student majoring in Public Policy Studies (PPS) is required to complete the Capstone offered by the PPS Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A PPS major in the University Honors Program shall take the University Honors Capstone and the PPS Capstone.

**Learning Domains**

**Arts and Literature (AL)** (p. 1174)
- 3 Courses Required

**Historical Inquiry (HI)** (p. 1178)
- 2 Courses Required

- 1 Course Required
  [1 CR]

**Philosophical Inquiry (PI)** (p. 1180)
- 2 Courses Required

**Religious Dimensions (RD)** (p. 1181)
- 2 Courses Required

**Scientific Inquiry (SI)** (p. 1183)
- 2 Courses Required
  [1 Lab Course and 1 SWK Course]

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1185)
- 1 Course Required

**Notes**

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

1. PPS Capstone requirement counts toward the LSP Senior Year Capstone requirement.

**Elective PPS Courses**

Students choose seven elective courses (twenty-eight credit hours) from the list below. Of those twenty-eight credit hours, five courses (twenty credit hours) are required at the 300 level. Up to eight credit hours (two courses) may come from Approved Courses outside of PPS. PPS courses not listed here can be substituted with the consent of an advisor (PPSAdvising@depaul.edu (ppsadvising@depaul.edu)).

## Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

### Public Policy (MPP)

The Masters in Public Policy (MPP) prepares students interested in public policy to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MPP degree develops effective leaders in nonprofit and government professions. Students will develop public policy and leadership skills through the School of Public Service curriculum, which stresses ethics, problem-solving and research skills, and the ability to implement public policy.

This degree is accredited by the Network of Schools of Public Policy, Affairs, and Administration (NASPAA).

### Mission Statement

The Master in Public Policy degree prepares students to conduct public policy analysis with an emphasis on analytic skill building, community advocacy, and ethical leadership development. We promote compassion for marginalized communities and service to all with sensitivity, professionalism, accountability, transparency, and justice.

The MPP may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MPP/certificate program should consult with their academic advisor (SPSAdvising@depaul.edu (SPSAdvising@depaul.edu)) to determine what coursework might count toward both programs. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx) for additional information.

- Masters in Public Policy + Community Development Certificate
- Masters in Public Policy + Critical Ethnic Studies Certificate
- Masters in Public Policy + Emergency Management Administration Certificate
- Masters in Public Policy + Geographic Information Systems Certificate
• Masters in Public Policy + Global Health Certificate
• Masters in Public Policy + Health Care Administration Certificate
• Masters in Public Policy + Metropolitan Planning and Development Certificate
• Masters in Public Policy + Social Research Certificate
• Masters in Public Policy + Strategic Writing and Advancement for Nonprofits Certificate
• Masters in Public Policy + Sustainable Urban Food Systems Certificate
• Masters in Public Policy + Translation and Interpreting Certificate
• Masters in Public Policy + Women’s and Gender Studies Certificate

Learning Outcomes
Students will be able to:

• Evaluate different approaches to public policy studies in terms of theoretical and practical applications
• Evaluate the institutional and structural elements of public policy making and implementation.
• Apply critical thinking concepts of public policy analysis which includes understanding of research design and methods, interpretation and communication of results, and research ethics.
• Apply knowledge of a special topic related to public policy to demonstrate mastery of the subject matter.

Degree Requirements

Course Requirements

Students complete a total of 13 courses (52 credit hours). Ten courses (40 credit hours) of core coursework and three courses (12 credit hours) of electives are required.

Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to discuss their performance and determine a plan for improvement.

Dismissal

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.
Graduation Requirements
In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students
While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Public Policy (MPP), Combined Bachelor's + Master's Degree
The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Public Policy (MPP)
The Masters in Public Policy (MPP) prepares students interested in public policy to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MPP degree develops effective leaders in nonprofit and government professions. Students will develop public policy and leadership skills through the School of Public Service curriculum, which stresses ethics, problem-solving and research skills, and the ability to implement public policy.

The combined degree program option is intended for selected students for whom the master's degree is the preferred preparation for their career goals, or is viewed as additional preparation before pursuing a doctoral or law degree. The combined Bachelors/MPP program shortens the time to completion of the bachelor's and master's degrees by and costs less in tuition than pursuing the two degrees sequentially.

Combined program students take three MPP courses during their senior year, typically one per quarter, which double-count for both the bachelor's and the master's degrees. Placement of the successfully completed MPP courses either as open electives or as major field electives resides with the College hosting the specific Bachelor's degree program. After the bachelor's degree is awarded the three courses are credited toward the requirements of the MPP degree program as well.

Participants in the combined MPP program pay the current tuition rate applicable to their undergraduate program for any courses counted toward the requirements of both their bachelor's and master's degree programs. Participants will be eligible for the current Double Demon Discount for the remainder of their graduate coursework.

Through the combined Bachelors/MPP program, the student is responsible for working with both their undergraduate advisor to manage their undergraduate degree progress, while also working with the SPS academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to plan a graduate program of study that includes the MPP courses as open electives or major field electives. Undergraduates are advised to meet a faculty member once per quarter during their senior year as an undergraduate to ensure that they are on track to graduate and transition into the master’s program. They also must maintain at least a 3.0 GPA in their graduate-level courses in order to matriculate into the graduate program.

Click on DEGREE REQUIREMENTS (p. 848) for descriptions of the required MPP coursework.

Public Policy Studies (Minor)
The Public Policy Studies minor is designed to help you learn the foundations of basic policy theory and research methods, as well as how to develop and analyze public policies and understand how they integrate with your major course of study. Contact PPSAdvising@depaul.edu (ppsadvising@depaul.edu) for more information.

Students majoring in Public Policy (BA) are restricted from earning this minor.

Public Relations and Advertising (BA)
The College of Communication offers a variety of courses leading to a Bachelor of Arts degree in Public Relations and Advertising. The program examines theories and practices in the related fields of public relations and advertising, and considers advertising and public relations processes, products and effects from cultural, ethical, organizational, historical, creative and methodological perspectives. Students in Public Relations and Advertising studies learn to think critically and analytically, to develop ideas clearly, and to speak and write effectively. Within the broad context of human communication and the liberal arts, students explore the relationship of public relations and advertising activities to other aspects of human endeavor. Graduates are prepared for entry-level positions within the public and private sectors, or for continuing their education in academic or professional graduate programs.

Learning Outcomes
Students will be able to:

- Identify, explain and apply conceptual and historical foundations of public communication disciplines as they relate to information and persuasion theories, concepts and models.
- Demonstrate facility with writing, speaking and production of media materials to inform, persuade, build relationships, and problem solve.
- Develop and demonstrate strategic plans and planning methods, as well as critical thinking skills.
- Construct and analyze audience research by applying measurement, environmental scanning, and evaluation techniques to products, projects, and programs.
• Classify and analyze the elements of ethical decision making to hypothetical and real world settings.

**College Core Requirements (p. 850)**

**Modern Language Requirement (p. 850)**

**Modern Language Option (p. 850)**

All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

**College Core Requirements**

Four core courses are required of all College of Communication students:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMN 101</td>
<td>INTRODUCTION TO HUMAN COMMUNICATION</td>
<td></td>
</tr>
<tr>
<td>CMN 102</td>
<td>INTRODUCTION TO MASS COMMUNICATION</td>
<td></td>
</tr>
<tr>
<td>CMN 103</td>
<td>INTERCULTURAL COMMUNICATION</td>
<td></td>
</tr>
<tr>
<td>CMN 104</td>
<td>PUBLIC SPEAKING</td>
<td></td>
</tr>
</tbody>
</table>

Students are encouraged to complete all four prior to taking additional coursework in the major.

**Modern Language Requirement**

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Modern language option waivers cannot be applied to courses in the Math and Computing Domain or courses in the Scientific Inquiry domain. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tbody>
</table>

¹ Students must earn a C- or better in this course.
² Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

**Learning Domains**

**Arts and Literature (AL) (p. 1174)**

- 2 Courses Required
Historical Inquiry (HI) (p. 1178)
• 2 Courses Required

• 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)
• 2 Courses Required

Religious Dimensions (RD) (p. 1181)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
• 2 Courses Required
  [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
• 2 Courses Required

Note
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements
In addition to the four core College of Communication courses, students take seven required classes, three Public Relations and Advertising electives, and two additional electives from the College of Communication. All Public Relations and Advertising majors must complete a total of 16 classes (64 credit hours).

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

• PRELAW 150 THE PRACTICE OF LAW
• PRELAW 151 RECENT CONTROVERSIES IN THE LAW
• PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 603).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

• Communication and Media (p. 217)
• Communication and Technology (p. 224)
• Communication Studies (p. 227)
• Journalism (p. 587)
• Media and Cinema Studies (p. 704)
• Organizational Communication (p. 766)
• Public Relations and Advertising (p. 849)
• Sports Communication (p. 980)

For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).
Public Relations and Advertising (MA)

The MA in Public Relations and Advertising equips students with the expertise and skills necessary to strategically manage an organization’s communication with its publics. The Public Relations component stresses counseling and relationship management, while Advertising combines the management and creative aspects of persuasive communication.

The development, implementation and evaluation of research-based programs and campaigns are emphasized throughout the curriculum. Students who complete this course of study gain an understanding of the key principles and theories of public relations and advertising and an appreciation for the ethical requirements of responsible practice in these media-related fields.

The program offers skills-based training in such areas as speechwriting, media relations, crisis management and creative strategies. Most graduates of this program are industry-bound for successful careers in business, government, non-profit organizations and/or associations.

Learning Outcomes

Students will be able to:

- Identify, explain and apply conceptual and historical foundations of public communication disciplines as they relate to informational, relational, and persuasion theories, concepts and models.

- Construct and analyze audience research by applying measurement, environmental scanning, and evaluation techniques to products, projects, and programs.

- Classify and analyze the elements of ethical decision making to hypothetical and real world settings, as well as articulate the ethical, legal and social responsibilities of public communications professionals.

- Develop and demonstrate strategic plans and planning methods, issues management techniques, and message development practices in a variety of settings and applications.

- Demonstrate facility with writing, speaking and production of media materials to inform, persuade, build relationships, and problem solve.

Degree Requirements

Course Requirements

The Master of Arts in Public Relations and Advertising (PRAD) requires 12 courses (48-credit hours).

<table>

</tbody>
</table>
Students who complete the concentration will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally and globally
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the U.S.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations and other sites of engagement
- Recognize the impact of the movement of Latinos across the globe and develop the skills to critically consume and produce media, public relations and advertisement representations that communicate to and about Latino communities

Optional Latino Media & Communication Concentration

The graduate concentration in Latino Media & Communication is comprised of at least three graduate courses drawn from the areas of advertising, journalism, media and cinema studies, multicultural communication, organizational communication and public relations. Graduate students in any of the College of Communication Master of Arts programs can elect to complete the Latino Media & Communication concentration. Students may need to use outside electives to complete this concentration.

Students who complete the concentration will:

- With approval of the graduate program director, students can take up to two relevant elective courses from other College of Communication graduate programs or relevant elective courses from other graduate departments/programs outside of the College of Communication.

</tbody>
</table>

1 Topic must be related to Latino Media and Communication.

Grade Requirements

All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student’s cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student’s cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

Public Relations and Advertising (MA), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Public Relations and Advertising (MA)

The Public Relations and Advertising combined degree program is open to all undergraduate majors across the university. Students who are interested in this program must apply to the Graduate Admission Office in their junior year, and if accepted, can take up to three graduate courses (12 credits) in their senior year. These three courses count towards both the bachelor’s program and the Master of Arts degree. Students will pay the current undergraduate tuition rate for these three
courses. Once students earn their Bachelor of Arts or Bachelor of Science degree from DePaul, they matriculate as a graduate student and complete the remaining required courses for their Master of Arts degree. Students should work with their undergraduate advisor to see how the graduate classes will fulfill undergraduate degree requirements. Students must maintain a 3.0 GPA (B or better) in each graduate class taken in the senior year in order to continue in the program.

Double Demon Scholarship
Alumni from any of DePaul’s colleges who are admitted into a graduate degree program in the College of Communication automatically qualify for the Double Demon Scholarship. Combined degree program students are eligible.

This scholarship covers 25% of the tuition for a master’s degree in the College of Communication. Both full-time and part-time students are eligible. No scholarship application is required. (DePaul University employees are eligible for other employee tuition benefits through the university, and therefore are not eligible for the Double Demon Scholarship.

Public Relations and Advertising (Minor)

Students pursuing a Public Relations and Advertising minor develop an understanding of public relations and advertising theories and practices. Additionally, students learn to consider public relations and advertising processes, products and effects from multiple perspectives, while strengthening critical thinking, writing, and speaking skills.

Course Requirements

A minor in Public Relations and Advertising requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

<table>

Students majoring in Public Relations and Advertising are restricted from earning this minor.

Public Service Management (MS)

The Master of Science in Public Service Management at DePaul University prepares students interested in public service management to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MS in Public Service Management offers students a broad-based education with which they can pursue careers in fund raising and philanthropy, health care administration, higher education administration, metropolitan planning and urban affairs, nonprofit administration and public policy.

The degree offers five on-site concentrations: health care administration, higher education administration, metropolitan planning and urban affairs, emergency management, and standard. Three concentrations of this degree can be completed entirely online as well as on-site: metropolitan planning and urban affairs, emergency management, and standard.

This degree is accredited by the Network of Schools of Public Policy, Affairs, and Administration (NASPAA).

Mission Statement

The MS in Public Service Management degree educates students to work in public, private, and nonprofit organizations. Through our cross-sectoral approach to learning, research, and service our students learn to connect domestic and global issues, alleviate poverty, and build responsive and responsible service organizations. We promote compassion for marginalized communities, ethical leadership and service to all people with integrity, accountability, justice, professionalism, sensitivity, and transparency.

Program Requirements

The MS in Public Service Management may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor (SPSAdvising@depaul.edu) to determine what coursework might count toward both programs. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx) for additional information.

- Public Service Management + Community Development Certificate
- Public Service Management + Critical Ethnic Studies Certificate
- Public Service Management + Emergency Management Administration Certificate
- Public Service Management + Geographic Information System Certificate
- Public Service Management + Global Health Certificate
- Public Service Management + Health Care Administration Certificate
- Public Service Management + Metropolitan Planning and Development Certificate
- Public Service Management + Social Research Certificate
- Public Service Management + Strategic Writing and Advancement for Nonprofits Certificate
- Public Service Management + Sustainable Urban Food Systems Certificate
- Public Service Management + Translation and Interpreting Certificate
- Public Service Management + Women’s and Gender Studies Certificate

Learning Outcomes

Students will be able to:

- Explain relevant public service issues to target audiences in the appropriate written and oral formats.
- Apply an ethical framework in making an organizational decision on a current moral dilemma.
- Determine the interactive roles of business, government, and nonprofit sectors in public welfare.
- Analyze the leadership skills essential to managing public service organizations.
- Demonstrate their research competencies through a multi-step self-assessment process.

Degree Requirements

Students complete 13 courses (52 credit hours) for the Master of Science in Public Service Management program. Eight courses (32 credit hours) of core course work and five courses (20 credit hours) of declared concentration work.

Internship Capstone Option

Students may choose to replace MPS 593 with MPS 610 Internship Capstone option.

Concentration Requirements

Students may choose concentrations in a variety of public service fields. Concentrations are available for students in the Master of Science in Public Service Management degree with specialized interests and careers. The concentrations are: Emergency Management, Health Care Administration, Higher Education Administration, and Metropolitan Planning and Urban Affairs. Students who choose not to pursue a specialized concentration will declare the Standard concentration. Three concentrations of this degree can be completed entirely online as
well as on-site: metropolitan planning and urban affairs, emergency management, and standard. See the concentration pages for further course information.

**Internship Option**

Students can opt to complete an internship or professional development experience in a public service setting. The student would enroll in MPS 601 for course credit, which will be applied to the MS degree by the student’s adviser. Contact SPSAdvising@depaul.edu (spsadvising@depaul.edu) for more details.

Concentrations provide focus to the degree. In addition to the degree requirements, students are required to choose one of the following:

- Emergency Management Concentration, Public Service Management (MS) (p. 857)
- Health Care Administration Concentration, Public Service Management (MS) (p. 858)
- Higher Education Administration Concentration, Public Service Management (MS) (p. 858)
- Metropolitan Planning and Urban Affairs Concentration, Public Service Management (MS) (p. 859)
- Standard Concentration, Public Service Management (MS) (p. 859)

**Student Handbook**

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

**Academic Probation**

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

**Dismissal**

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

**Readmission**

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

**Graduation Requirements**

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student’s cumulative GPA is below a 2.7, he or she may be denied graduation.

**Non-Degree Seeking Students**

While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

---

**Emergency Management Concentration, Public Service Management (MS)**

Emergency Management is a critical concern for the public, private and non-profit sectors. The concentration explores both the conceptual elements of emergency preparedness and the practical implementation of emergency management that typically occur at the intersection of local and national politics. Courses will address topics such as public safety and law enforcement, crisis management, disaster response and recovery. This concentration will provide students with both theoretical and practical knowledge that will prepare them for private or public sector employment in the area of emergency preparedness for both security and non-security related incidents.

### Higher Education Administration Concentration, Public Service Management (MS)

For managers in post-secondary institutions of learning, this concentration teaches necessary analytical and managerial skills. The coursework helps students develop an understanding of management principles, policy analysis, and research within higher education. Electives provide opportunities to explore leadership, governance, strategic planning, budgeting, finance, law, diversity, enrollment management, marketing, student affairs, and politics in higher education.

Metropolitan Planning and Urban Affairs Concentration, Public Service Management (MS)

The Metropolitan Planning and Urban Affairs concentration provides students with a broad perspective on the issues relating to land use, transportation, housing, economic development, and related social problems. It instills an understanding of the institutional and analytical issues affecting units of government, planning agencies, and other urban public service institutions.

Public Service Management (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Public Service Management (MS)

The MS in Public Service Management degree educates leaders to work in public, private, and nonprofit organizations. Through our cross-sectoral approach to learning, research, and service we prepare leaders to connect domestic and global issues, alleviate poverty, and build responsive and responsible service organizations. We promote compassion for marginalized communities and service to all people with accountability, justice, professionalism, sensitivity, and transparency.

Combined program students take three courses during their senior year, typically one per quarter, which double-count for both the bachelor's and the master's degrees. Placement of the successfully completed courses either as open electives or as major field electives on the undergraduate level resides with the College hosting the specific bachelor's degree program. After the bachelor's degree is awarded the three courses are credited toward the requirements of the MS degree program as well.

Through the combined Bachelors/MS program, the student is responsible for working with both their undergraduate advisor to manage their undergraduate degree progress and the SPS academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to plan a graduate program of study that includes the MPS courses as open electives or major field electives. Undergraduates are advised to meet a faculty member once per quarter during their senior year as an undergraduate to ensure that they are on track to graduate and transition into the master’s program. They also must maintain at least a 3.0 GPA in their graduate-level courses in order to matriculate into the graduate program.

Click on DEGREE REQUIREMENTS (https://catalog.depaul.edu/programs/public-service-management-ms/) for descriptions of the required MS in Public Service Management coursework.

Elective Courses

Four courses (16 quarter hours) chosen from more than 60 courses based on a student’s professional goals and personal interests. If warranted by special needs or interests, students may take up to two elective courses in other departments of the university. Permission of the director is required before registration for such courses. Contact the Assistant Director for Student Advising (SPSAdvising@depaul.edu) if you plan to take elective courses from outside the School of Public Service.

Publishing Certificate

The Certificate in Publishing requires sixteen credit hours and welcomes students who have earned a bachelor’s degree in any field.

The Certificate in Publishing can broaden and strengthen the preparation of students seeking to work in the publishing industry. This program serves students in graduate programs at DePaul as well as students-at-large interested in various aspects of publishing. Course offerings focus on book, magazine/journal, and digital publishing, and a wide array of internship opportunities allows students to gain practical skills and to network in the field.

Program Requirements

• Three graduate courses in publishing. These courses may be chosen from among the following:
  • ENG 477. This course may be repeated with different topics that include:
    • American Literary Magazine
    • Book Editing
    • Book Production
    • Book Launching/Publicity
    • Digital Publishing
    • The Independent Press
  • ENG 496. This course may be repeated with different topics.
  • One internship course (ENG 509)

How to Apply

• Please submit the following:
  • Official transcripts from all previous college coursework (a GPA of 3.0 or above on a 4.0 scale is recommended but not required for admission)
  • Completed online application (go.depaul.edu/apply (http://go.depaul.edu/apply/))
  • Personal statement that describes the applicant’s prior/current publishing-related experiences and explains his or her desire to earn a certificate
  • Current resume or curriculum vitae

Pure Mathematics (MS)

The Department of Mathematical Sciences offers a program of study leading to the Master of Science degree in Pure Mathematics. The program provides students with rigorous training in Pure Mathematics as well as a solid foundation for pursuing a PhD degree in Mathematics or teaching Mathematics at the college level. This is an evening program offered at the Lincoln Park campus. The program can be completed in two academic years by taking two classes per quarter or in four quarters by taking three classes per quarter.

Program Requirements

</table>

Learning Outcomes

Students will be able to:

• Construct valid logical arguments and create formal mathematical proofs.
• Read and analyze professional mathematical literature.
• Identify, formulate, abstract, and solve problems in Pure Mathematics using tools from a variety of mathematical areas including linear algebra, abstract algebra, topology, and analysis.
• Communicate mathematical ideas clearly by using appropriate mathematical terminology and notation.

Degree Requirements

Course Requirements

At least 48 quarter hours of graduate level work in mathematics and passing two comprehensive examinations in Algebra and Analysis.

MAT 595  GRADUATE THESIS RESEARCH (may be repeated up to a maximum of 8 credit hours total)

With program director’s written approval two of the elective courses can be substituted with graduate courses in other areas, such as Computer Science, Physics, or Mathematical Education.

Program Graduate Academic Student Handbook

Academic Probation
A student will be placed on academic probation at the time when his/her cumulative GPA falls below 2.50.

Academic Dismissal
A student may be academically dismissed under one or more of the following violations of satisfactory progress:

1. student’s cumulative GPA only for the first twelve completed credit hours after being placed on academic probation is below 2.50.
2. student’s cumulative GPA after completing the first 24 credit hours after being placed on academic probation is below 2.50.
3. lack of timely progress toward degree completion, including both coursework and comprehensive exams.
4. failing comprehensive exams twice.

Conditional Admission
Applicants who have not yet completed one or more of the listed prerequisites may be admitted on a conditional basis while they complete the prerequisites at DePaul as undergraduate non-degree seeking students.

Readmission
The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit
A maximum of twelve quarter hours may be accepted as transfer credit upon approval of the student’s program director and the associate dean for graduate studies. Credit will only be transferred for courses that have equivalents to courses offered in DePaul's graduate program as determined by the program director and provided they did not count toward the completion of another degree at DePaul or another institution.

Undergraduate Courses
No undergraduate courses shall count toward the graduate degree.

Graduation Requirements
Requirements include, but are not limited to, twelve graduate courses (48 credit hours) at a minimum cumulative GPA of 2.50, and passing two comprehensive examinations in Algebra and Analysis.

Graduation with Distinction
A minimum cumulative GPA of 3.70 for coursework applied toward the pure mathematics degree and high performance on the comprehensive examinations - as determined by the Mathematical Sciences department - are required for graduation with distinction.

Time Limitation
The degree is expected to be completed in a maximum of six years.

Pure Mathematics (MS), Combined Bachelor's + Master's Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Pure Mathematics (MS)

This combined program is an opportunity for every DePaul undergraduate with at least 88 credits (junior standing) and preparatory work in Mathematics equivalent to a math minor to apply for early admission to the Master of Science in Pure Mathematics. This will be beneficial to non-mathematics majors who would like to add the Master’s degree in Mathematics to their current BS degree, which will open such career opportunities as teaching Mathematics at the college level or pursuing a doctorate or professional degree.

Students interested in the combined degree program should consult first with their undergraduate advisor in their home college and the Pure Mathematics graduate program director to evaluate whether they are eligible for admission to the combined degree program and to plan the undergraduate program of study that includes the graduate level MAT courses as open electives or, in certain cases, as substitutes to major requirements.

Admission Criteria
Students may apply for admission to the universal combined degree program if they satisfy the following criteria:

• At least 88.0 credit hours earned (junior status)
• Successful completion (with a grade of C- or better) of the following undergraduate coursework with GPA of at least 2.7 over these courses:
  • One year of single-variable calculus (MAT 150-151-152 or equivalent)
  • Two quarters or one semester of multivariable calculus (MAT 260-261 or equivalent)
  • A course in linear algebra (MAT 262)
  • A course in mathematical reasoning (MAT 215 or both MAT 140 and MAT 141 or equivalent)

To apply, students should submit the following materials to the Office of Graduate Admissions (graddepaul@depaul.edu):

• CSH Combined Program Application form
• Official copy of undergraduate transcript

Interested students are strongly encouraged to consult with the Pure Mathematics Graduate Program Director prior to submitting their application.

Students enrolled in the universal combined degree program will be awarded their Bachelor's degrees upon completion of their undergraduate degree requirements. They need to apply for undergraduate degree
conferral when they reach the required credit hours and meet all other criteria for their baccalaureate degree.

Radio, TV, and New Media (Minor)

The Radio, TV, and New Media minor is designed for students interested in the historical and cultural impact of mass media on our modern, global society. Students may focus on a specific subject area to complement their individual study plan.

Course Requirements

A minor in Radio, TV, and New Media requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

Reading Specialist (MA or MEd)

The Reading Specialist program combines developmental and remedial reading content with course work in understanding individuals who exhibit learning challenges and those with identified disabilities. It provides candidates with a well-rounded and in-depth understanding of issues related to teaching literacy to a wide variety of students, with a particular focus on students in urban environments. The program also prepares candidates to assume leadership roles within schools, including the coordination of school-wide assessment, instructional coaching, and professional development.

Licensure

Students who hold an Illinois professional educator license are eligible for a Reading Specialist endorsement (K-12) upon completion of the Reading Specialist master's program, the required licensure tests, and the required employment experience (2-years of full-time teaching experience on an Illinois professional educator license or comparable out-of-state license). Endorsement only options are available for individuals who already hold a master's degree. Note: Courses in the Reading Specialist program are designed for practicing educators and are not open to students seeking a first teaching license (Teaching and Learning). Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

Program Requirements

Degree Requirements (MA) 56
Total hours required 56

Program Requirements

Degree Requirements (MEd) 52
Total hours required 52

Learning Outcomes

Students will be able to:

- Demonstrate knowledge of major theoretical, conceptual, historical, and evidence-based foundations of language and literacy.
- Use foundational knowledge to design, implement, and evaluate evidence-based literacy instruction and curricula for diverse learners.
Select and use appropriate assessment tools to screen, diagnose, and measure student achievement literacy to inform instruction, evaluate interventions, and assist teacher in their use of assessment results.

Demonstrate knowledge of research, relevant theories, pedagogies, and essential concepts of diversity and equity.

Address developmental needs of all learners and collaborate with colleagues to engage and motivate learners and support a literacy-rich learning environment.

Apply knowledge of adult learning to work collaboratively with colleagues in the roles of leader, coach, and advocate.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Clinical Experience

The practicum courses provide an opportunity to apply knowledge from course work to teaching struggling learners and those with disabilities. In these courses, students provide diagnostic and remedial services to children and adolescents from the Chicago area under the supervision of program faculty. Theses courses are offered in an on-campus facility.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Requirements are subject to change per the discretion of ISBE.

Reading Specialist students must complete the following tests:

- Reading Specialist Content Area Test (test #176) – assesses knowledge of language, reading, and literacy.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

Real Estate (BSB)

The undergraduate division of the Department of Real Estate provides a curriculum which enables all students in the Driehaus College of Business to work and excel in the real estate community at the local and national levels, and to adapt to future changes in the industry. It provides a strong foundation for students with career goals in real estate as the demand for qualified professionals in all areas of the industry continues to escalate with changing economic factors that drive the real estate market. Competence in real estate today, and the future, requires an understanding of a wide variety of professional disciplines and their interactions. As a result, the program reaches across academic boundaries of departments and colleges to provide a truly interdisciplinary degree housed within the college. The DePaul real estate major requires finance and real estate law courses, and provides choices in economics, architecture history, public service management, geography, sociology, history and anthropology.

Students who complete the program will:

- Develop a comprehensive body of knowledge that will strengthen financial and analytical skills, including risk analysis, portfolio construction and management, cash flow analysis, and investment strategy
- Understand the organizational structure of financial institutions and the impact of capital markets on real estate
- Understand the basic laws and regulations governing land use and real estate decisions
- Be able to clearly articulate a site development strategy to all parties and agencies
- Understand the historical development of real estate and its impact on present and future development patterns
- Understand how architectural and urban history provide insights into real estate analysis and valuation

Employment opportunities exist everywhere across the spectrum: ownership, brokerage, appraisal, design, insurance, inspection, leasing, management, and construction are a few. Property sectors include office, industrial, multi-family, retail, and hospitality and entertainment. Expanding the definition of real estate to consider the financial services side of real estate yields an additional list of career opportunities (mortgage lenders, mortgage brokers, underwriters, services, researchers, and others). The Real Estate Center assists students in finding employment in many of these diverse areas and industries in the associated supporting professions.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
• Recognize legal and ethical issues confronting them.
• Contribute to the performance of a group within a business setting.
• Know the differences among global economies, institutions, business practices and cultures.
• Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

• Evaluate direct real estate investment-debt and equity.
• Evaluate real estate securities-debt and equity
• Understand impact of financial criteria on decision-making.
• Explain the basic laws and regulations governing land use and real estate decisions.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

<table>

Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

**Business Ethics**

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

**Second Majors and Minors**

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

**Math Requirements for all business majors (except Actuarial Science majors)**

- MAT 137 may be replaced by MAT 348 or MAT 351.

**Grade Minimum Requirements for Real Estate Major**

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, and the course used for Professional Writing.

**Learning Domains**

- **Arts and Literature (AL)** (p. 1174)
  - 3 AL Courses Required

- **Historical Inquiry (HI)** (p. 1178)
  - 2 HI Courses Required

- **Math and Computing (MC)** (https://catalog.depaul.edu/undergraduate-core/liberal-studies-program/liberal-studies-learning-domains/math-and-computing/)
  - Not Required

- **Philosophical Inquiry (PI)** (p. 1180)
  - 2 PI Courses Required

- **Religious Dimensions (RD)** (p. 1181)
  - 2 RD courses required

- **Scientific Inquiry (SI)** (p. 1183)
  - 1 Lab Course Required

- **Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1185)
  - 1 SCBI Course Required

1 PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

**Course Requirements**

A student majoring in Real Estate is required to complete the following courses totaling at least 34.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 315</td>
<td>DATA ANALYTICS IN FINANCE</td>
<td>4</td>
</tr>

<td>4</td>
</tr>
<tr>
<td>RE 325</td>
<td>PROJECT MANAGEMENT: DESIGN &amp; CONSTRUCTION</td>
<td>4</td>
</tr>
<tr>
<td>RE 350</td>
<td>REAL ESTATE ANALYSIS</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Students must earn C- or better in this course.
RE 352  REAL ESTATE FINANCE  4
RE 353  REAL ESTATE INVESTMENT  4
RE 354  REAL ESTATE VALUATION  4

The department enforces all course prerequisites, without exception.

Students are encouraged to seek an internship with a Chicago-area business during the summer preceding either their junior or senior year, but the Real Estate major does not offer or accept a for-credit internship course.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Open Electives
Open elective credit (16.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Combined Bachelor’s + Master’s Program Participants
Students admitted to the Real Estate Combined Bachelor’s + Master’s program may apply up to three approved graduate course(s) towards undergraduate Real Estate major.

• RE 520 URBAN PLANNING AND PUBLIC POLICY replaces RE 320 URBAN PLANNING AND PUBLIC POLICY
• RE 521 LEGAL ISSUES IN REAL ESTATE replaces RE 300 REAL ESTATE LAW
• RE 525 PROJECT MANAGEMENT: DESIGN AND CONSTRUCTION replaces RE 325 PROJECT MANAGEMENT: DESIGN & CONSTRUCTION

Graduation Requirements
All Real Estate (RE) courses and any courses used toward the Real Estate major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Recommended Courses
Students majoring in real estate are encouraged to complete courses from the list below to further explore topics relevant to real estate. These courses are approved for use in the Liberal Studies Program Learning Domains as indicated. Courses from this list are not approved for use as Real Estate Electives in the major or minor.

Real Estate (Minor)

Available to students in the Driehaus College of Business and non-business programs at DePaul, a minor in Real Estate provides students with a general understanding of the real estate business and in-depth exploration of a specific topic in real estate, such as law, policy, valuation, investment, or finance.

Course Requirements

A student minoring in Real Estate is required to complete Real Estate courses totaling at least 20.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 290</td>
<td>FINANCE FOR NON-BUSINESS MAJORS</td>
<td></td>
</tr>

<td></td>
</tr>
</tbody>
</table>

One required course:
FIN 350  REAL ESTATE ANALYSIS
Select three elective courses from the following:                    12
RE 300  REAL ESTATE LAW
RE 320  URBAN PLANNING AND PUBLIC POLICY
RE 325  PROJECT MANAGEMENT: DESIGN & CONSTRUCTION
RE 352  REAL ESTATE FINANCE
RE 353  REAL ESTATE INVESTMENT
RE 354  REAL ESTATE VALUATION
RE 398  SPECIAL TOPICS (multiple topics may be used)

The department enforces all course prerequisites, without exception.

Students are encouraged to seek an internship with a Chicago-area business during the summer preceding either their junior or senior year, but the Real Estate minor does not offer or accept a for-credit internship course.

Graduation Requirements
All Real Estate (RE) courses and any courses used toward the Real Estate minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Real Estate (MS)
In the Master of Science (MS) in Real Estate program, you will learn concepts and practices in real estate investment analysis and finance through a multidisciplinary curriculum that incorporates courses in real estate, marketing, law, public policy, geography and economics.

Whether you are a professional in real estate field looking to further your knowledge and skills in this industry, or are seeking a transition to the real estate field from another area, this degree will provide you with a strong foundation to prepare you for real estate industry leadership.

The MS in Real Estate program is designed for the student who has a bachelor's degree, or who is has earned or is earning an MBA.

Highlights
The MS in Real Estate curriculum encompasses a wide range of courses that incorporate casework and teamwork, which will help you develop your communication and leadership skills. You will develop detailed knowledge and skills in:

* Real estate investment
* Real estate finance
* Real estate capital market and analysis
* Real estate development
* Real estate and market analysis
* Real estate taxation

</tbody>
</table>

Learning Outcomes
Students will be able to:

- Apply real estate mortgage financial practices, market factors, and finance and investment practices to real estate investment.
- Analyze real estate valuation and market factors.
- Evaluate commercial real estate investments using real estate criteria.
- Define, identify, summarize, and analyze a business problem and offer appropriate solution alternatives.
- Recognize and analyze ethical and legal problems within applied business situations, choose a solution, and justify that ethical choice.
- Identify business risks as applied to the global environment.
- Compare and contrast differences in global perspectives and discuss their impact on global management and decision-making; identify risks and rewards of international business.
- Understand and react to technological changes and factors affecting global and local real estate decision making.

Degree Requirements

Course Requirements
Students complete the MS in Real Estate by taking a minimum of 48 credit hours, normally 12 courses. Depending on the path selected for completing the quantitative requirement, several prerequisites may be required. Students may take either RE 527: Quantitative Methods and Analysis or FIN 555 to meet the program's quantitative requirement. The prerequisite for RE 527: QUANTITATIVE METHODS and ANALYSIS is admission to the program. However, students who wish to take FIN 555 must meet its prerequisites prior to enrollment, which include ACC 500 or ACC 502, and GSB 420 or GSB 519, or courses equivalent to these.

</tbody>
</table>
Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the 12 required courses such that at least 48 credit hours of applicable course work are completed toward the degree. Prerequisite courses are not approved for elective credit.
- All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program or the Kellstadt Graduate School of Business.

Real Estate (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Real Estate (MS)

The Master of Science in Real Estate offers students a focused degree program of specialized courses in real estate analysis, development, finance, valuation, investment, planning and public policy. Courses are taught by both academics and professionals and are frequently taught by a combination of the two. Casework and teamwork are hallmarks of the program, providing opportunities to develop communication and leadership skills.

Students emerge from the program with strong exposure to real estate content, concepts and practices as well as a sold array of skills that can be adapted to the evolving and inherently multi-disciplinary real estate industry.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Real Estate may apply to the bachelor’s degree/Real Estate (MS) combined program. Students may be able to obtain both degrees in as few as five years.

Admission

Students must formally apply and be admitted to the Department of Real Estate before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take three graduate level courses from the four classes below:

<table>
<thead>
<tr>
<th>Course</th>

Select three from the following:

Three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSRE will be awarded upon completion of the remaining graduate level work.

Refugee and Forced Migration Studies (MS)

The MS in Refugee and Forced Migration Studies is the first program of its kind in the United States. It offers students the chance to study the causes and consequences of forced migration and gives them hands-on experience of working with area organizations like Refugee One and the Heartland Alliance. Forced migrants – including refugees, internally displaced people and climate refugees – are growing in numbers; the UNHCR estimates that there are 45.2 million people displaced all over the world. Syria, Colombia, Pakistan, Turkey, Uganda, Somalia, Afghanistan – these are all familiar news stories. But how do you move beyond the statistics to actually making a difference? This degree places forced migration and refugee studies in concrete historical, global and human contexts and seeks durable responses to the protracted and harrowing crises of forced migration.

The MS in Refugee and Forced Migration Studies aims to train committed individuals in academic and practical skills relevant to a career related to refugee and forced migration. The degree will be enable you to work at on-field refugee organizations, government and non-governmental institutions, pursue further research, or engage with community development, social justice, immigration issues, trauma and health providers, among many others.

We aim to help students:

- Develop rigorous understanding of the causes and consequences aspects of refugees and forced migration;
- Apply conceptual methodologies and legal frameworks for analyses and application of refugee protection regimes and human rights law;
- Carefully understand health issues related to refugees and other forced migrants;
- Acquire skills to work for and manage non-governmental agencies;
- Pursue further research

The MS in Refugee and Forced Migration Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

Religious Studies (BA)

The Department of Religious Studies offers DePaul students the opportunity to engage in the academic study of religion. The study of religion includes not only the traditional areas of sacred texts, myths, rituals, mystical experiences and doctrines, but also the ways in which political, social and economic forces shape these phenomena for religious communities. Drawing on a host of academic disciplines, religious studies challenges students to encounter the traditions of the world in all their rich diversity. Given the complexity of the subject matter, members of the department draw upon several other academic disciplines -- anthropology, art history, biblical studies, economics, environmental studies, ethics, gender studies, history, linguistics,
literature and literary criticism, political science, philosophy, psychology, sociology, and theology – as they do their work.

Beyond work with texts, students may also study religion through the media of film and video, music, the visual and dramatic arts, and the internet. The department emphasizes comprehensive learning in writing, synthetic and analytic thinking, and oral communication skills. Students can go beyond their course work with further learning opportunities, such as the senior thesis, independent study, study abroad and internships, and service learning, both locally and internationally.

A religious studies major or minor is positioned to pursue a wide variety of careers. A bridge between the specialist’s perspectives on religion and a wider world that is often in need of these perspectives, religious studies majors have worked in the fields of law, social work, regional and international business, governmental and non-governmental service, secondary school teaching, and service in religious communities. A religious studies major is also well-prepared for further studies in international business, governmental and non-governmental service, and a wider world that is often in need of these perspectives, religious studies majors have worked in the fields of law, social work, regional and international business, governmental and non-governmental service, secondary school teaching, and service in religious communities. A religious studies major is also well-prepared for further studies in graduate programs leading to careers in academia.

The Department encourages students in all major concentrations and minors to engage various questions related to the study of religion, such as (but not limited to):

- What is religion?
- How do religious communities come into being and define themselves?
- How do religious communities form worldviews, doctrines, and practices, and how does the study of religion help us to understand their change over time?
- How do sacred texts come into being, and what do they communicate to us?
- How does religion shape culture, and how does the wider culture define religion?
- What is the role of religion in the contemporary world?
- How do religion or religious sensibilities help us to relate (or hinder us from relating) to each other?
- How can an informed student of religion evaluate the rival claims to truth and moral rightness of different religious and secular ideologies?
- How do religious traditions and texts treat issues of sexuality and gender, race and class?
- How have religious traditions interacted with each other in the past, and how do they continue to do so today?

**College Core Requirements**

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)

**Learning Outcomes**

Students will be able to:

- Identify, analyze, and critically compare some significant elements of religion - such as myth, narrative, symbol, ritual, sacred texts, law, doctrine, ethics, experience, and systems of cosmic, social and individual order - as they are manifested in religious traditions across culture, time, ethnicity race, or gender.
- Apply to religious phenomena various theories, methodological perspectives, and experiential approaches.
- Evaluate the relationship between religion and other elements of culture and society regarding such issues as the relation between religion and moral values, religion and power, as well as the role of religious movements as forces of personal and social transformation, social justice, and social integration.
- Identify and apply scholarly resources and/or field methodologies from religious studies in writing.

</tr>
</tbody>
</table>
• completing the final course of a four-year sequence of the same modern language in high school*

• completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)

• completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

### The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**NOTE:** Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

### External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

### Learning Domains

**Arts and Literature (AL)** (p. 1174)

- 3 Courses Required

**Historical Inquiry (HI)** (p. 1178)

- 2 Courses Required

- 2 Courses Required
  - [1 CR Course and 1 SR Course]

**Philosophical Inquiry (PI)** (p. 1180)

- 2 Courses Required

**Religious Dimensions (RD)** (p. 1181)

- Not Required
Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 603).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.
Religious Studies (Minor)
The minor in Religious Studies exposes students to a variety of approaches to religious traditions and issues.

Course Requirements
The Minor in Religious Studies requires all students to take any 6 courses (24 credit hours) in Religious Studies at the 100-, 200-, and/or 300-level. The department offers numerous courses offered online so that a minor can be completed online.

Rhetoric (Minor)
The Rhetoric minor helps you acquire the skills to understand and analyze the history, theory, and criticism of political discourse and public speaking.

Course Requirements
A minor in Rhetoric requires students to complete six courses (24 credits). To complete the minor, students must take:

Russian Language (Minor)
DePaul's Russian Language minor will help students acquire a solid proficiency in speaking, reading and writing Russian, one of the world’s most important global languages.

The minor consists of a total of 5 courses in Russian language at the 200/300-level. Courses taught in English will not be counted toward this minor unless Program Director permission is secured.

Students minoring in Russian Studies are restricted from earning this minor.

Russian Studies (Minor)
The Russian Studies minor offers an interdisciplinary focus on the history, culture, art and politics of Russia, along with a grounding in the Russian language.

Course Requirements
- Three quarters of college-level Russian language study (at any level).
- Five additional courses from at least two different disciplines, chosen in consultation with an advisor or faculty member, from the current approved Russian Studies Allied Course List.

**Scene Design (BFA)**

The Theatre School’s Bachelor of Fine Art (BFA) degree in Scenic Design is designed to give students the opportunity to explore and expand their artistic and visual expression and provides them the opportunity to practice their craft. The four-year curriculum in many ways simulates a scenic designer’s professional experience and process. Designers learn to visualize and create the physical world of plays by collaborating with directors, dramaturgs, other designers and technicians and our professional scene shop staff who build the sets they design.

**Learning Outcomes**

**Core Outcomes**

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

**Program Specific Outcomes**

Students will be able to:

- Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept.
- Demonstrate an understanding of the history of the visual art and architecture in the context of social and cultural development.
- Create the appropriate plans, drawings, and documents for the fabrication of their design concept.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Senior Year

Capstone
Not Required

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120.
   The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

Arts and Literature (AL) (p. 1174)
- THE 204
- THE 205
- THE 206

Historical Inquiry (HI) (p. 1178)
- 1 Course Required

- Not Required

Philosophical Inquiry (PI) (p. 1180)
- 1 Course Required

Religious Dimensions (RD) (p. 1181)
- 1 Course Required

Scientific Inquiry (SI) (p. 1183)
- 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- Not Required

Other (p. 1174)
- Choose 1 course from the above learning domains as an elective

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

• Production Design Concentration, Scene Design (BFA) (p. 877)

Production Design Concentration, Scene Design (BFA)

The Production Design Concentration is open to students in the Scene Design major at The Theatre School. Six classes or 24 credits are required. The concentration builds on the traditional curriculum for the Scene Design major, and adds 6 classes from School of Cinematic Arts (SCA), which can either be added onto the full curriculum, or can be substituted for the required design electives, or 1 of the drawing/rendering electives. Students take requirements and electives from the following list of SCA classes, or other classes can be considered and approved by advisor. Students may start the sequence in their second year of the Scene Design major. Students must notify their advisor of their intention to pursue this concentration and must receive advisor approval to do so.

Required Courses:

Course  Title  Quarter Hours
FILM 110  DIGITAL CINEMA PRODUCTION I (FORMERLY DC 210)  4
FILM 251  CINEMATOGRAPHERS AT WORK (FORMERLY DC 276)  4
FILM 270  PRODUCTION DESIGN (FORMERLY DC 321)  4
FILM 279  VISUAL DESIGN (FORMERLY DC 376)  4
FILM 370  ADVANCED PRODUCTION DESIGN (FORMERLY DC 331)  4
Choose one of the following:  2-4
CP 323  PRE-PRODUCTION WORKSHOP (FORMERLY DC 379)
FILM 370  ADVANCED PRODUCTION DESIGN (FORMERLY DC 331)

Other Approved Electives:

Course  Title  Quarter Hours
GD 105  INTRO TO VISUAL DESIGN
GD 200  GRAPHIC DESIGN: FORM
ANI 220  STORYBOARDING I
FILM 237  FILM PHILOSOPHY (FORMERLY DC 227)
FILM 323  MUSIC VIDEO PRODUCTION (FORMERLY DC 311)

Science Education (MS)

The Master of Science in Science Education (MSSE) program provides a broad content-based science curriculum for the preparation of master teachers of science. The program is focused on contemporary, inquiry-based science content and integrates the most current research findings on how students learn science. It encourages and models the skills of scientific inquiry, as well as the curiosity, openness to new ideas, and skepticism that characterize science. Some of the unique features of the program include a strong emphasis on contemporary science content; the use of inquiry-based learning; the integration of mathematics and technology; and the incorporation of the Next Generation Science Standards.

The Program requires 12 courses (48 credit hours) and draws upon faculty in both the College of Science and Health and the College of Education. Support of the program is managed through DePaul University’s STEM Center.

The program provides a supportive environment for all teachers, including members of groups traditionally underrepresented in science, and encourages a broad perspective on science and its continuing important role in our society.

Program Requirements  Quarter Hours
Core Requirements  12
Concentration Requirements  36
Total hours required  48

Learning Outcomes

Students will be able to:

• Interpret and apply scientific explanations of the natural world that are relevant to teaching science in elementary and secondary schools.
• Generate and evaluate data that serves as scientific evidence.
• Recognize and apply crosscutting concepts that link the different science disciplines.
• Reason quantitatively and make quantitative arguments that support theories and models of the natural world.
• Apply research on teaching and learning science to their teaching practice.

Select nine of the following: \[\] Quarter Hours \[\] 36

Program Graduate Academic Student Handbook

Academic Probation

A student is subject to academic probation as soon as his/her graduate cumulative GPA falls below 2.500.

Academic Dismissal

The student remains on probation until four more program courses are taken, at which time another evaluation is made. If at that time the student has failed to raise his/her cumulative GPA to the required level of 2.500, it is a violation of satisfactory progress. The student may be academically dismissed for poor scholarship and be prohibited from registering for additional course work.

A student who has been academically dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the dean of the college, would provide information that would demonstrate a change in the student’s circumstances to an extent that would support successful completion of the student’s degree program. The dean’s decision, based upon the merits of the petition and the recommendation of program director, may, if favorable, stipulate conditions of reinstatement. The dean has the discretion to reject the request for reinstatement.

Readmission

If you were previously enrolled in a graduate program in the College of Science and Health but have not been in attendance for a period of one calendar year or longer, but not more than four calendar years, you must complete a readmission application with the Office of Graduate Admission. (If more than four calendars years have elapsed since you have been in attendance, you must file a new standard application.) The application must be submitted at least two weeks prior to the day of registration for the term in which you expect to resume your studies. Official copies of transcripts recording scholastic work taken while not enrolled at DePaul University must be submitted. As a policy, students are held to the degree requirements that are in force at the time of readmission.

Transfer Credit

In general, it is not encouraged that students seek to transfer in credit for the Master of Science in Science Education (MSSE) program. In exceptional cases, a maximum of twelve quarter hours (or eight semester system hours) may be transferred from another institution or program to count toward the graduate degree. Requests to transfer courses must be approved by the program director and associate dean for graduate studies. Transfer credit can only be awarded for graduate level coursework that has not counted toward the completion of a degree at DePaul or any other institution.

Undergraduate Courses

No undergraduate-level courses or credit may count toward MSSE graduate course requirements.

Graduation Requirements

You must have successfully completed all of the degree requirements as listed in the catalog under which you were admitted. Students need to achieve a minimum cumulative GPA of 2.500 to graduate.

Graduation with Distinction

To graduate with distinction from the MSSE program, students must have earned a cumulative 3.75 GPA or higher for coursework applied toward the MSSE degree.

Time Limitation

Graduate students in MSSE program is expected to complete their program degree requirements within a six-year period from the first registration date for a course in the program. When a graduate student fails to finish before the end of the sixth year, the department or program director may recommend, on receipt of the student’s petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

Screenwriting (MFA)

The MFA in Screenwriting is the terminal degree in writing for film and television. The program culminates in the successful completion of the MFA thesis screenplay or teleplay.

The MFA Screenwriting Degree has now been split into two (2) concentrations. Students are required to choose one (1) of the following:
Students will be able to:

- Describe standard structural paradigms and narrative techniques utilized in the writing of feature films and television shows.
- Assess the narrative strengths and weaknesses of a given piece of scripted content.
- Apply a professional creative process to the development of film and television story concepts.
- Prepare a story pitch for a screenplay or pilot that meets professional standards.
- Write screenplays and teleplays using standard entertainment industry format.
- Complete the first draft of a feature screenplay or television pilot on deadline.
- Rewrite an original screenplay or teleplay based on critical feedback.

**Degree Requirements**

**Course Requirements**

- Course requirements are determined by the concentration selected.
- No Introductory Course may be substituted for any other course at any level.

**Optional Los Angeles Quarter**

Students may apply to participate in the Los Angeles Quarter Program for the spring of their second year; they will spend 12 weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and videogame world. If selected to participate in the LA program, MFA Screenwriting students would take SCWR 441 and FILM 499 in Los Angeles.

**MFA Thesis**

Students in the MFA in Screenwriting program must complete a MFA Thesis project which consists of either a feature length screenplay or an original television pilot plus a "show bible" and outlines for six future episodes. We expect the thesis projects to be at a level of quality that would warrant representation by literary agents and managers. Satisfactory completion of the MFA Thesis project is determined by the MFA Advisor Committee (see below).

**Student’s MFA Advisor Committee**

In the spring quarter of their first year, all MFA candidates will be assigned two thesis committee members plus their thesis instructor; these three faculty members will be the MFA Advisor Committee. The MFA Advisor Committee will offer suggestions and feedback on the student’s work and help guide the student during the thesis phase of the program. They will ultimately judge the final thesis project as pass or fail.

**MFA Thesis Timeline: Year One**

Students will enroll in SCWR 550 or SCWR 500, in which they will begin to develop their thesis project. This course will conclude with students pitching their stories to their individual MFA Advisor Committee for feedback.

**MFA Thesis Timeline: Year Two**

The first draft of the thesis project must be submitted to the Advisor Committee on the last day of final exams for the fall quarter. Writers will get notes from their committee at the start of the winter quarter. The final draft of the thesis script will be sent to the committee on the last day of final exams for the winter quarter. The committees will meet during the spring quarter to evaluate thesis projects. Thesis chairs will notify each student as to whether they received "distinction," a "pass," or a "rewrite" decision. If a student passes, they must then complete their coursework in order to graduate. If a student does not pass, the writer must resubmit his or her thesis by an assigned due date determined by the thesis instructor. The re-defense will take place no later than Friday of week 10 of the spring quarter. If the student passes, he or she can move on to graduation assuming all courses are complete. If the student has a second non-pass, he or she must enroll in SCWR 701 (a zero credit hour and zero cost class) to remain enrolled for the summer session after completion of the year two coursework. The rewritten script is due by the last day of final exams for Summer I. The defense will take place before the end of the Summer II session. If the student passes, he or she may apply for the next round of graduation. If the student does not pass, he or she may elect to speak with the advising office about applying his or her course credit hours to an M.S. in Cinema Production degree.

**Degree Requirements**

Students in this degree program must meet the following requirements:

- Complete a minimum of 68 graduate credit hours in the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all graduate courses of the designated degree program.
- Maintain a cumulative GPA of 3.0 or higher.
- Satisfactorily complete the MFA thesis as determined by the student’s MFA Advisor Committee.
- Students cannot count credit earned towards a previously awarded master’s or MFA degree toward the completion of this MFA program.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Students are required to choose one of the following concentrations:

- Comedy Concentration, Screenwriting (MFA) (p. 880)
- Standard Concentration, Screenwriting (MFA) (p. 880)
### Comedy Concentration, Screenwriting (MFA)

Critical pedagogy, constructivist teaching practices, theories of teaching and society are integrated with issues of pedagogical content knowledge, cognitive, sociocultural, and sociopolitical nature of human development development inside and beyond formal school settings, historical, and practices of teaching and learning. Such issues as educational students into essential issues and themes of education and theories and Educational Policy Studies and Research Department to immerse cetera), the Secondary Education Major for double majors draws on Education major with disciplinary content courses attached to the major degree that reflects disciplinary area expertise. Like the Secondary Education Major for double majors provides students the opportunity to complete a primary major in Secondary Education and a secondary major in the disciplinary area for which students will be licensed (Art, Design & Media, Biology, Chemistry, English, Environmental Science, History, Mathematics, or Physics). As double majors, students are required to complete both majors and to fulfill all state licensure requirements to be licenses to teach.

The double major is designed to provide future Secondary Education teachers with a Secondary Education degree and a disciplinary area degree that reflects disciplinary area expertise. Like the Secondary Education major with disciplinary content courses attached to the major (e.g., Secondary Education Biology, Secondary Education English, et cetera), the Secondary Education Major for double majors draws on the expertise of faculty in the COE’s Secondary Education Program and Educational Policy Studies and Research Department to immerse students into essential issues and themes of education and theories and practices of teaching and learning. Such issues as educational inequality, politics of schooling, identity politics, social justice, identity development inside and beyond formal school settings, historical, cognitive, sociocultural, and sociopolitical nature of human development and society are integrated with issues of pedagogical content knowledge, critical pedagogy, constructivist teaching practices, theories of teaching and learning, curriculum development, and professional practice. Ensuring that students understand all these issues is integral to the Program design and delivery and to the preparation of teachers.

The measure of the academic quality of the Program relies on clearly articulated features of exemplary teacher-education programs. These include:

- a “common, clear vision of good teaching that permeates all coursework and clinical experiences...”;
- a “well-defined standard of professional practice and performance...”;
- a “strong core curriculum taught in the context of practice” and including understanding of human development and learning, social and cultural contexts, curriculum assessment, and subject-matter pedagogy;
- an “extended clinical experience” that supports ideas presented in coursework;
- an “extensive use of case methods, teacher research, performance assessments, and portfolio evaluation...”;
- “explicit strategies” to help students confront their own beliefs and assumptions about learning and students and to learn about the experiences of diverse people; and

Students who are interested in the Secondary Education Major for double majors should contact their academic advisor. The Secondary Education Major must be selected as the primary major to ensure that licensure requirements attached to the Liberal Studies Program are completed. Disciplinary major requirements are determined by the academic department in which the major is housed.

Secondary Education (BA/BS)

The Secondary Education Major for double majors provides students the opportunity to complete a primary major in Secondary Education and a secondary major in the disciplinary area for which students will be licensed (Art, Design & Media, Biology, Chemistry, English, Environmental Science, History, Mathematics, or Physics). As double majors, students are required to complete both majors and to fulfill all state licensure requirements to be licenses to teach.

The double major is designed to provide future Secondary Education teachers with a Secondary Education degree and a disciplinary area degree that reflects disciplinary area expertise. Like the Secondary Education major with disciplinary content courses attached to the major (e.g., Secondary Education Biology, Secondary Education English, et cetera), the Secondary Education Major for double majors draws on the expertise of faculty in the COE’s Secondary Education Program and Educational Policy Studies and Research Department to immerse students into essential issues and themes of education and theories and practices of teaching and learning. Such issues as educational inequality, politics of schooling, identity politics, social justice, identity development inside and beyond formal school settings, historical, cognitive, sociocultural, and sociopolitical nature of human development and society are integrated with issues of pedagogical content knowledge, critical pedagogy, constructivist teaching practices, theories of teaching and learning, curriculum development, and professional practice. Ensuring that students understand all these issues is integral to the Program design and delivery and to the preparation of teachers.

The measure of the academic quality of the Program relies on clearly articulated features of exemplary teacher-education programs. These include:

- a “common, clear vision of good teaching that permeates all coursework and clinical experiences...”;
- a “well-defined standard of professional practice and performance...”;
- a “strong core curriculum taught in the context of practice” and including understanding of human development and learning, social and cultural contexts, curriculum assessment, and subject-matter pedagogy;
- an “extended clinical experience” that supports ideas presented in coursework;
- an “extensive use of case methods, teacher research, performance assessments, and portfolio evaluation...”;
- “explicit strategies” to help students confront their own beliefs and assumptions about learning and students and to learn about the experiences of diverse people; and

Students who are interested in the Secondary Education Major for double majors should contact their academic advisor. The Secondary Education Major must be selected as the primary major to ensure that licensure requirements attached to the Liberal Studies Program are completed. Disciplinary major requirements are determined by the academic department in which the major is housed.

Licensure

Illinois Professional Educator License with an endorsement in the specified disciplinary area:

- Middle and Secondary Education Science-Biology (grades 5-12), an Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Science-Chemistry (grades 5-12), an Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education English Language Arts (grades 5-12), an Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Science-Environmental Science (grades 5-12), an Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Social Science-History (grades 5-12), an Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Mathematics (grades 5-12), an Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Science-Physics (grades 5-12), an Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Visual Art (grades 5-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.
Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements

• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements

• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines

• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content areas tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).
**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Students must earn a C- or better in this course.

1. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab requirement.

**Learning Domains**

**Arts and Literature (AL) (p. 1174)**
- 3 courses required for students whose second major is Biological Sciences, Chemistry, Environmental Science, History or Physics
- 2 courses required for students whose second major is Mathematical Sciences
- 1 course required for students whose second major is Art Media and Design (cannot be an ART or HAA course) or English (cannot be an ENG course)

**Historical Inquiry (HI) (p. 1178)**
- 2 courses required for students whose second major is Art Media and Design, Biological Sciences, Chemistry, English, Environmental Science, Mathematical Sciences, Physics. Note one must be United States History.
- 1 course required for students whose second major is History. Must be United States History

- 2 Courses Required
  - [1 CR Course and 1 SR Course]

**Philosophical Inquiry (PI) (p. 1180)**
- 2 Courses Required
  - LSE 380
    - 1 Additional Course
      - (Note: PHL 100 recommended)

**Religious Dimensions (RD) (p. 1181)**
- 2 Courses Required

**Scientific Inquiry (SI) (p. 1183)**
- 2 courses for students whose second major is Art Media and Design, English, History, Mathematical Sciences:
  - 1 Science as a Way of Knowing Course
  - 1 Lab Course
  - [Note: At least one course must be from Biological Sciences and one from Chemistry, Environmental Science, Geography or Physics.]  
- 1 course required for students whose second major is Biological Sciences (cannot be a BIO course), Chemistry (must be a BIO course), Environmental Science (must be STEM 230) or Physics (must be a BIO course)

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)**
- 3 courses required for students whose second major is Art Media and Design, Biological Sciences, Chemistry, English, Environmental Science, Physics. Note: PSC 120 must be one of these classes
- 2 courses required for students whose second major is History, Mathematical Sciences. Note: PSC 120 must be one of these classes

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Select one EDUCATION ELECTIVE (approval of advisor required)

Select one EDUCATION ELECTIVE (approval of advisor required)

Discipline Area Major

Open electives that fill out the credit hour requirements for a degree in the proposed Secondary Education major can be/should be used to complete coursework toward the disciplinary area major. The following table identifies the number of open electives required/necessary for each concentration (disciplinary area) within the Secondary Education major based on current disciplinary area major requirements. These hours equal the credit hours required for each identified disciplinary area major:

- Biology = 100 credit hours
- Chemistry:
  - BA = 68 credit hours
  - BS = 92 credit hours
- English = 56 credit hours
- Environmental Science:
  - BA = 66 credit hours
  - BS = 96 credit hours
- History = 60
- Mathematics:
  - BA/BS = 60-64 credit hours
  - Physics = 88-96 credit hours
  - Visual Arts = 76 credit hours

These credit hour requirements are subject to revision based on disciplinary area major coursework revisions.

Open Electives

Depending on the disciplinary area major, additional open elective credit may be required to reach the minimum number of hours for an undergraduate degree.

Student Teaching

Student Teaching: 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

</tr>
</tbody>
</table>
**Licensure Test**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Major for double major students must complete the following tests:

- Content Area Test for the disciplinary area for which the student will be licensed – assesses knowledge of disciplinary content. Test is required before Student Teaching (deadlines apply).
- EdTPA – assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Secondary Education Biology (BS)**

The Bachelor of Science program in Secondary Education Biology prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Biological Sciences. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Biological Sciences. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Biological Sciences (see Biological Sciences BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Biology major and want to switch to the Secondary Education Major and Biological Sciences double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Biology do not have the option to double major in Biological Sciences.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Biology (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

**College Core Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern
Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content areas tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.
Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

¹ Students must earn a C- or better in this course.
² Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
³ This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1174)
- 3 Courses Required

Historical Inquiry (HI) (p. 1178)
- 2 Courses Required
(Note: One must be US History)

- 1 Course Required
  (1 CR Course or 1 SR Course)

Philosophical Inquiry (PI) (p. 1180)

Scientific Inquiry (SI) (p. 1183)
- 1 SWK Course Required
  (Note: Cannot be in Biology)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- 3 Courses Required
  - PSC 120
  - 2 Additional Courses
Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

| TCH 380 | THE TEACHER AS PROFESSIONAL | 4 |
| TCH 395 | ASSESSMENT PRACTICES IN THE MIDDLE GRADES AND SECONDARY EDUCATION | 4 |
IB Certificate in Teaching and Learning expands the opportunities for candidates the background and expertise to teach in an IB school. The Years Program (MYP) and the Diploma Program (DP) provides teacher Organization. The IB Certificate in Teaching and Learning for the Middle certificate in Teaching and Learning from the International Baccalaureate teacher candidates will also complete the requirements to gain a aligning with a commitment to preparing students with a global mindset, study for middle school and high school levels. In all cases, appropriate participation in teaching activities at multiple schools, and student participate in field experiences, which require observation and procedures in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Biology majors must complete the following tests:

- **Science**: Biology Content Area Test (test #105) – assesses knowledge of both biological science and physical science. Test is required before Student Teaching (deadlines apply).
- **EdTPA** - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Secondary Education Chemistry (BS)**

The Bachelor of Science program in Secondary Education Chemistry prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

**Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.**

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Chemistry (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a
  Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.
To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and English. With the double major, students will graduate with a Bachelor of Arts degree with a major in Secondary Education and a major in English. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and English (see English BA for degree requirements) as their secondary major. If you have already begun the Secondary Education English major and want to switch to the Secondary Education Major and English double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Arts degree with a major in Secondary Education English do not have the option to double major in English.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Chemistry majors must complete the following tests:

- Science: Chemistry Content Area Test (test #106) – assesses knowledge of both geological and chemical science. Test is required before Student Teaching (deadlines apply)
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education English (BA)
The Bachelor of Arts program in Secondary Education English prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.
• Exhibit professionalism, pursue professional growth, and advocate for
delopment of the learner
• Takes the time and effort needed to understand how students learn,
including discovering their interests and experiences and determining
how to shape teaching acts (using technology as appropriate) that
engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and
ensure the continuous intellectual, social, emotional, and physical
development of the learner
• Respects and considers cultural contexts in order to determine how
to be responsive to learners and to proactively promote all students’
learning
• Values and is responsive to diverse learners’ academic, emotional,
and social needs through teaching acts (including careful
instructional planning, implementation, and differentiation) and
through everyday interactions with students
• Is committed to collaboration with colleagues, families, and
communities in order to promote all students’ learning and
development
• Recognizes and fulfills professional responsibilities and habits of
conduct (e.g., dress, language, preparedness, attendance, punctuality,
etc.)

College Core Requirements
Dispositions
The academic programs within the College of Education have set forth
these dispositions as educational and professional expectations for
all students. Students should be aware that failing to abide by DePaul
University or College of Education policies including, under certain
circumstances, these dispositions, could result in adverse consequences
for the student, including removal from his or her program, the College of
Education, or the University.

The following dispositions apply to Early Childhood Education,
Elementary Education, Exercise Science, Middle Grades, Physical
Education, Secondary Education, and World Language Education majors
only:
• Reflects on progress and identifies strengths and weaknesses,
including evaluating strategies for success, finding alternatives for
inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and
professionally upon suggestions
• Values critical thinking, including engaging theoretical and
philosophical frameworks and shows evidence of critical thinking
through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating
clearly orally and in writing both in traditional and in new and
emerging digital formats
• Values and is committed to continually developing strong content
area knowledge and/or knowledge of the professional field, including
pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out
information using a variety of human and material resources and
technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management
procedures that reflect respect and care for learners and concern for
their emotional and physical well being
• Takes the time and effort needed to understand how students learn,
including discovering their interests and experiences and determining
how to shape teaching acts (using technology as appropriate) that
engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and
ensure the continuous intellectual, social, emotional, and physical
development of the learner
• Respects and considers cultural contexts in order to determine how
to be responsive to learners and to proactively promote all students’
learning
• Values and is responsive to diverse learners’ academic, emotional,
and social needs through teaching acts (including careful
instructional planning, implementation, and differentiation) and
through everyday interactions with students
• Is committed to collaboration with colleagues, families, and
communities in order to promote all students’ learning and
development
• Recognizes and fulfills professional responsibilities and habits of
conduct (e.g., dress, language, preparedness, attendance, punctuality,
etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect,
and diplomacy
• Balances self-confidence and assertiveness with respect for others’
perspectives
• Respects the requirements, expectations, and procedures of both the
College of Education and of our field partners and appreciates the
issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:
• Is receptive to faculty feedback and acts meaningfully and
professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and
weaknesses, and evaluates strategies for success and professional
growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be
responsive to learners and to proactively promote all students’
learning
• Expresses positive attitudes toward individuals with disabilities and a
willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and
communities in order to promote all students’ learning and
development
• Demonstrates professional ethical and legal behavior as defined by
the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic
settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the
DePaul placement tests to determine if skill level is at the college level. If
placement indicates skill level in these courses, the courses become part
of degree requirements. Consult with your advisor regarding placement
test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education
will be required to demonstrate a measure of competence in a modern
language, as defined by the college. Such competence may be
demonstrated in one of several ways:
• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any
language
• completing a college course beyond the first-year level in any
language
• achieving a satisfactory score on any of the Modern Language
placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted
by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test
for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.
To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Liberal Studies Requirements**

Honor program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

3 This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

**Arts and Literature (AL)** (p. 1174)

- 1 Course Required

(Note: This must not be in English.)

**Historical Inquiry (HI)** (p. 1178)

- 2 Courses Required

(Note: One must be US History)

- 2 Courses Required
  - [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)

- 2 Courses Required
  - LSE 380
  - 1 Additional Course
  - (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1181)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1183)

- 2 Courses Required
  - 1 BIO Course
  - 1 CHE/ENV/GEO/PHY Course
  - (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)

- 3 Courses Required
  - PSC 120
  - 2 Additional Courses

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g., C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100–110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Environmental Science. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Environmental Science. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Environmental Science (see Environmental Science BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Educational Science major and want to switch to the Secondary Education Major and Environmental Science double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Environmental Science do not have the option to double major in Environmental Science.

Secondary Education Environmental Science (BS)

The Bachelor of Science program in Secondary Education Environmental Science prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

### Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education English majors must complete the following tests:

- English Language Arts Content Area Test (test #207) – assesses reading, writing and research, speaking and listening, and literature. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

### Secondary Education Environmental Science (BS)

The Bachelor of Science in Secondary Education Environmental Science prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, and engage in professional development opportunities. The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

### Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.

### Student Teaching: 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

### Licensure

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education English majors must complete the following tests:

- English Language Arts Content Area Test (test #207) – assesses reading, writing and research, speaking and listening, and literature. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

### Secondary Education Environmental Science (BS)

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100–110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Environmental Science. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Environmental Science. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Environmental Science (see Environmental Science BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Environmental Science major and want to switch to the Secondary Education Major and Environmental Science double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Environmental Science do not have the option to double major in Environmental Science.

• Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
• Implement assessment practices to evaluate student learning and inform instruction.
• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements
Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree.
Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged.

The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
3 This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

**Arts and Literature (AL) (p. 1174)**
- 3 Courses Required

**Historical Inquiry (HI) (p. 1178)**
- 2 Courses Required
  (Note: One must be US History)

• 1 Course Required  
  [1 CR Course or 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)

• 2 Courses Required:  
  • LSE 380  
  • 1 Additional Course  
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1181)

• 2 Courses Required

Scientific Inquiry (SI) (p. 1183)

• PHY 104  
  or PHY 220  
  or GEO 225  
  (Note: Science as a Way of Knowing and Lab course requirements are met through the Science Core within the major.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)

• 3 Courses Required  
  • PSC 120  
  • 2 Additional Courses

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

participate in field experiences, which require observation and
learning educational theories and effective teaching practices,
suburban education settings, including public and private middle schools
The Bachelor of Arts program in Secondary Education History prepares
students to teach 5th through 12th grade in a variety of urban and
required to complete licensure tests specific to their teaching license.
Secondary Education Environmental Science majors must complete the
• Science: Environmental Science Content Area Test (test #112) –
assesses knowledge of life science, physical science, and the living
environment. Test is required before Student Teaching (deadlines
apply).
• EdTPA - assessment conducted during the student teaching
experience including video clips of instruction, lesson plans, student
work samples, analysis of student learning and reflective
commentaries. Students will submit an electronic portfolio to an
outside agency for independent evaluation and a fee will be imposed
by that agency as part of the assessment.

Student Teaching: 10 quarter hours required, grade of B- or better required
Registration in student teaching requires completion of all requirements
and procedures indicated in the college core section. EDU 95 indicates
to the Illinois State Board of Education that all field experience hours are
complete. All students also take SEC 387, Capstone Seminar with student
teaching (listed in the Liberal Studies section).

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are
required to complete licensure tests specific to their teaching license.
Secondary Education Environmental Science majors must complete the
following tests:

• Science: Environmental Science Content Area Test (test #112) –
assesses knowledge of life science, physical science, and the living
environment. Test is required before Student Teaching (deadlines
apply).
• EdTPA - assessment conducted during the student teaching
experience including video clips of instruction, lesson plans, student
work samples, analysis of student learning and reflective
commentaries. Students will submit an electronic portfolio to an
outside agency for independent evaluation and a fee will be imposed
by that agency as part of the assessment.

Secondary Education History (BA)
The Bachelor of Arts program in Secondary Education History prepares
students to teach 5th through 12th grade in a variety of urban and
suburban education settings, including public and private middle schools
and high schools.

Students learn educational theories and effective teaching practices,
participate in field experiences, which require observation and
participation in teaching activities at multiple schools, and student
teaching. Students should meet early and regularly with their advisor to
design and monitor their program of study.

The program combines theoretical principles of education and field work
with the student’s choice of major. Students follow a general pattern of
study for middle school and high school levels. In all cases, appropriate
field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in
aligning with a commitment to preparing students with a global mindset,
teacher candidates will also complete the requirements to gain a
certificate in Teaching and Learning from the International Baccalaureate
Organization. The IB Certificate in Teaching and Learning for the Middle
Years Program (MYP) and the Diploma Program (DP) provides teacher
candidates the background and expertise to teach in an IB school. The
IB Certificate in Teaching and Learning expands the opportunities for
teacher candidates and training in IB open expands the vision of inquiry
and reflective practice.

Students entering the program must be able and willing to devote
themselves to a program requiring a minimum of 100 hours of daytime
field experiences in schools. These school-based clinical hours are
completed in conjunction with methodology courses that require
students to spend a half-day each week in a school. As students will
be completing requirements to earn the IB Certificate, a majority of the
100-110 hours will be completed in International Baccalaureate Schools.
In addition, the student must spend a minimum of 11 weeks in full-time
student teaching.

Please make sure you consult the Liberal Studies Requirements, Major
Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double
major in Secondary Education and History. With the double major,
students will graduate with a Bachelor of Arts degree with a major in
Secondary Education and a major in History. Students should declare
Secondary Education as their primary major (see Secondary Education
 Requirement) as their secondary major. If you have already begun the
Secondary Education History major and want to switch to the Secondary
Education Major and History double major, you should contact your
academic advisor because the double major may require additional
coursework. Students who pursue the Bachelor of Arts degree with a
major in Secondary Education History do not have the option to double
major in History.

Licensure
Illinois Professional Educator License with endorsement in Middle and
Secondary Education Social Science-History (grades 5-12), an Illinois
State Board of Education (ISBE) approved program. Graduates who earn
an initial Professional Educator License in grades 9-12 may also qualify
for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes
Students will be able to:

• Use knowledge of adolescent learners to create safe, equitable, and
meaningful learning environments and collaborative classrooms.
• Demonstrate and apply disciplinary content and pedagogical content
knowledge with an emphasis on developing students’ conceptual
understanding and disciplinary literacy.
• Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
• Implement assessment practices to evaluate student learning and inform instruction.
• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements

• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements

• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines

• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree.
Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged.

The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3 This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1174)
- 3 Courses Required
Historical Inquiry (HI) (p. 1178)
• 1 Course Required
  (Note: Must be US History)

• 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)
• 2 Courses Required:
  • LSE 380
  • 1 Additional Course
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1181)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
• 2 Courses Required:
  • 1 BIO Course
  • 1 CHE/ENV/GE/O/PHY Course
  (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
• 2 Courses Required:
  • PSC 120
  • 1 ECO Course

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education History majors must complete the following tests:

- Social Science: History Content Area Test (test #246) – assesses and measures the candidate’s core knowledge across history and social science fields. Test is required before Student Teaching (deadlines apply).
- EdTPA – assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education Mathematics (BA)
The Bachelor of Arts program in Secondary Education Mathematics prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Note: Secondary Education students now have the option to double major in Secondary Education and Mathematical Sciences. With the double major, students will graduate with a Bachelor of Arts degree with a major in Secondary Education and a major in Mathematical Sciences. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Mathematical Sciences (see Mathematical Sciences BA for degree requirements) as their secondary major. If you have already begun the Secondary Education Mathematics major and want to switch to the Secondary Education Major and Mathematical Sciences double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Mathematics do not have the option to double major in Mathematical Sciences.

Licensure
Illinois Professional Educator License with endorsement in Middle and Secondary Education Mathematics (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes
Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one’s behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**

• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

**Clinical Requirements**

• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines**

• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.
To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

**Arts and Literature (AL)** (p. 1174)
- 2 Courses Required

**Historical Inquiry (HI)** (p. 1178)
- 2 Courses Required
- (Note: One must be US History)

**Math and Computing (MC)** (https://catalog.depaul.edu/undergraduate-core/liberal-studies-program/liberal-studies-learning-domains/math-and-computing/)
- Not Required

**Philosophical Inquiry (PI)** (p. 1180)
- 2 Courses Required:
- LSE 380
- 1 Additional Course
- (Note: PHL 100 recommended)
Religious Dimensions (RD) (p. 1181)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
• 2 Courses Required:
  • 1 BIO Course
  • 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
• 2 Courses Required:
  • PSC 120
  • 1 Additional Course

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Content Area Courses
Math Core: 28 quarter hours required, grade of C or better required
Math courses must be taken in sequence (i.e. 150 is followed by 151, 160 is followed by 161, etc.). Consult your advisor for a full list of sequences and prerequisites. Note: The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.

The Bachelor of Science program in Secondary Education Mathematics (BS)

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Mathematics majors must complete the following tests:

- Mathematics Content Area Test (test #208) – assesses knowledge of both the processes and applications of mathematics. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Licensure
Illinois Professional Educator License with endorsement in Middle and Secondary Education Mathematics (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

</tr>
</tbody>
</table>

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Mathematical Sciences. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Mathematical Sciences. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Mathematical Sciences (see Mathematical Sciences BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Mathematics major and want to switch to the Secondary Education Major and Mathematical Sciences double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Mathematics do not have the option to double major in Mathematical Sciences.
Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern
language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts
degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Students must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is not affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

**Arts and Literature (AL) (p. 1174)**

- 2 Courses Required
Historical Inquiry (HI) (p. 1178)
- 2 Courses Required
  (Note: One must be US History)

- Not Required

Philosophical Inquiry (PI) (p. 1180)
- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1181)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- 2 Courses Required:
  - PSC 120
  - 1 Additional Course

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Major Requirements

#### Course Requirements

##### Content Area Courses

**Math Core: 28 quarter hours required, grade of C or better required**
Math courses must be taken in sequence (i.e. 150 is followed by 151, 160 is followed by 161, etc.). Consult your advisor for a full list of sequences and prerequisites. **Note:** The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.

Secondary Education Physics (BS)

The Bachelor of Science program in Secondary Education Physics prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

* Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Physics. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Physics. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Physics (see Physics BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Physics major and want to switch to the Secondary Education Major and Physics Major double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Physics do not have the option to double major in Physics.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Mathematics majors must complete the following tests.

- Mathematics Content Area Test (test #208) – assesses knowledge of both the processes and applications of mathematics. Test is required before Student Teaching (deadlines apply).

Secondary Education Physics (BS)

The Bachelor of Science program in Secondary Education Physics prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Physics. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Physics. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Physics (see Physics BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Physics major and want to switch to the Secondary Education Major and Physics Major double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Physics do not have the option to double major in Physics.
Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Physics (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes

Students will be able to:

• Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
• Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
• Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
• Implement assessment practices to evaluate student learning and inform instruction.
• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge

• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
•Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
• Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others' perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved.

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one's behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content areas tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Physics majors must complete the following tests:

- Science: Physics Content Area Test (test #116) – assesses knowledge of both life and physical science, including Earth systems, technology, and the universe. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education Social Science (BA)
The Bachelor of Arts program in Secondary Education Social Science prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students must meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure
Illinois Professional Educator License with an endorsement in Middle and Secondary Education Social Science-History (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes
Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
• Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
• Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
• Implement assessment practices to evaluate student learning and inform instruction.
• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.
Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

3 This must be taken with student teaching. Students must earn a C or better in this course.
Learning Domains

Arts and Literature (AL) (p. 1174)
- 3 Courses Required

Historical Inquiry (HI) (p. 1178)
- 1 Course Required
  (Note: Must be US History)

- 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)
- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1181)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- 2 Courses Required:
  - PSC 120
  - 1 Additional Course
  (Note: An ECO course recommended)

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Art, Media, and Design. With the double major, students will graduate with a Bachelor of Arts degree with a major in Secondary Education and a major in Art, Media, and Design. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Art, Media, and Design (see Art, Media, and Design BA for degree requirements) as their secondary major. If you have already begun the Secondary Education Visual Arts major and want to switch to the Secondary Education Major and Art, Media, and Design double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Arts degree with a major in Secondary Education Visual Arts do not have the option to double major in Art Media and Design.

Licensure

Illinois Professional Educator License with an endorsement in Secondary Education Visual Art (grades 6-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Secondary Education Visual Art (BA)

The Bachelor of Arts program in Secondary Education Visual Art prepares students to teach 6th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school.

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is open to new ideas and engagement in learning
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)

- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
Student Teaching Requirements

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPs Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Academic Requirements

- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.
To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain. This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1174)
- 1 Course Required
  (Note: This must not be an ART or HAA course.)

Historical Inquiry (HI) (p. 1178)
- 2 Courses Required
  (Note: One must be US History)
- 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)
- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
    (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1181)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/GEO/PHY Course
    (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- 3 Courses Required:
  - PSC 120
  - 2 Additional Courses

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

1 Taken in conjunction with SEC 366.

Open Electives: 8 quarter hours are required
Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95.

Student Teaching: 10 quarter hours required, grade of B- or better required
Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are
complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Visual Art majors must complete the following tests:

- Visual Art Content Area Test (test #145) – assesses elements, principles, and expressive features of the visual arts; creating and producing works of visual art; analyzing and evaluating works of visual art; and the role of the visual arts. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Education, Culture, and Society Graduate Certificate

The certificate is for students in any field who want to complement their primary degree through interdisciplinary study of the foundations of education and educational policy from a critical perspective.

Course Requirements

The certificate Program requirements include completion of four graduate-level courses from among the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCG 603</td>
<td>CULTURE AND EDUCATION SEMINAR</td>

</tr>
</tbody>
</table>

Social Research Certificate

The Certificate in Social Research familiarizes students with the choices they can make in designing social science research and to help them select the research tools that are right for the types of questions they are asking. The four-course program provides knowledge of current research designs, methods, and practices; quantitative and statistical skills; and the logic of inquiry.

<table>

Social Work (MSW)

The Master of Social Work (MSW) degree program is designed to prepare students for advanced social work, with an emphasis on either community practice or forensic social work. The MSW degree prepares its graduates for work and leadership in broad and varied human service organizations which span child welfare, health and mental health, community planning, family services and the like.

All students are required to complete 88 quarter hour credits; this includes 24 hours of field education. The program can be completed in either a full-time (two years) or part-time (three or four years) basis. The curriculum consists of foundation (beginning) and concentration (or advanced) content ranging from professional writing, human behavior, social welfare policy, social work research, program evaluation, fund development, beginning social work practice and either advanced community practice or forensic social work.

The MSW degree may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MSW/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the
certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- MSW + Global Health Certificate (p. 484)
- MSW + Social Research Certificate (p. 937)
- MSW + Critical Ethnic Studies Certificate (p. 280)

<td>88</td>
</tr>
<tr>
<td>Total hours required</td>
<td>88</td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Be knowledgeable of the profession’s ethics and value base and practice accordingly.
- Practice within the context of striving for justice and will therefore practice antidiscrimination, especially with respect to clients from historically oppressed groups including women, children, the poor, people of color, people with disabilities, the aged, gay, lesbian, and trans-gendered people, people from various ethno-cultural backgrounds, people with diverse religious beliefs, recently-arrived immigrants, and people for whom English is a second language.
- Apply select advocacy and social change strategies while working for justice.
- Apply the knowledge and skills of a generalist professional perspective to practice with client systems of all sizes.
- Apply select theoretical frameworks to understand human development and behaviors across the lifespan and interactions among and between individuals, families, groups, communities, organizations and institutions.
- Analyze and influence social policies and their impacts.
- Critically assess research, apply research findings to practice, and evaluate their own practice.
- Communicate effectively with multiple audiences, using various media.
- Use supervision effectively and accept constructive feedback regarding their practice interventions.
- Operate effectively within organizations and work to change organizations in the quest for justice.
- Apply select theoretical frameworks and constructs from community practice to analyze, intervene, and evaluate interventions with client systems of all sizes.
- Work collaboratively with professionals (including those from other disciplines) and autonomously.
- Be lifelong learners and be knowledgeable of licensure, continuing education, and on-going professional learning demands.

### Degree Requirements

#### Course Requirements

All candidates for the MSW degree enrolled in the 2-year or the 4-year program must complete 88 credit hours of course work, including 56 credit hours (14 courses) of course work detailed below.

<table>
<thead>
<tr>
<th>Course</th>

<td>MSW 499</td>
<td></td>
<td>8</td>
</tr>
<tr>
<td></td>
<td>Select eight credit hours of graduate level study (400 and above) as electives</td>
<td>8</td>
</tr>
</tbody>
</table>

1 Special topics courses (MSW 450) are included as possible electives.

In addition to the requirements listed above, students must select and complete requirements for a concentration, detailed under the “Concentration Requirements” tab of this page.

MSW 499 is also available as an elective or substitution for some courses.

### Notice for Graduates of CSWE-Accredited Baccalaureate Programs

Every candidate for the MSW degree has to demonstrate competencies in the professional foundation of social work. For graduates of CSWE-accredited baccalaureate programs, up to 12 credit hours of eligible coursework can be waived if applicants received a grade of ‘B’ or better in corresponding undergraduate courses. These courses are limited to the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSW 411</td>
<td>HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT I</td>
<td></td>
</tr>
<tr>
<td>MSW 421</td>
<td>INTRODUCTION TO SOCIAL WORK RESEARCH</td>
<td></td>
</tr>
<tr>
<td>MSW 431</td>
<td>SOCIAL WELFARE POLICY I</td>
<td></td>
</tr>
</tbody>
</table>

Applicants are assessed at the time of admission. The waivers will not count as graduate credits earned and all students granted course waivers status must meet all other requirements of the program, including a minimum of 76 earned graduate credit hours for degree completion.

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Community Practice Concentration, Social Work (MSW) (p. 940)
- Forensic Social Work Concentration, Social Work (MSW) (p. 940)
Mission Statement

The DePaul University Master of Social Work extends the university’s global Vincentian mission of service to marginalized groups, particularly those in the Chicago urban community. The program offers rigorous, personalized, and responsive education, through collaboration with university and community partners in pursuit of social and economic justice. The DePaul University Master of Social Work Program is designed to foster excellence in community-based practice with an emphasis on ethics, leadership, and scholarship. Below are terms and/or academic designations which support the admissions, academic, and matriculation components.

Probation

Students enrolled in the MSW degree program will be placed on probation when their grade point average (GPA) falls below a 2.5, or when a student receives a rating of inadequate in one or more areas of the program’s professional comportment matrix. All students placed on probation will be required to take part in a continuance review to consider their plans for remediation and (possible) continuation in the MSW degree program. Students placed on probation will not be allowed to re-enroll in the program until the student has met all of the academic and professional conditions set forth in a formal continuance hearing. Students who elect not to participate in continuance reviews will be subject to dismissal from the program. Students who are dismissed can make a formal petition for reconsideration which should be addressed to the Dean of the College of Liberal Arts and Social Sciences or their representative.

Dismissal

Students who fail to acquire a professional field placement after a minimum of three attempts by the program to facilitate internship arrangements, who receive failing grades in either practice (MSW courses 481-483, and either MSW courses 561-563 or 581-583) or field education (MSW courses 491-493, and either MSW courses 571-573 or 591-593), who are dismissed from field due to poor performance, or who fail to make sufficient progress towards degree completion, who are found to be inadequate in one or more areas of the program’s professional comportment matrix, and/or who are found in violation with one or more of the National Association of Social Worker’s Code of Ethics, may be dismissed from the MSW degree program upon the completion of a discontinuance review. Students who elect not to participate in continuance reviews will be subject to dismissal from the program. Students who are dismissed can make a formal petition for reconsideration which should be addressed to the Dean of the College of Liberal Arts and Social Sciences or their representative.

Readmission

Students requesting readmission into the program after probation and/or dismissal must make their request in writing, based on criteria set forth in the University’s Graduate Student Handbook, the MSW Student Handbook, and/or the conditions set forth in the letter of termination or dismissal from the program. In order to be readmitted to the program, students must be able to secure an approved professional internship placement under the auspices of the MSW program’s Office of Field Education.

Transfer Credit

Students who are accepted for admission into the MSW degree program can request that graduate course work done in other accredited institutions (or other graduate degree programs at DePaul University) be considered for academic credit in the MSW Program. The Transfer of Credit Request Form must be completed by students and can be found in the appendix of the MSW Student Handbook. Students may not apply for transfer credit if those courses were counted toward a previous, completed degree.

Students should make their request (in writing) either at the time of admission or before the end of their first academic quarter of enrollment. Students can apply transfer credits for up to twelve (12) hours of academic study in the MSW degree program. Student requests must be based on completed work and must be substantiated by transcripts (indicating grades earned) and other supporting documentation, including course syllabi, graded assignments, etc. (in addition to the form). Students must have received a grade of B or better in courses being considered for transfer credit.

Students will not be granted credit for field education, practice or concentration courses in the MSW degree program (MSW 481, MSW 482, MSW 483, MSW 491, MSW 492, MSW 493 or 500-level MSW course). Students may not apply for transfer credit if those courses were counted towards a previous, completed degree. Requests submitted after the conclusion of the student’s first quarter of enrollment in the MSW program may not be reviewed. Students will be notified (in writing) of the program’s decision regarding their transfer request.

Undergraduate Courses

The program does not currently accept any undergraduate level courses for credit in the graduate curriculum.

Graduation Requirements

Completion of the MSW degree requires a completion of a minimum of 88 quarter hours which can be met on a full-time or part-time basis and include two (academic) year-long, professional internships. All students must maintain an overall grade point average (GPA) of at least 2.75 (on a 4.0 scale) to remain in good standing in the MSW program and the university. While the minimum, overall GPA required to graduate from the program and university is 2.75, DePaul MSW students should note that other programs in social work generally carry the 3.0 GPA as a minimum and upon graduation, DePaul University MSW students are likely to be compared to graduates from programs that have higher grade point expectations. It is the value of the MSW program to provide all students with frequent and proactive feedback regarding their performance(s) in classes and field placement(s). To that end, faculty and staff are committed to ongoing communications regarding student performance to ascertain whether there are certain trends or preventable situations which may impede student learning and professional performance.

Graduation with Distinction

The MSW degree program requires an overall GPA of at least 3.9 (on a 4.0 scale) for the designation of graduation with distinction.

Time Limits

Graduate students must complete their degree requirements within six years of the date of matriculation in the program. In rare circumstances, the Program Director may grant extensions based on student’s written requests, which must be submitted before the end of the final year of enrollment eligibility.
Community Practice Concentration, Social Work (MSW)

Course Requirements
The Community Practice concentration requires completion of the following eight courses (32 credit hours):

Social Work (MSW/MA Women's and Gender Studies)

The joint MSW/MA in Women's and Gender Studies offers a unique and cutting edge graduate program with a focus on gender, community, and social justice. Both programs share a synchronicity of mission and focus on social justice efforts at the community level and together they would provide an excellent foundation for developing a women's and gender studies-based social work career trajectory.

The joint program is designed to give students the opportunity and flexibility to draw from the strengths of both programs as they build a foundation for their chosen work. The program offers both a broad understanding of social work, with a particular focus on community, and a substantive foundation in the theories and scholarship within women's and gender studies, with a particular focus on social justice. Students will have the opportunity to deepen their knowledge in the field of women's and gender studies directly applicable to their interests in social work and build their knowledge-based skills in social work while obtaining the necessary credential for not only securing employment, but the ability to advance their leadership in the profession.

Sociology (BA)

Sociology is the study of groups, societies, social processes, and institutions. To study these, the department provides a program that focuses on sociological methods (how we know) and sociological theory (how we explain). The curriculum provides students with a basis for understanding and participation in their own communities and enables them to pursue careers and occupations in professions related to sociological knowledge and training.

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Apply and explain the sociological perspective (including the history of the discipline and its major theorists) to different levels of analysis of social contexts including:
  - Families.
  - Communities.
  - Cities.
  - Regions.
  - Organizations.
  - Societies at the national and global levels.
- Recognize and use basic qualitative and quantitative research methods, concepts, and procedures for the social sciences.
- Describe the historical context of sociology as a discipline, identify major classical and contemporary theorists, and critically examine key concepts of sociology such as social structures, inequality, deviance, social control, power and authority, complex organizations, and culture related to society and individual behaviors.
- Apply sociological perspectives and skills into the construction of a socially inclusive and just society while also planning a purposeful career path that satisfied personal interests, values, and beliefs.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.
Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120.
3. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
4. A student whose only major is Sociology is required to complete the Capstone offered by the Sociology Department. A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in Sociology may substitute the Capstone of the secondary major or degree. A Sociology major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the Sociology Capstone.

Learning Domains

Arts and Literature (AL) (p. 1174)
- 3 Courses Required

Historical Inquiry (HI) (p. 1178)
- 2 Courses Required

- 1 Course Required
  - [1 CR Course]

Philosophical Inquiry (PI) (p. 1180)
- 2 Courses Required

Religious Dimensions (RD) (p. 1181)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
- 2 Courses Required
  - [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- 1 Course Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the experiential learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Major Requirements

Sociology majors must complete required core sociology courses, sociology electives, and open electives. The core courses (24 credit hours) give students a foundation in theory, methods, and career development; sociology electives are selected in consultation with student’s academic advisor to identify an area of specialization; and open electives are selected in consultation with student’s academic advisor to meet the minimum graduation requirement of 192 hours.

Core Requirements

<td>INTRO STATS FOR THE SOCIAL SCIENCES</td>
<td>1</td>
</tr>
</tbody>
</table>

The statistics requirement may also be fulfilled by PSY 240, MAT 137, or MAT 242.

Sociology Elective Requirements

Students must complete eight additional courses from sociology 200-level and 300-level courses (32 credit hours). The courses are to be selected in consultation with the student’s academic advisor and the courses can be used to make up the student’s area of specialization. Students develop a self-defined area of specialization, which reflects the common themes connecting their academic coursework, research and career interests. Previous areas of specializations have included: Health and Human Services; Law, Crime, and Criminology; Urban - Cities, Action, Power, Practice; and Sociology of Culture.

NOTE: A minimum of three courses or twelve credits can be counted toward a student’s area of specialization. A maximum of eight credits of SOC 398 INTERNSHIP can be counted toward major field credit. Additional SOC 398 credit may be earned but it will count for open elective credit or Experiential Learning (EL) credit, if applicable.

In the 3 + 3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

**Key Program Features**

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College
of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 603).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Sociology BA + Secondary Education

Social Science MEd

The combined Bachelor’s + Master of Arts degree programs allow students to complete 12 graduate credit hours while still enrolled as undergraduates. This option is available to Sociology majors as well as any undergraduate major at DePaul University. These 12 graduate credit hours can count as elective courses in their senior year as an undergraduate and they comprise the first year of the MA degree in Sociology. Combined degree participants will be awarded their bachelor’s degrees upon completion of their undergraduate degree requirements. The MA degree will be awarded upon completion of the graduate degree requirements.

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Social Science MEd licensure.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 grade point average. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework: 4 undergraduate quarter hours required

</tbody>
</table>

Sociology BA + Sociology MA

The combined Bachelor’s + Master of Arts degree programs allow students to complete 12 graduate credit hours while still enrolled as...
undergraduates. This option is available to Sociology majors as well as any undergraduate major at DePaul University. These 12 graduate credit hours can count as elective courses in their senior year as an undergraduate and they comprise the first year of the MA degree in Sociology. Combined degree participants will be awarded their bachelor's degrees upon completion of their undergraduate degree requirements. The MA degree will be awarded upon completion of the graduate degree requirements.

Students apply to this program in spring of their junior year; interested students should meet with the Director of the program. Students in this program take twelve graduate credit hours in their senior year; these graduate courses apply toward both undergraduate and graduate Sociology requirements. An application to the Sociology BA + Sociology MA program is required. Students accepted to the Sociology BA + Sociology MA program must register for graduate classes in consultation with the Graduate Program Director.

Students with a BA in sociology will have the following three courses substituted for three 400-level courses, which will count toward both undergraduate and graduate degree programs:

• Three Sociology elective courses at the 200 or 300-level

Sociology MA, Combined Bachelor's + Master's Degree

The combined Bachelor's + Master of Arts degree programs allow students to complete 12 graduate credit hours while still enrolled as undergraduates. This option is available to Sociology majors as well as any undergraduate major at DePaul University. These 12 graduate credit hours can count as elective courses in their senior year as an undergraduate and they comprise the first year of the MA degree in Sociology. Combined degree participants will be awarded their bachelor's degrees upon completion of their undergraduate degree requirements. The MA degree will be awarded upon completion of the graduate degree requirements.

DePaul Undergraduate Degree + Sociology (MA)

Current DePaul undergraduate students with junior status (at least 88 credit hours) and a cumulative DePaul grade point average of 3.00 are eligible to apply to the Combined Bachelor's/MA program in Sociology. The application must be submitted no later than the end of the spring quarter of the junior year. Students will take three graduate elective courses in their senior year as an undergraduate; these courses comprise the first year of the MA degree program in Sociology.

The MA degree requirements are found here (p. 946).

Sociology (MA)

The graduate program in Sociology enables students to study sociological principles, methods of inquiry, and analysis of sociological findings in areas of current interest. Training at the master's level in sociology is applicable to employment in such areas as urban planning, public and private administration, marketing, research, health and welfare services, youth services, law enforcement, corrections services, community organizations, and education. The MA in Sociology can also serve as preparation for entry into PhD programs and further professional training.

A limited number of assistantships are available to graduate students. Additional information is available upon written or e-mail request to the chair or graduate program director of the Department of Sociology.

The MA in Sociology may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

• Sociology + Global Health Certificate
• Sociology + Public Health Certificate
• Sociology + Social Research Certificate
• Sociology + Women's and Gender Studies Certificate

### Learning Outcomes

Students will be able to:

• Describe theories and concepts of the field and recognize their role in empirical research.
• Apply understanding of terminology, research strategies, and qualitative and quantitative data production and analysis techniques to read critically research in the discipline.
• Plan a research project, develop it through research activities, and produce a finished report in writing or another appropriate medium such as film or photo-documentation.
• Identify ethical issues associated with human subjects/participant protection.
• Understand the urban setting as a key context for modern social processes at the local, national, and global level.

</tbody>
</table>

Select seven Sociology electives: 28
Students entering the program with proficiency in statistics may take a placement test to determine eligibility to waive out of the SOC 402 requirement.

Students receiving more than two incompletes will not be allowed to register for courses until the incompletes are resolved.

**The Final Writing Project**

Students will design and complete a final writing project, and SOC 414 is a required course designed to help students develop their final writing project. Students can choose to complete a thesis, research project, literature review, or case study as their final writing project. The core courses in theory, methods, and data analysis aim to build students’ critical thinking and methodological skills to complete their final writing project.

**Master of Arts in Sociology with Thesis**

The design for the thesis project may be developed in SOC 411 and SOC 412 or SOC 413. A student selects a faculty mentor and together they set up a committee with two additional faculty members. A thesis proposal hearing is required at the start of the project and an oral presentation at its completion. Those students desiring to complete the Thesis Option are required to take SOC 500.

**Master of Arts in Sociology with Research Project**

Students design and carry out a research project and prepare a final research report. The student selects a faculty mentor and a second reader. This project can be based on research begun in SOC 412, SOC 413, or a substantive course. Those students desiring to complete the Research Project are required to take SOC 414.

**Master of Arts in Sociology with Literature Review or Analytical Essay**

The student prepares a literature review or analytical essay indicating mastery of a body of literature. It is often started in conjunction with one of the specialized courses. The student selects a faculty mentor and a second reader. Those students desiring to complete the Literature Review take SOC 414.

**Master of Arts in Sociology with Organizational Case Study**

The student will prepare a comprehensive case study that analyzes an organization that they will select. Students will use scholarly literature and other reading materials to inform the organizational theory upon which their analysis will be based. The student selects a faculty mentor and a second faculty member who has some familiarity with the sector in which the organization is located. Those students desiring to complete the Organizational Case Study are required to take SOC 414.

**Sociology (Minor)**

The Sociology minor is designed to provide you with the critical thinking skills needed to effectively observe people in social groups and institutions. The program offers an overview of sociological research and theory.

<td>SOCIAL PROBLEMS</td>
<td></td>
</tr>
</tbody>
</table>

Select four courses from the 200/300-level SOC course offerings

Courses in theory, research methods, and statistics are recommended, but not required.

Students are now able to complete the Sociology minor in an online/hybrid format. Online/hybrid courses currently include SOC 101, SOC 205, SOC 207, SOC 235, and SOC 245. Additional online classes are being developed.

Students majoring in Sociology are restricted from earning this minor.

**Software Engineering (Minor)**

The Software Engineering Minor exposes students to the fundamental tools and processes of software engineering. All courses in the minor have CSC 301 as a prerequisite.

</table>

Note: This minor is open only to students that have passed CSC 301.

**Software Engineering (MS)**

The MS in Software Engineering provides students with marketable skills in methodologies, techniques, and tools of software engineering. The program encompasses the entire life-cycle of software development including requirements, analysis, design, construction, testing, and project management. Emphasis is placed on current and emerging technologies for engineering large and complex distributed software systems. According to the US Bureau of Labor Statistics, software engineering has been among the fastest growing IT professions in the US.
Concentrations

Software Development Concentration
This concentration addresses the foundations, methodologies, and tools for developing high quality large-scale software systems, with an emphasis on the technical issues of software development.

Software Architecture Concentration
This concentration addresses the management and design of large-scale software systems.

Real-Time Game Systems Concentration
This concentration addresses the foundations, methodologies, and tools for developing large-scale computer games and entertainment software systems.

Entrepreneurship and Technology Leadership Concentration
In the current IT environment, software development projects are increasingly treated as business propositions in which the product under development must deliver real and measurable value to the organization. As such, Software Engineers often need increasingly sophisticated knowledge of the business environment in order to advance in their careers beyond the purely technical track. This concentration will bridge the areas of software engineering and business, by equipping students to understand the financial, marketing, management, and entrepreneurial context in which most software development projects are executed.

The concentration will include course offerings from both CDM and Kellstadt Graduate School of Business. It offers the Software Engineering students the opportunities of immersing themselves in a classroom setting in which the focus is purely business oriented, as opposed to technology oriented. This concentration aims to prepare Software Engineering students for career paths in software technology focused entrepreneurship or senior technology leadership positions (CIO’s, CTO’s) in businesses.

</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Correctly create a model of the structure and behavior of a software system.
- Design and implement, in a programming language, an executable solution to a given problem using common software principles and best practices.
- Apply appropriate software testing techniques and evaluate the quality of a software product at module, integration, and system granularity levels.
- Select and adapt suitable elements from among conventional and evolving software development life-cycle processes and apply the resulting process to a software project.
- Collaborate in teams to develop a significantly sized software system from conceptualization to completion.
- Communicate effectively design and development decisions through written and graphical demonstration.

Degree Requirements

Course Requirements
No Introductory Course may be substituted for any other course at any level.

Introductory, Foundation, Advanced, and Elective course selections are determined by the concentration chosen.

Introductory Courses
Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has the appropriate course work to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Degree Requirements
Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Entrepreneurship and Technology Leadership Concentration, Software Engineering (MS) (p. 949)
- Real-Time Game Systems, Software Engineering (MS) (p. 950)
- Software Architecture Concentration, Software Engineering (MS) (p. 951)
- Software Development Concentration, Software Engineering (MS) (p. 953)
## Entrepreneurship and Technology Leadership Concentration, Software Engineering (MS)

</thead>
<tbody>
<tr>
<td>MGT 500</td>
<td>LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS</td>
<td></td>
<td>4</td>
</tr>
<tr>
<td>MGT 570</td>
<td>ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT</td>
<td></td>
<td>4</td>
</tr>
</tbody>
</table>

#### Major Elective Courses

Students must take 16 Credit Hours of courses from the list of CDM electives below and eight (8) Credit Hours of courses from the list of Kellstadt courses listed below.

#### CDM Electives

Students may select any SE elective or the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSC 453</td>
<td>DATABASE TECHNOLOGIES</td>
<td></td>
<td></td>
</tr>
<tr>
<td>HCI 440</td>
<td>INTRODUCTION TO USER-CENTERED DESIGN</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The following courses are recommended:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SE 433</td>
<td>SOFTWARE TESTING AND QUALITY ASSURANCE</td>
<td></td>
<td></td>
</tr>
<tr>
<td>SE 452</td>
<td>OBJECT-ORIENTED ENTERPRISE COMPUTING</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The Master’s Project or Thesis must represent an original contribution to the area, and may include system development, empirical studies, or theoretical work. The scope and the details of the research project will be determined by the research supervisor, and must be approved by the student’s academic advisor.

Students also have an option of pursuing a Master’s Research Project to fulfill their CDM elective requirements.

#### Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter</th>

#### CDM Open Elective Courses

Students must complete four (4) credit hours of CDM Open Electives. Any CSEC, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or NET course in the 421-699 range qualifies. Credit for courses taken outside of the school will only be given if approved by a faculty advisor.

#### Capstone

Students must complete the following course.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SE 491</td>
<td>SOFTWARE ENGINEERING STUDIO</td>
<td></td>
<td>4</td>
</tr>
</tbody>
</table>

#### Studio Sequence Substitution Policy

Software Engineering (SE) Studio is a requirement for MS SE students. It can only be substituted for students who have had industrial experience in team software development projects. For those students with
sufficient experience, they must complete a MS Project or Thesis in lieu of SE Studio.

Substitution of SE Studio must be approved in advance. Student should seek such approval no later than the second quarter after starting the Foundation phase of the program. The request for substitution should be submitted to Software Engineering Program Committee (SE-PC) and the decision will be made by the SE-PC in consultation with the student’s advisor.

Each applicant should provide supporting materials of his/her experience in software development, including resume, and letter(s) from the project manager describing the applicant’s role in the projects.

All approvals of substitution will be contingent upon the applicant’s completion of a MS Project or Thesis for eight (8) credit hours. Any deviation from that must be approved by the SE-PC as well.

# Software Engineering Research

Select one of the following: 8

- SE 695  MASTER'S RESEARCH
- SE 696  and MASTER'S PROJECT
- SE 695  and MASTER'S THESIS
- SE 698  and MASTER'S THESIS

The Master's Project or Thesis must represent an original contribution to the area, and may include system development, empirical studies, or theoretical work. The scope and the details of the research project will be determined by the research supervisor, and must be approved by the student's academic advisor.

# CDM Open Elective Courses

Students must complete four (4) Credit Hours of CDM Open Electives. Any CSEC, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or NET course in the 421-699 range qualifies. Credit for courses taken outside of the school will only be given if approved by a faculty advisor.

SE 491 | SOFTWARE ENGINEERING STUDIO | 4

Sound Design (BFA)

The Theatre School's Bachelor of Fine Arts (BFA) degree in Sound Design trains students to be successful sound designers and engineers in all levels of the theatre and entertainment industries. Sound design students learn techniques for sound editing, recording and composition using the hardware and software that are the standard tools of the industry. Students collaborate with directors, other designers and our professional production staff to get practical experience designing and rigging sound as part of our production program.

Program Requirements | Quarter Hours
Liberal Studies Requirements | 52
Major Requirements | 151
Total hours required | 203

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

- Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept.
- Demonstrate an understanding of the history of music in the context of social and cultural development.
- Demonstrate and apply an expertise in audio technology in a variety of performance styles and theatrical environments.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Domains

Arts and Literature (AL) (p. 1174)

- THE 204
- THE 205
- THE 206

Historical Inquiry (HI) (p. 1178)

- 1 Course Required

- Not Required
Philosophical Inquiry (PI) (p. 1180)
- 1 Course Required

Religious Dimensions (RD) (p. 1181)
- 1 Course Required

Scientific Inquiry (SI) (p. 1183)
- 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- Not Required

Other (p. 1174)
- Choose 1 course from the above learning domains as an elective

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Sound Recording Technology (BS)

The Bachelor of Science degree with an emphasis in Sound Recording Technology (SRT) prepares students for careers in the audio industry. The SRT program includes coursework in classical and popular recording, music production, surround sound audio for film and multimedia, as well as physics, electronics and mathematics. The faculty is comprised of experienced recording engineers, dedicated to teaching excellence. Drawing upon the resources of the city, students have the opportunity to work and study at Chicago area recording studios and live performance venues.

Learning Outcomes

Core Outcomes

Students will be able to:

- Perform solo and ensemble works with appropriate techniques and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Program Specific Outcomes

Students will be able to:

- Possess a thorough knowledge of the physics of sound and acoustics and a thorough understanding of microphones and microphone techniques.
- Possess a thorough knowledge of analog and digital equipment and be able to creatively use that knowledge to produce and market music.
- Possess a fundamental knowledge of digital electronics and the ability to operate contemporary audio and video recording, editing and processing software.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

Musicianship (42 Credits)

--- | --- | ---
MUS 303 | BASIC CONDUCTING PRACTICUM | 0
MUS 304 | BASIC CONDUCTING | 4
MUS 320 | INTRODUCTION TO WORLD MUSIC | 2
MUS 321 | INTRODUCTION TO JAZZ HISTORY | 2
MUS 322 | ADVANCED MUSICIANSHIP | 2

3 Students in the BM-Jazz Studies program are not required to take MUS 321 or MUS 322.

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program’s requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Course | Title | Hours

Not Required

1 Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1174)
- 2 Courses Required

Historical Inquiry (HI) (p. 1178)
- 1 Course Required

- Not Required

Philosophical Inquiry (PI) (p. 1180)
- 1 Course Required

Religious Dimensions (RD) (p. 1181)
- 1 Course Required

Scientific Inquiry (SI) (p. 1183)
- Not Required
(Note: Included in specialization)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- 1 Course Required

Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Program Checkpoints

Students are admitted to a specialization at their initial enrollment. Students are then allowed to continue in specialization courses on the basis of program checkpoints. The program checkpoints differ for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to continue to enroll in specialization classes if they have not met the requirements of their program checkpoint.

### Spanish (BA)

In DePaul's Spanish program, students will study Spanish language, literature and culture. Spanish is one of the most widely spoken languages in the world and one of the official languages of the United Nations and the European Union. Because Spanish is becoming more widely used in the United States, having the ability to speak and understand the Spanish language will provide students with many professional opportunities.

Courses in the Spanish major cover a variety of topics, including:

- Business
- Cinema
- Culture
- Language
- Linguistics
- Literature
- Translation

As Spanish majors, students are encouraged to participate in one of DePaul's Study Abroad programs in order to grow linguistically and expand their cultural understanding of Spanish-speaking societies. DePaul sponsors programs in Argentina, Chile, Mexico, Peru, Puerto Rico and Spain.

Chicago is a diverse city that—through its festivals, neighborhoods, restaurants, museums, and other cultural institutions—provides students with many opportunities to practice their Spanish and explore the cultures of the Spanish-speaking world.

### Non-Performance Track, Sound Recording Technology (BS)

Learning Outcomes
Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to: engage in conversations, interpret and create a variety of written texts, provide and obtain information, express feelings and emotions, exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.

College Core Requirements
Study in the Major Field
The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration
All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)
All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be
obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tbody>
</table>

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

**Learning Domains**

**Arts and Literature (AL) (p. 1174)**
- 1 Course Required

**Historical Inquiry (HI) (p. 1178)**
- 2 Courses Required

**Religious Dimensions (RD) (p. 1181)**
- 2 Courses Required

**Scientific Inquiry (SI) (p. 1183)**
- 2 Courses Required
  - [1 Lab Course and 1 SWK Course]

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)**
- 3 Courses Required

**Notes**

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

### Spanish 3+3 (BA+JD)

In the 3 + 3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

### Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
• Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
• If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements
In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program. In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 603).

Financial Aid
BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Learning Outcomes
Students will be able to:

• Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
• Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
• Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
• Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
• Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
• Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Degree Requirements

Course Requirements
The curriculum of the MA in Spanish will consist of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of three courses (12 quarter credit hours) required of all students, and
2. Nine courses (36 quarter credit hours) in the language area. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes SPN).
   In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management,
philosophy, political science, religion, sociology, etc.) among the nine “language area” courses in the student’s program.

Core Curriculum
The core curriculum consists of the following three courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>

</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, all three-hundred level language courses are offered simultaneously as 400-level electives to complete the MA program. These 400-level courses carry different requirements than the lower-level courses.

Additional Requirements
Additional requirements include:

- Portfolio

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program and a capstone project. Capstone projects may include a community service experience, internship, performance or creative work, teaching portfolio, thesis, or translation.

Thesis Option
A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework.

Graduation Grade Point Average Requirement
In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Student Handbook
Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission
In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “Intermediate High” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit
Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply “transfer” credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction
Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

Spanish (MA), Combined Bachelor’s + Master’s Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Spanish (MA)
Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of “Intermediate High”) rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability. The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48 quarter hour credits of coursework. This coursework consists of:

1. 12-quarter hour credits of required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

2. 36-quarter hour credits of elective coursework, specifically relevant to each individual student’s professional interests and language, and chosen in consultation with the student’s faculty advisor.

The required courses (MOL 401, MOL 402, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on individual interests, a student may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.
Spanish (Minor)

DePaul's minor in Spanish offers a basic proficiency in writing, reading and speaking Spanish.

The minor consists of a total of 5 courses in Spanish language at the 200/300-level. Courses taught in English will not be counted toward this minor unless Program Director permission is secured.

Students majoring in Spanish (BA) or minoring in Commercial Spanish are restricted from earning this minor.

Spanish Linguistics (Minor)

Course Requirements

The Spanish Linguistics minor introduces students to the formal study of Spanish Phonetics, Phonology, Morphology, Syntax, Sociolinguistics and Spanish in the U.S.

Students seeking to complete a minor in Spanish Linguistics must complete 24 quarter-hour credits of coursework, or 6 courses, distributed as follows:

<table>
<thead>
<tr>
<th>Course</th>

</tr>
</tbody>
</table>

Depending on their level of prior expertise with Spanish, students may need to complete courses at the Basic and Intermediate levels before enrolling in 200 or 300-level language courses.

Students majoring in Spanish (BA) or minoring in Spanish or Commercial Spanish are restricted from earning this minor.

Spanish Translation (Minor)

Required Courses

- 4 credits of an advanced language level course (SPN 201 or SPN 202 / SPN 205 or SPN 206 for Heritage Language Learners).
- 8 credits of required courses (SPN 243 and SPN 325) to further develop proficiency in the language and methods of translation from Spanish to English and from English to Spanish.
- 12 credits of advanced elective coursework in related courses (choose three from the following):

<table>
<thead>
<tr>

<tr>
<td></td>
<td>SPN 397 SPECIAL TOPICS IN SPANISH</td>
<td></td>
</tr>
</tbody>
</table>

Depending on their level of prior expertise with Spanish, students may need to complete courses at the Basic and Intermediate levels before enrolling in 200- or 300-level language courses.

Students majoring in Spanish (BA) or minoring in Spanish, Spanish Linguistics, or Commercial Spanish are restricted from earning this minor.

Translation Software

In our translation courses, students work with Google Translator Toolkit, Memsource, and SDL Trados Studio as learning computer-assisted tools in their translation practice.

Google Translator Toolkit is web-based, computer-aided translation (CAT) software that is provided free by Google. It allows translators to revise machine translation performed by Google translate (https://translate.google.com/), store translated documents in an online account, and collaboratively translate documents.

Memsource. We are using Memsource (https://www.memsource.com/) in our translation courses free of charge. Memsource Cloud is a complete
transformation platform that includes translation memory, integrated machine and human translation, terminology management, and a both online and desktop CAT tool.

**SDL Trados Studio** is a computer translation software that offers highly sophisticated features to help translators complete projects quickly and easily. Translation memory (TM) is at the heart of SDL Trados Studio ([https://sdltrados.com](https://sdltrados.com)) and works by recycling previously translated content and completing translations projects more quickly while maintaining high quality.

### Special Education (BS)

The Bachelor of Science in Special Education will prepare you to teach students with exceptionalities in kindergarten through 12th grade in a variety of urban and suburban educational settings, including public and private schools.

By completing the Special Education program, you will be eligible for the Illinois Learning and Behavior Specialist I (LBSI) license, provided you complete additional state requirements.

As a Special Education major, you will learn to:

- Apply specific strategies needed to teach exceptional learners
- Consult and co-teach in general education inclusion classrooms
- Modify content for exceptional learners in reading, math, natural and social sciences
- Teach small groups of exceptional students in a resource room
- Teach students with more significant disabilities in a self-contained classroom

Courses in the Special Education curriculum will prepare you to do the following:

- Assess exceptional learners
- Implement classroom and behavior management
- Collaborate with parents and professionals
- Understand how exceptional students learn
- Teach reading, math and the natural and social sciences
- Differentiate instruction
- Teach students with significant disabilities
- Develop transitional and vocational plans

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130 hours of field experience. Students should expect to spend 40 hours of evening field hours in the Education and Counseling Center, and 90 hours of daytime field experience in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 16 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

### Licensure

This program leads to Illinois licensure in special education (Learning and Behavior Specialist I)

<table>

<tr>
<td>Total hours required</td>
<td>192</td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Recognize how exceptionalities interact with development; apply foundational knowledge inform special education practice, including planning, instruction, and assessment of students with disabilities.
- Understand the connection between learning environment, social-emotional development, and student behavior; create safe, inclusive, culturally responsive learning environments; manage behavior effectively, utilizing proactive management techniques.
- Apply understanding of curricula to design learning for individuals with exceptionalities; choose, modify, and utilize research-based instructional strategies based on learner needs.
- Utilize multiple methods of assessment and data sources in making educational decisions, developing IEPs, and planning instruction; collaborate with other school-based professionals and families to serve student needs; integrate multiple sources of information to inform planning and instruction.

### College Core Requirements

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Reflects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural
experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.
Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request. All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tr>
</tbody>
</table>

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3. This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

**Arts and Literature (AL)** (p. 1174)
- 2 Courses Required

**Historical Inquiry (HI)** (p. 1178)
- 2 Courses Required
  (Note: One must be US History.)

**Math and Computing (MC)** (https://catalog.depaul.edu/undergraduate-core/liberal-studies-program/liberal-studies-learning-domains/math-and-computing/)
- 2 Courses Required
  (1 CR Course and 1 SR Course)

**Philosophical Inquiry (PI)** (p. 1180)
- 2 Courses Required
  - LSE 380
    - 1 Additional Course
  (Note: PHL 100 recommended)

**Religious Dimensions (RD)** (p. 1181)
- 1 Course Required

**Scientific Inquiry (SI)** (p. 1183)
- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1185)
- 3 Courses Required
  - PSC 120
  - 2 Additional Courses

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.
In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

</table>

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Special Education majors must complete the following tests:

- Learning Behavior Specialist (#155) - assesses knowledge of working with students with disabilities and special needs. Test is required before Student Teaching (deadlines apply).
- General Curriculum for Special Education Teachers- (#163) - assesses knowledge of reading & literacy, mathematics, natural science, and social science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Special Education (MEd)**

The Master of Education in Special Education will prepare you to teach students with exceptionalities in kindergarten through 12th grade in a variety of urban and suburban educational settings, including public and private schools. By completing the Special Education program, you will be eligible for the Illinois Learning and Behavior Specialist I (LBS1) license, provided you complete additional state requirements.

The program contains three concentrations:

1. Pre-service Special Education (PSE) for candidates seeking an initial Illinois licensure.
2. Special Education for Teachers (SET) for candidates who already hold a current and valid Illinois Professional Educator License (PEL).

3. Special and Elementary Education (SEE) for candidates seeking an initial Illinois licensure with endorsements in special education and elementary.

The PSE concentration has two tracks, a 6-quarter general program and a one-year residency program. The residency track is offered in collaboration with the Academy for Urban School Leadership (AUSL). Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

**Licenses**

Pre-service Special Education (PSE) candidates are eligible for Illinois licensure with an LBS1 endorsement (preK-age 21) upon completion of the master's program, and any additional Illinois State Board of Education requirements (e.g., licensure tests, edTPA, etc.).

Special Education for Teachers (SET) candidates pursuing a master’s are eligible for an LBS1 endorsement (preK-age 21) upon completion of the program and any additional Illinois State Board of Education requirements (e.g., licensure tests). Endorsement-only options (without a master’s degree) for either preK-age 21 or for the grade band of the initial PEL are also available. Note: Courses in the SET concentration are designed for practicing educators and are not open to students seeking an initial Illinois teaching license.

Special and Elementary Education (SEE) candidates are eligible for Illinois licensure with an LBS1 endorsement (preK-age 21) and an Elementary Education Endorsement (1-6).

Requirements are subject to change per the discretion of ISBE.

Students will be able to:

- Understand how exceptionalities may interact with development.
- Use foundational knowledge of the field and their professional ethical principles and practice standards to inform special education practice, to engage in lifelong learning, and to advance the profession.
- Create safe, inclusive, culturally responsive learning environments.
- Use knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities.
- Select, adapt, and use a repertoire of evidence-based instructional strategies to advance learning of individuals with exceptionalities.
- Use multiple methods of assessment and data sources in making educational decisions.

**College Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.
Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferment and graduation can be found on the College of Education website.

**Degree Requirements**

Concentrations are available in Pre-service Special Education (PSE), Special and Elementary Education (SEE), and Special Education for Teachers (SET).

Specific degree requirements are determined according to the Concentration chosen by the student. Please review the concentration requirements pages for more information.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Pre-Service Special Education Concentration, Special Education (MEd) (p. 972)
- Special and Elementary Education Concentration, Special Education (MEd) (p. 973)
- Special Education for Teachers Concentration, Special Education (MEd) (p. 974)

**Pre-Service Special Education Concentration, Special Education (MEd)**

**Content Area Prerequisites**

A transcript evaluation will be completed upon admission to the program. If deficiencies exist, they must be completed prior to student teaching.

- College coursework in Writing
- College coursework in Fine Arts or Literature
- College coursework in Mathematics
- College coursework in Science
- College coursework in American Government or U.S. History
- College coursework in Social Science

**Course Requirements**

Courses requirements: 48 quarter hours required, grade of C or better required.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**

- Completion of all Content Area Prerequisites, and all courses requirements
- Overall cumulative GPA of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area tests (see below)

**Clinical Requirements**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education.
- Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.

Academic requirements (above) due one quarter before expected quarter of student teaching.

Clinical requirements (above) are completed as course requirements.
Individual school districts may have additional requirements (application, training, background check, etc.)

**Student Teaching: 10 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Requirements are subject to change per the discretion of ISBE.

Special Education students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs. Test is required before Student Teaching (deadlines apply).
- Special Education General Curriculum Test (test #163) – assesses knowledge of reading & literacy, mathematics, natural science, and social science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Special and Elementary Education Concentration, Special Education (MEd)**

**Content Area Prerequisites**

A transcript evaluation will be completed upon admission to the program. If deficiencies exist, they must be completed prior to student teaching. Students in the Special & Elementary Education (SEE) program must complete general education content area coursework in the following ten areas:

- Physical Education or Health
- Fine Arts or Literature
- Mathematics
- 3 Science courses, one completed in each of the following areas:
  - Physical Science
  - Life Science
  - Earth/Space

- 4 Social Science courses, one completed in at least 4 of the following areas:
  - History
  - Political Science
  - Economics
  - Psychology
  - Sociology
  - Anthropology
  - Geography

</tr>
</tbody>
</table>

The program requires two summer practicum experiences. Each practicum involves six full weeks of intensive supervised field experience in a cooperating school that operates an extended school year program. Candidates must apply for each practicum, and upon approval they are placed in appropriate summer practicum sites by the program. Practicum sites may also screen candidates prior to accepting them for placement. Candidates will assume full teaching responsibility and will have weekly opportunities for feedback and discussion of issues and problems encountered. A grade of B+ or better is required to participate in each summer practicum.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Requirements are subject to change per the discretion of ISBE.

Special Education Master’s students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs.
- Special Education General Curriculum Test (test #163) – assesses knowledge of reading & literacy, mathematics, natural science, and social science.

Candidates who are conditionally admitted with an out-of-state (OOS) teaching license they required to transfer their license into Illinois, and therefore may also be required to take additional licensure tests. Students should work directly with ISBE to fulfill outstanding test requirements. These additional licensure tests may include the following:

- EdTPA – an electronic portfolio that includes video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Usually completed during pre-service student teaching experience.

Special Education (Minor)

The Special Education Minor will prepare general educators to work with a variety of learners with disabilities in their classrooms. If desired, upon completion of the minor candidates will be eligible to take the Learning-Behavior Specialist Test (#155) to earn the special education endorsement on their primary license. This will enable candidates to teach in general or special education classrooms within their licensure range. Beyond increasing candidates’ foundational knowledge and repertoire of teaching skills, adding an endorsement to primary licensure will enhance versatility in the job market.

The movement toward inclusive practices in schools requires educators to be prepared to work with individuals with disabilities in their classrooms. According to the National Center for Education Statistics (2015), in 2011 95% of students with disabilities were served in regular schools, with 61% spending 80% or more of their time inside the general education classroom. It is therefore beneficial for general education candidates to learn techniques, methods, and strategies to assist students with disabilities in their classrooms.

Course Requirements

The Special Education Minor requires 26 credit hours (7 courses). This includes 4 core courses plus one course from each of 3 areas as seen below.

Minor in Special Education with LSB1 Endorsement

This option is only available to undergraduates in the College of Education pursuing ISBE licensure.
The minor with endorsement requires the 7 courses above, plus a passing score on the ISBE Learning-Behavior Specialist Test (#155).

Note: Students in DePaul's College of Education program in Special Education cannot select the Special Education Minor.

Special Education Certificate

The four-course online Certificate in Exceptionality will provide a foundation in Special Education to those interested to expand their understanding of various types of disabilities and ways to address the needs of those students. Practitioners across the US, and around the world, will be able to identify characteristics of students with disabilities, ways to collect and analyze assessment data, as well as utilize this information in order to make instructional planning decisions. By successfully completing this certificate program, candidates will have a firm understanding of ways to accommodate children with high-incidence disabilities and make modifications for children with low-incidence disabilities. Educators can directly apply knowledge and skills to their classrooms.

Depending on licensure and endorsement requirements in different states, teachers already licensed in general education could use this course sequence to pursue an additional endorsement in special education. Some teachers may also use the coursework to advance their pay scale. Similarly, practitioners outside the US will have the opportunity to gain knowledge and skills, and apply current, best practices to international classrooms, and use this certificate to advance their career.

The curriculum for the Online Certificate in Exceptionality consists of four online courses.

Speech Language Pathology (MS)

The Master of Science degree in Speech Language Pathology (MS-SLP) at DePaul University is a comprehensive program that offers a balanced, three-part curriculum to prepare future Speech Language Pathologists (SLPs) to work with both children and adults across the full range of communication disorders. Course elements are designed to imbue students with the knowledge base pertinent to the field, while simultaneously fostering the critical thinking, problem solving, and self-confidence that contributes to effective independent clinical practice. Further, students will develop empathy and compassion, the hallmark traits of a master clinician. The curriculum includes both didactic and clinical requirements for graduation. A total of 102 quarter hours is required for the MS-SLP degree (106 quarter credits with the optional thesis). The three curricular parts are described below:

Academic Curriculum: The academic curriculum includes basic science and research coursework, in addition to courses that focus on specific communication disorders. The American Speech-Language-Hearing Association (ASHA) has established a minimum of knowledge and skills required for the Certificate of Clinical Competence (ASHA Certification Standards, 2020). Specific academic coursework is required that addresses the following:

- the discipline of communication sciences and disorders;
- basic human communication and swallowing processes, including the appropriate biological, neurological, acoustic, psychological, developmental, and linguistic and cultural bases;
- the ability to integrate information pertaining to normal and abnormal human development across the life span;
- etiology and characteristics of various communication and swallowing disorders, identification procedures, and treatment approaches;
- knowledge of the nature of speech, language, hearing, and communication disorders and differences, and swallowing disorders, including the etiologies, characteristics, anatomical/physiological, acoustic, psychological, developmental, and linguistic and cultural correlates.

Students must demonstrate specific knowledge in the following areas: speech sound production; fluency; voice, resonance, and motor speech; receptive and expressive language; social aspects of communication, including pragmatics; communication impairments related to cognition; augmentative and alternative communication; hearing and aural rehabilitation; swallowing and feeding.

Research Curriculum: Students will learn about basic research methods within the discipline, will explore the evidence base of speech-language pathology and related professions, and will apply knowledge gained to clinical practices by completing a comprehensive literature review. Students can also elect to complete research that culminates in a master's thesis. A thesis will require an additional 4 credits for a total of 106 credits required for graduation.

Clinical Curriculum: According to the ASHA certification standards (2020), students must complete at least 400 hours of supervised clinical experience with individuals who present a variety of communication disorders across the age range and from culturally and linguistically diverse backgrounds. Students will engage in 4 quarters of clinical practica at the DePaul University Clinic. The clinic will accept clients from the community ranging in age from young children through adults and with a variety of communication and swallowing disorders to provide our SLP students with a breadth of clinical experiences. In addition, each student will complete two advanced practica of at least 10 weeks duration. These will involve full-time work in an educational facility, hospital or clinic.

Learning Outcomes

Students will be able to:

- Design appropriate evaluations for a variety of speech and language clients and disorders.
- Create intervention plans with measurable and achievable goals to meet speech and language clients’ needs.
• Use evidence-based treatment strategies to support clinical decision making.
• Evaluate speech and language clients’ progress to determine treatment outcomes.

Admissions Procedures and Requirements

Professionals in speech-language pathology begin the licensing and certification process by obtaining a Master’s degree in the discipline. DePaul University offers this degree as a Master of Science degree in Speech Language Pathology (M.S. SLP). Prospective graduate program applicants are required to hold a bachelor’s degree in speech language pathology or the equivalent. Students with backgrounds including communication sciences and disorders, education, health-related professions, biomedical sciences, and psychology are encouraged to apply. The following are graduate admission requirements for DePaul University Speech Language Pathology (SLP) Program:

- Completion of a baccalaureate degree from a regionally-accredited institution in either
  - Communication Sciences and Disorders (CSD), including the courses listed below, or
  - An area other than CSD, with completion of the prerequisite coursework listed below (see below). A minimum GPA of 3.0 on a 4.0 scale in the undergraduate major is required.
- Three (3) letters of recommendation who can comment on the academic, clinical, and professional experiences of the applicant.
- A completed Communication Science and Disorders Centralized Application Service (CSDCAS) application, including academic history, personal essays, and extracurricular/volunteer experience. Once a student’s file is complete and reviewed by CSDCAS, the SLP program Admissions Committee will review it to ensure that all prerequisite courses have been completed.
- Official transcripts from every college or university attended (mailed to CSDCAS). If currently attending college, most recently completed quarter grades must be included.
- An interview with faculty (by invitation only).
- Commitment to abide by the DePaul University Drug-Free Workplace and Substance Abuse Policy.
- Passage of the DePaul University criminal background check.
- Proof of CPR certification through completion of a healthcare provider course certified by the American Heart Association.

Prerequisites for Admission:

Students will be required to complete the following prerequisites (see below) to be considered into the Speech-Language Pathology program.
**Speech Language Pathology Courses:** The following undergraduate or leveling courses must be completed prior to starting the graduate program.

- Anatomy and Physiology of the Speech & Hearing Mechanism
- Introduction to Audiology
- Introduction to Communication Sciences and Disorders
- Normal Child Language Development
- Phonetics
- Speech Science
- Speech Sound Disorders (Articulation and Phonology)

**Observation Hours:** Each student must have 25 clock hours of authorized observation signed by a licensed speech-language pathologist who holds the Certificate of Clinical Competence (CCC) in Speech-Language Pathology from the American Speech-Language-Hearing Association (ASHA). The following form may be used to document observation hours: DePaul_SLP_Observation_Hours_Form_F21_.pdf

**Additional Course Requirements:** (per the American Speech-Language-Hearing Association Standard IV-A)

- One course in the biological sciences (human or animal biology, such as biology, human anatomy and physiology, neuroanatomy and neurophysiology, human genetics, or veterinary science)
- One course in the physical sciences (physics or chemistry)
- One course in social/behavioral sciences (psychology, sociology, anthropology, or public health)
- A statistics course (a stand-alone course)

**Strongly Recommended Courses:**

- Aural Rehabilitation (required for ASHA certification)
- Methods of Teaching Learners with Exceptionalities (required for an Illinois Professional Educator’s License)

Please note that simply meeting these criteria is not a guarantee of admission. As is the case with most graduate programs in speech-language pathology, admission is highly competitive.

**Transfer Credit**

No graduate courses may be transferred from another institution for this degree.

**Conditional Admissions**

Students whose undergraduate degrees were in majors other than Communication Science Disorders, Speech Language Pathology or related fields may be conditionally admitted provided they complete all the required prerequisites prior to the start of the academic quarter.

**Readmission**

The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

**Undergraduate Courses**

No undergraduate courses shall count toward the graduate degree.

---

**Standards**

The M.S. SLP prepares students for entry into the profession of speech-language pathology. This assertion is based on the program’s adherence to Council of Academic Accreditation (CAA) standards which outline a comprehensive list of knowledge and skills for successful clinical practice. The Knowledge and Skills Acquisition (KASA) is the Program’s roadmap with respect to development of experiences for each individual student. The Department standards for graduate student performance are in keeping with College standards for graduate education.

**CAA Standards (2020):** https://www.asha.org/Certification/2020-SLP-Certification-Standards/

**Clinical Education / Practicum:** Detail regarding policies governing the process of clinical education may be found in the DePaul University SLP Program Clinic Handbook. Students will complete at least 400 hours of supervised clinical experiences. Students will engage in four quarters of clinical practicum at the DePaul Speech and Language Clinic on the Lincoln Park Campus and two quarters of externship placements. The speech-language pathology students gain an in-depth and broad scope of clinical experiences working with clients from the community ranging in age from toddlers through adults with a variety of communication and swallowing disorders. In the first year, students must have successfully completed 25 documented clinical observation hours before being placed in a clinical practicum (SLP 481) at the DePaul Speech and Language Clinic. In the second year, students must have successfully completed a minimum of 150 hours of supervised clinical practice in the DePaul Speech and Language Clinic to qualify for a school (SLP 485) or medical site (SLP 486) practicum experience.

**Student Assessment of Knowledge and Skills:** Each course offering in the curriculum has been designed to provide students with knowledge and skills requisite for functioning as a speech-language pathologist. The knowledge and skills are aligned with learning outcome statements. These statements are found in each course syllabus, including those for clinical practicum. Outcomes are consistent with and follow the numbering of the ASHA 2020 Standards for the Certificate of Clinical Competence in Speech-Language Pathology.

The ASHA Standards Assessment Form is completed for each student in each class or clinical experience every quarter by rating performance as either “met,” “emerging” or “remediate”.

- **Met:** Student has demonstrated knowledge in this standard that is commensurate with expectations for speech-language pathologists who will be beginning their Clinical Fellowship. Clinical skills will be considered “met” if they are appropriate for a given student’s clinical experience level.
- **In Progress:** Student has demonstrated progress towards the objective, but not enough to meet it. Ratings of emerging do not count positively towards the completion of an ASHA standard.
- **In Remediation:** Student has not demonstrated satisfactory progress towards the objective. This rating indicates “not passing”. Any student on track to receive a “remediate” rating should meet with the instructor responsible for the content (academic or clinical) to discuss the development of a remediation plan. Instructors are encouraged to recommend remediation as soon as problems arise during the quarter, to avoid the need for plans that extend beyond the
If an intervention plan is necessary, the following steps will take place:

- The student, Program Director, and Director of Clinical Education (if applicable) will each sign and receive a copy of the plan. If other faculty or clinical instructors are responsible for any portion of the plan, they will also receive a copy.

In the case of academic needs, the faculty instructor(s) involved in identifying areas of need typically will serve as mentor(s) towards the completion of the plan, unless stated otherwise by the Program Director.

The ASHA Standards Assessment Form will be updated to include a “met” in the appropriate row(s) of a new column entitled “remediation.” Columns indicating that a “remediate” was received are not expunged from the record.

### Academic Probation

A graduate student must maintain a cumulative GPA of 3.00 or greater to remain in good standing. A student failing to maintain a minimum cumulative GPA of 3.0 will be placed on academic probation. If the cumulative GPA is raised to at least 3.00 at the end of the next academic quarter, the student is no longer on probation. If the cumulative GPA has not risen to 3.00 at the end of the next academic quarter, the student will be dismissed from the program.

### Withdrawing from a CORE Course

A student who withdraws from a core speech language pathology course while in good standing cannot progress in the sequenced curriculum until the course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with the Program Director, the Director of Clinical Education and the course faculty. A student who withdraws from a core speech language pathology course who is ‘not in good standing’ (with a grade of C+ or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program. A student who has a grade of C+ or lower at mid-quarter may be placed on contract for an intervention plan by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program. A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

### Leave of Absence

**Requesting a Leave of Absence:** Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Program Director, Director of Clinical Education and the Admission, Progression and Retention Committee should be notified. Depending on circumstances and estimated length of absence, the Program Director
or student's academic advisor may recommend additional action to complete the request process.

Returning from a Leave of Absence: Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Admissions, Progression, and Retention Committee. It is the student's responsibility to send a copy of such request to the Program Director, the student's faculty advisor, and the Director of Clinical Education. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the Speech Language Pathology Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the speech language pathology course sequence. Students will be notified in writing regarding the decision concerning their reentry to the program. e. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the speech language pathology program. Students who become "out of sequence students" due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. "Out of sequence students" cannot displace in-sequence students from a clinical spot.

Time Limit for Leave of Absence: Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their application will then be considered with all other qualified applicants applying for admission to the speech language pathology program.

Time Limitation

The MS degree in Speech Language Pathology is designed to be completed in seven quarters. The maximum time to complete this degree, including up to a 12-month approved leave of absence, is three years from first quarter of enrollment.

Graduation Requirements

A well-balanced, unified, and complete program of study is required, including evidence of successful achievement of both academic and clinical skill development. The program utilizes a cohort model, suggesting that all students move through the curriculum at a similar rate. The M.S. SLP degree in speech-language pathology requires successful completion of a minimum of 102 graduate credits (106 with a masters thesis). Speech-language pathology students are also required to complete a written comprehensive examination. Failure to complete the program requirements will result in forfeiture of degree eligibility unless the program recommends that the student complete a retake. If a retake or an extension is granted, the student must complete it by the end of the following quarter.

Students must earn at least a 3.00 cumulative GPA in SLP graduate coursework as a requirement to be eligible to graduate.

PRAXIS Examination: Speech-language pathology students are required to successfully submit the PRAXIS exam results using the DePaul SLP Program code.

Comprehensive Examinations: Comprehensive exams are a degree requirement for the M.S. SLP and must be completed in the spring quarter prior to graduation. Students will have a maximum of 4 hours to complete the exam. The purpose of thus examination is to evaluate the student's knowledge of concepts, content, procedures and terminology from their graduate studies as well as their ability to apply this knowledge. This examination is designed to be summative in nature and to address the nine knowledge/ skill areas identified by the Council on Academic Accreditation in Audiology and Speech-Language Pathology. This written examination consists of 100 multiple-choice questions that will include items from the nine major ASHA knowledge areas. Preparation for the multiple-choice section should include student review of the Praxis study guide.

Graduation with Distinction

A minimum cumulative GPA of 3.75 in SLP graduate coursework and successful completion of the comprehensive examination is required for graduation with distinction.

Other Program Policies

Religious Observation

A student who is absent from class because of a religious holy day will be provided with the opportunity to make up the work of that class within a reasonable amount of time after the absence. The student will not be penalized for the absence. It is the responsibility of the student to inform their faculty prior to the religious holy day to be observed of their intention to be absent.

DePaul Speech Language Pathology Program Student Code of Ethics

Students must adhere to the ASHA Code of Ethics. Violation of the ASHA Code of Ethics may result in disciplinary action as determined by the DePaul University Speech Language Pathology Program. Students must adhere to the DePaul University Speech Language Pathology Program Professional Behavior Code of Conduct defined as unprofessional behavior towards clients, faculty, staff, peers and public are significant issues in the evaluation and promotion of Speech Language Pathology students. Inappropriate behavior may be grounds for failure to promote, dismissal and/or denial of degree. Separate and apart from a violation of the Professional Behavior Code of Conduct, a student may face University disciplinary action with regard to the same action (see the DePaul Speech Language Pathology Graduate Handbook for details).

The following are professional behavior guidelines and responsibilities that the DePaul University Speech Language Pathology expects of its students:

- Interpersonal Relationships
- Honesty, Integrity and Confidentiality
- Professional Appearance
- Professional Responsibility and Judgment

Sports Communication (BA)

The Bachelor of Arts degree in Sports Communication prepares graduates for careers that merge foundational communication skills with expertise in areas such as sports sales and marketing, public/community/media relations, media production in digital graphics, video editing, and social media analytics and management. The Sports Communication BA provides students a strong academic foundation analyzing the economic and societal impact of the sports industry to prepare them to make positive change in their communities as socially responsible communication professionals. DePaul Sports Communication majors will develop oral, written, and visual communication skills that will enable them to research, design, present, and evaluate messages across diverse contexts and from a
variety of platforms, including social media and digital communication technologies. The combination of communication and business skills offered by the Sports Communication BA prepares students to enter new and emerging career paths in the sports industry.

</tbody>
</table>

**Learning Outcomes**
Students will be able to:

- Apply knowledge and critical thinking about sports in relation to culture, business, ethics, and communication theory to students’ intellectual and professional communication work.
- Engage critically with sports and its relationship to the communication pathways in the community, including formal societal power structures such as the law, government, politics, and private economic interests.
- Generate sports media content using a variety of modes and media in an ethical, meaningful, deliberate, and socially responsible manner in service to their communities.
- Analyze how sports and sports communication influence and are influenced by how people form, maintain, and manage a range of relationships, networks, and organizations.

**Modern Language Requirement (p. 981)**
Modern Language Option (p. 981)
Modern Language Option

All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

**College Core Requirements**
Four core courses are required of all College of Communication students:

- CMN 101 INTRODUCTION TO HUMAN COMMUNICATION 4
- CMN 102 INTRODUCTION TO MASS COMMUNICATION 4
- CMN 103 INTERCULTURAL COMMUNICATION 4
- CMN 104 PUBLIC SPEAKING 4

Students are encouraged to complete all four prior to taking additional coursework in the major.

**Modern Language Requirement**
Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

**Modern Language Option**
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern language option waivers cannot be applied to courses in the Math and Computing Domain or courses in the Scientific Inquiry domain. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

**Liberal Studies Requirements**
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tbody>
</table>

¹ Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120.

The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course.

Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

**Learning Domains**

**Arts and Literature (AL)** (p. 1174)
- 2 Courses Required

**Historical Inquiry (HI)** (p. 1178)
- 2 Courses Required

**Math and Computing (MC)** (https://catalog.depaul.edu/undergraduate-core/liberal-studies-program/liberal-studies-learning-domains/math-and-computing/)
- 2 Courses Required
  - 1 CR Course and 1 SR Course

**Philosophical Inquiry (PI)** (p. 1180)
- 2 Courses Required

**Religious Dimensions (RD)** (p. 1181)
- 2 Courses Required

**Scientific Inquiry (SI)** (p. 1183)
- 2 Courses Required
  - 1 Lab Course and 1 SWK Course

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1185)
- 2 Courses Required

**Note**

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

All Sports Communication majors must complete the major core curriculum consisting of eight classes (32 hours) and a 4 course (16 hour) concentration in Sports Journalism, Sports Promotion and Publicity, or Sports and Society.

**Sports Communication Core Requirements**

Concentrations, tracks, and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Sports and Society Concentration, Sports Communication (BA) (p. 982)
- Sports Journalism Concentration, Sports Communication (BA) (p. 984)
- Sports Promotion and Publicity Concentration, Sports Communication (BA) (p. 984)

**Sports and Society Concentration, Sports Communication (BA)**

The Sports and Society concentration offers students the ability to create a customized mixture of skills in sports media production and critical/cultural analysis. Students tailor the combination of courses to their interest to further develop their critical thinking and communication skills to respond to specific, crucial needs they identify in the changing and growing sports communication job market. Students can blend classes in journalism, public relations, advertising, business, media studies, and communication studies to prepare for a broad variety of careers in the sports industry.

In the 3 + 3 BA/JD Program, high-achieving first-year incoming undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

- PRELAW 150 THE PRACTICE OF LAW
- PRELAW 151 RECENT CONTROVERSIES IN THE LAW
- PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third
undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 603).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

- Communication and Media (p. 217)
- Communication and Technology (p. 224)
- Communication Studies (p. 227)
- Journalism (p. 587)
- Media and Cinema Studies (p. 704)
- Organizational Communication (p. 766)
- Public Relations and Advertising (p. 849)
- Sports Communication (p. 980)

For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Sports Journalism Concentration, Sports Communication (BA)

The Sports Journalism concentration prepares students with the digital editing skills and ability to write across platforms to enter the fast-changing world of sports media. Students learn how to gather sports news, write and produce multimedia content on tight deadlines and are instructed by current and former professional journalists from world-famous outlets such as ESPN, Fox Sports, the Big Ten Network, the Chicago Tribune, the Chicago Sun-Times, WGN, 670 The Score, and NBC Sports Chicago. This concentration enables students to seek careers in traditional sports journalism in TV, radio, print, and digital outlets, along with positions with a variety of sports leagues, teams, organizations, and related entities.

Sports Promotion and Publicity Concentration, Sports Communication (BA)

The Sports Promotion and Publicity concentration enables students to develop an understanding of the theories and practices in public relations, advertising, consumer promotion, content management, and event planning in the context of sports. Students will learn to consider sports promotion and publicity processes from multiple perspectives and from a variety of platforms. Career paths include sports public relations, sports event planning, sports content creation, consumer promotion, and sports social media.

1 Students may take up to 4 hours of credit in this course toward graduation requirements.

2 A maximum of 8 credits from two credit College of Communication courses can be applied to major requirements.

Sports Communication (Minor)
The Sports Communication minor introduces students to sports media skills and related communication expertise, while strengthening their organizational and team-focused skills necessary to operate within sports organization careers. Through coursework and experiential learning, DePaul Sports Communication minors develop oral, written, and visual communication skills that enable them to research, design, present, and evaluate messages across diverse contexts and from a variety of platforms, including social media and digital communication technologies. The minor prepares students for the changing and growing sports media job market.

Students majoring in Sports Communication are restricted from earning this minor.
Stage Management (BFA)

The Theatre School's Bachelor of Fine Arts (BFA) degree in Stage Management is a blend of training in management, design and technical skills. The four-year curriculum in many ways simulates a stage manager's professional experience and process. Students learn to communicate with and manage all areas of production. Students collaborate with directors, designers, actors, administration and our professional production staff as part of our production program.

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

- Design and implement a plan for the preparation, rehearsal, and presentation of theatrical productions in collaboration with producers, directors, and other collaborators.
- Demonstrate an understanding of the practice of the various disciplines involved in the creation of a theatrical performance and both artistic and practical requirements of each.
- Communicate effectively both orally and in writing and have a mastery of the documentation required for the preparations, rehearsal, and presentation of theatrical productions.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Sophomore Year

Multiculturalism in the US

LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES 4

Junior Year

Experiential Learning

Not Required

Senior Year

Capstone

Not Required

1 Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

Arts and Literature (AL) (p. 1174)

- No Requirement

Philosophical Inquiry (PI) (p. 1180)
- 1 Course Required

Religious Dimensions (RD) (p. 1181)
- 1 Course Required

Scientific Inquiry (SI) (p. 1183)
- 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- Not Required

Other (p. 1174)
- Choose 1 course from the above learning domains as an elective

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit.
This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Select two of the following:

- MAT 326: SAMPLE SURVEY METHODS
- MAT 328: DESIGN OF EXPERIMENTS
Strategic Writing and Advancement for Nonprofits Graduate Certificate

The graduate Certificate in Strategic Writing and Advancement for Nonprofits (SWAN) is designed for those who wish to enter into or advance their careers in nonprofit marketing, communication, and development. Jointly offered by DePaul's School of Public Service (SPS) and Department of Writing, Rhetoric and Discourse (WRD), the four-course, sixteen-credit-hour Certificate provides a foundation in grant writing and resource development, which can be supplemented with electives in key professional areas such as content strategy, digital storytelling, and nonprofit marketing and board development.

Many SWAN courses are characterized by community-engaged, project-based learning, in which students complete substantial course projects with and for Chicago-area nonprofit partner organizations. Students can expect to gain both résumé experience and professional writing samples through their Certificate work.

The SWAN Certificate is available to students in DePaul graduate programs and to those who seek a stand-alone credential that provides credit toward a master's degree. DePaul students pursuing an MA in Writing, Rhetoric and Discourse, Nonprofit Management, or an MS in Public Service Management, can complete the Certificate without adding additional courses to their degree.

</tbody>
</table>

*When internship is with a nonprofit organization and student is interning in a strategic writing or development role.

Students are encouraged to balance the Certificate with one elective course from both the School of Public Service (MPS-prefix) and WRD. Those students without experience working in or studying nonprofit organizations are encouraged to enroll in MPS 508 early in the Certificate and before taking MPS 519.

Admission Requirements

Applications are accepted at any time, and students may begin the program at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor's degree.

There are several processes for applying to the program, depending on the status of the applicant:

- Current graduate students in SPS should contact the SPS staff advisor (SPSAdvising@depaul.edu) to enroll in the Certificate.
- Current graduate students in WRD or in any other DePaul master's degree program should contact the SWAN Certificate Coordinator, Prof. Lisa Dush (ldush@depaul.edu), to enroll.
- Applicants who are not currently enrolled as DePaul students should apply online as a non-degree seeking student, and be prepared to submit the following:
  - an LAS graduate admission online application (https://grad.depaul.edu/apply/)
  - transcripts from all schools attended
  - a Statement of Purpose of 300-500 words, describing their interest in and professional goals for pursuing the Certificate
Studio Art (Minor)

The Studio Art minor provides students with the opportunity to choose studio art area courses in painting, drawing, printmaking, and/or sculpture. Six courses are required.

1 At least one course must be 200-level and one course must be 300-level.

Students majoring in Art, Media, and Design (BA) or (BFA) or Art (BA) are restricted from earning this minor.

Supply Chain Management (MS)

In DePaul’s MS in Supply Chain Management degree program, students gain the leadership and technical skills necessary to manage supply chains. The program will provide a broad-based knowledge of sourcing, procurement, transportation, warehousing, production and distribution. Based on their interests, students have the flexibility to choose from a wide range of electives from across the business school. Supply chain industry professionals who aspire to leadership roles will especially benefit from this degree.

Program Features

In this degree program, students learn to:

- Critically evaluate supply chain design and potential improvements.
- Use qualitative and quantitative techniques to model complex supply chain phenomena.
- Deliver meaningful analyses and solutions that can be understood easily by a variety of audiences.
- Recognize global practices and identify regional differences, as well as understand the interconnectedness and interdependencies of global supply chain management.
- Make socially conscious supply chain decisions that consider the global availability of resources.

The program also leverages its location in Chicago, a major transportation and distribution hub, and the business school’s connections to supply chain management organizations to provide students with practical learning experiences and career connections.

STEM Designation

DePaul’s Master of Science in Supply Chain Management is a Department of Homeland Security STEM-designated program. STEM designation is granted to programs that produce graduates educated in science, technology, engineering and/or math who help support U.S. economic competitiveness and growth. International students who earn degrees from STEM-designated programs can qualify to extend their post-graduation stay in the United States for Optional Practical Training (https://studyinthestates.dhs.gov/stem-opt-hub/) (OPT). OPT provides an opportunity for international students to develop their careers while also helping meet the demand for STEM-educated professionals in the U.S. workforce. To find out more, contact the Kellstadt Graduate School of Business at kgsb@depaul.edu or (312) 362-8810.

Program Requirements

<table>

<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>48</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Describe efficient delivery of supplies and products in the supply chain.
- Recognize and analyze problems within applied business situations, choose a resolution, and justify that choice.
• Apply knowledge about the differences among global supply chain operations management.
• Exhibit sophisticated knowledge of management practices leading to applicable skills in relevant areas.
• Recognize emerging technologies in supply chains and discuss the ethical issues that relate to them.

Degree Requirements

Course Requirements
The MS in Supply and Chain Management requires 12 courses - nine core courses and three elective courses - in addition to the program prerequisites. Students without prior coursework in calculus and statistics must complete GSB 420 or GSB 519 prior to registering for MGT 501.

Core Courses (9 Required Courses)

</table>

Elective Requirements (3 Courses)

Select three of the following:

- MGT 500  LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS
- MGT 515  SUSTAINABILITY MANAGEMENT
- MGT 520  HUMANITARIAN SUPPLY CHAIN
- MGT 545  MANAGING SERVICE OPERATIONS
- MGT 555  HUMAN CAPITAL STRATEGY AND SCIENCE
- MGT 556  ETHICS AND LEadersHIP
- MGT 557  INTERNATIONAL MANAGEMENT
- MGT 563  NEGOTIATION SKILLS
- MGT 586  DATA VISUALIZATION
- MGT 587  BUSINESS PERFORMANCE ANALYSIS
- MGT 588  DATABASE MANAGEMENT SYSTEMS
- MGT 599  ANALYSIS OF BUSINESS STRATEGY & CAPSTONE
- MGT 793  MANAGEMENT INTERNSHIP
- ECO 509  BUSINESS CONDITIONS ANALYSIS
- ECO 525  STRATEGIC DECISION MAKING AND GAME THEORY
- ECO 540  THE BUSINESS OF HEALTH
- ECO 541  HEALTHCARE DATA ANALYTICS

Degree Requirements

- Satisfactory completion of the college residency requirements.
- Satisfactory completion of the 9 required courses and 3 elective courses.
- All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program or the Kellstadt Graduate School of Business.

Supply Chain Management (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Supply Chain Management (MS)

The Master of Science in Supply Chain Management is designed for early career professionals to gain the leadership and technical skills necessary to manage supply chains. The program will provide you with a broad-based knowledge of sourcing, procurement, transportation, warehousing, production and distribution.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Supply Chain Management may apply to the Supply Chain Management (MS) combined program. Students may be able to obtain both degrees in as few as five years.

Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take the following three graduate level courses during their senior year.
### Course Requirements

<table>

</tr>
</tbody>
</table>

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS in Supply Chain Management will be awarded upon completion of the remaining graduate level work.

### Sustainability Studies (Minor)

The Sustainability Studies minor offers students a focused set of courses to develop the knowledge and skills needed to lead society in adopting more sustainable environmental practices.

<table>

Select one Sustainability elective from the following:

- ENV 204 ENERGY AND THE ENVIRONMENT
- ENV 230 GLOBAL CLIMATE CHANGE
- ENV 245 URBAN AND COMMUNITY AGRICULTURE
- ENV 320 CONSERVATION BIOLOGY (with lab)
- CSS 320 COMMUNITY FOOD SYSTEMS
- PPS 333 GREEN CITIES
- GEO 200 SUSTAINABLE URBAN DEVELOPMENT
- GEO 205 RACE, JUSTICE, AND THE URBAN ENVIRONMENT

### Sustainable Management (MS)

The Master of Science (MS) in Sustainable Management program combines courses from the College of Science and Health, College of Liberal Arts and Social Sciences, College of Communication and Kellstadt Graduate School of Business, providing students with a broad base of knowledge and skills for implementing sustainable strategies for managing human, social, financial and natural resources in today's marketplace.

### Program Features

DePaul's MS in Sustainable Management program has a unique curriculum that will enable you to develop:

- Methods to create long-term profitability through socially and environmentally responsible business practices.
- The ability to assess, challenge and reframe traditional practices of management for sustainable alternatives.
- Practical decision-making abilities based on organizational strategies to ensure sustainable actions fit into the overall mission.
- Analytical skills focusing on how societies and organizations value resources required to deliver goods and services.
- Technical skills to analyze and measure the economic, social and environmental impacts of organizational decisions.

### STEM Designation

DePaul's Master of Science in Sustainable Management is a Department of Homeland Security STEM-designated program. STEM designation is granted to programs that produce graduates educated in science, technology, engineering and/or math who help support U.S. economic competitiveness and growth. International students who earn degrees from STEM-designated programs can qualify to extend their post-graduation stay in the United States for Optional Practical Training (https://studyinthestates.dhs.gov/stem-opt-hub/) (OPT). OPT provides an opportunity for international students to develop their careers while also helping meet the demand for STEM-educated professionals in the U.S. workforce. To find out more, contact the Kellstadt Graduate School of Business at kgsb@depaul.edu or (312) 362-8810.

### Learning Outcomes

Students will be able to:

- Explore the numerous different sustainability career paths that are available across industries.
- Understand how individual unique skill-sets and experience can be leveraged for a successful career in sustainability.
- Understand and synthesize the role of local and global sustainability efforts.
- Analyze the relationship between human activity and natural, social, and economic ecosystems.
- Understand and apply performance metrics utilizing financial, natural, and social capital to drive organizational decision-making.
- Evaluate the economic impact of sustainability and its obligation to future generations.
- Examine how to develop and enable sustainable organizations.
- Effectively communicate complex issues related to sustainability.
- Determine differences in sustainability plans by country.
- Compare international sustainability efforts with those of the region.

### Degree Requirements

#### Course Requirements

To earn the Master of Science in Sustainable Management, students must complete a total of 12 courses. Five courses are required core courses, four are selected from the list of business foundation electives and three are selected from the list of interdisciplinary electives.
### Core Courses

### Degree Requirements

1. Satisfactory completion of the college residency requirement.
2. Satisfactory completion of the 12 required courses, or their substitutes as approved by the Chair of the Management Department.
3. All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

### Sustainable Management (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These
12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

**Undergraduate DePaul Degree + Sustainable Management (MS)**

The Master of Science in Sustainable Management provides students with advanced knowledge of business systems and practices, focusing on sustainability, to create leaders for business, government and civic organizations.

**Admission**

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.200

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 500</td>
<td>LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS</td>
<td>4</td>

<tr>
<td>MGT 515</td>
<td>SUSTAINABILITY MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>MGT 535</td>
<td>CHANGE MANAGEMENT AND CONSULTING</td>
<td>4</td>
</tr>
</tbody>
</table>

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSHR will be awarded upon completion of the remaining graduate level work.

**Sustainable Urban Development (MA)**

Chicago faces many questions about its urban future:

- How can urban communities be made more sustainable?
- What should the city do with its old industrial sites?
- Can Chicago’s transportation networks modernize?
- Where should the city invest its economic development dollars?
- What is the role for community organizations in these debates?

These questions are at the center of the Master of Arts in Sustainable Urban Development (MASUD). With classes in Chicago’s Loop and Lincoln Park campuses, this 13-course (52 credit hour) interdisciplinary graduate program integrates academics with practical learning. Instructors draw on the city’s resources and incorporate expert guest speakers, site visits, and industry-standard Geographic Information Systems (GIS) digital mapping and spatial analysis technology. A genuinely interdisciplinary program that incorporates perspectives from fields such as Urban Planning, Public Policy, Geography, Sociology, Public Service Management, Environmental Studies and Real Estate, the MASUD introduces students to sustainable urban development policy, data collection and analysis, planning processes, strategies for implementation, modes of communication, and evaluation mechanisms. The first year of study provides a theoretical background as well as an introduction to the technologies used in urban development and planning. The second year of the curriculum is dedicated to teaching advanced courses and completing a required internship and a capstone/portfolio component.

The MA in Sustainable Urban Development may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Sustainable Urban Development + Graduate GIS Certificate
- Sustainable Urban Development + Community Development Certificate
- Sustainable Urban Development + Global Health Certificate
- Sustainable Urban Development + Metropolitan Planning and Development Certificate
- Sustainable Urban Development + Sustainable Urban Food Systems Certificate
- Sustainable Urban Development + Social Research Certificate

**Program Requirements**

<table>

<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>52</td>
</tr>
<tr>
<td>Total hours required</td>
<td>52</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Identify and describe the practical and theoretical links between sustainable urban development and issues of economic development, community development, social justice and the environment.
- Articulate details and apply critical insights about strategies being used to transform U.S. urban areas to make them more environmentally, economically, and socially sustainable.
- Define and describe contemporary urban issues and debates by citing and critiquing contemporary scholars and through employing either qualitative or quantitative methodologies using either primary (including fieldwork) or secondary sources.
- Articulate, research, and present publicly an assessment of critical social, environmental, and economic issues facing contemporary U.S. cities.
- Use with competence geographical information systems and/or other technology to assess and analyze sustainable urban development and design.

**Degree Requirements**

**Course Requirements**

Students complete 13 courses (52 credit hours).

**Required Core (5 courses)**

Other courses may be taken as electives, with advisor approval.
Sustainable Urban Development (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Sustainable Urban Development (MA)

Students completing any undergraduate degree at DePaul are eligible to apply for the bachelor's + master's in Sustainable Urban Development in their Junior year if they meet the following criteria:

- They have achieved Junior status;
- They have completed at least 88.0 credit hours of their undergraduate degree;
- They have a GPA of 3.0 or higher.

If accepted to the bachelor's + master's in Sustainable Urban Development, in their senior year, the student will take the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SUD 401</td>
<td>SUSTAINABLE URBAN DEVELOPMENT I: PLANNING, POLICY &amp; COMMUNITY DEVELOPMENT</td>
<td>4</td>
</tr>
<tr>
<td>SUD 402</td>
<td>SUSTAINABLE URBAN DEVELOPMENT II: GREEN INFRASTRUCTURE &amp; THE ENVIRONMENT</td>
<td>4</td>
</tr>
<tr>
<td>SUD 404</td>
<td>URBAN DESIGN LABORATORY</td>
<td>4</td>
</tr>
</tbody>
</table>

These three courses will serve as electives in an undergraduate program, unless a student's adviser makes an exception and allows them to apply to a declared major or minor.

The combined degree program allows three graduate-level courses (12.0 credit hours) to count towards both the undergraduate degree and the graduate degree. The student will be awarded their Bachelor's degree upon the completion of their undergraduate degree requirements. The master's degree will be awarded upon completion of the graduate degree requirements.

Sustainable Urban Food Systems Certificate

The graduate certificate introduces students to policies, theories, and practices that contribute to current developments in sustainable urban food systems around the world. The courses provide a focus on (1) how and why urban food systems have become magnets for capital investment in (re)localization and regionalization of food production and distribution and (2) broader questions of economic, racial and gender equity that emerge in relation to food access and nutrition, environmental restoration and justice, economic development in distressed urban neighborhoods, the relationship between rural and urban food systems, and the social and power relations in rural and urban agrarian formations.

The certificate exposes students to a wide variety of issues related to food systems including food entrepreneurship, community gardening and urban farming, and the relationship between food and climate change, gentrification, racial segregation, and labor. The courses in the certificate pay particular attention to preparing students for occupations in emerging local and regional urban food systems, but with a distinctly DePaul focus on how historically marginalized groups (re)gain control over food as a means to assert self-determination in urban and peri-urban communities. The centerpiece of the certificate is engagement in a 100-hour practicum within Chicago's local and regional food system.

The Sustainable Urban Food Systems Certificate requires 12 credit hours and is available to students in the Sustainable Urban Development Graduate Program, non-degree seeking students, and students in other DePaul graduate degree programs.

COURSE REQUIREMENTS

Three courses from the following:

- SUD 420 Sustainable Urban Food Systems
- SUD 451 Sustainable Cities and Food Justice
- SUD 492 Independent Study in Sustainable Urban Food Systems

APPLICATION PROCEDURES & REQUIREMENTS

The admission requirements for the certificate program include a bachelor’s degree from a regionally accredited institution and/or a student currently pursuing graduate study at DePaul. Students enrolled in a graduate program at DePaul University apply directly to the Sustainable Urban Development program by submitting all application materials to the program director. Applicants from outside DePaul apply to the certificate program through the online graduate admissions application process. Interested applicants from outside DePaul should submit a 300-word statement of interest to Drs. Hugh Bartling (hbartling@depaul.edu) and Howard Rosing (hrosing@depaul.edu). Applications are accepted on an ongoing basis.

For more information please contact the Director, Dr. Hugh Bartling, via the Sustainable Urban Development Graduate Program website. (https://las.depaul.edu/academics/sustainable-urban-development/pages/default.aspx)

Taxation (LLM)

For more than a quarter century, the LLM in Taxation has offered a comprehensive curriculum that provides instruction in both the
substantive and procedural aspects of tax law. Courses range from the basics of personal and business income taxation to advanced problems in corporate and partnership taxation, estate and gift taxation, and state and local taxation. The full-time faculty is complimented by prominent and skilled adjunct faculty, balancing scholarly and practical approaches to the program.

### Learning Outcomes

#### Domestic Students

Students will be able to:

- Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
- Conduct advanced legal research and analysis in the student’s area of specialization.

#### International Students

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrating understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
- Identify and apply relevant legal authority.
- Communication clearly in speech and writing.

### Degree Requirements

The Master of Laws program begins with an orientation that introduces graduate students to DePaul’s faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in a special course introducing them to the Socratic teaching method, the differences between civil and common law systems, and the foundations of the U.S. legal system.

To earn the LLM in Taxation, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD/LLM program, credits earned as part of the JD program do not count toward the LLM degree.

### Taxation (MSTAX)

#### Program Description

The Master of Science (MS) in taxation is an integrated program of study that provides the foundation for exceptional performance and leadership in the field of taxation.

One of the first MS in taxation programs in the United States, DePaul’s program is structured for working professionals to enhance understanding and analysis of complex tax statutes, tax regulations, related cases and rulings, and the Internal Revenue Code.

MS in taxation students gain technical competencies; analytical, communications and interpretive skills; and leadership abilities that prepare them to add value at the highest levels in their firms, businesses and organizations.
Program Features

Faculty expertise. Program faculty bring top academic and professional qualifications into the classroom and are experts in the specific topics they teach. Faculty include a broad range of distinguished individuals working in tax firms and government, including professionals from RSM, the Internal Revenue Service, Deloitte, PwC, EY, Grant Thornton and KPMG.

Top-ranking program. The program has been ranked among the top 10 tax programs in the nation, based on a survey of employers conducted by TaxTalent, the largest online network of tax professionals. The survey provides a valuable index of which accounting schools are highly regarded by alumni and tax firm hiring professionals.

Flexibility. The flexible pace of the program allows students to tailor their school schedule to their work schedule. Most students take one to two classes each quarter, completing the program within two to three years, and students often take a quarter off during busy periods such as the winter tax season. The program can also be completed in one year by attending full time.

Online learning. The program also can be completed partially or entirely online, a benefit for students who seek a flexible schedule or do not live in the area. The online option provides full access to the MS in Taxation’s comprehensive curriculum through video lectures and course materials presented in a convenient, supportive and engaging online format.

Learning Outcomes

Students will be able to:

- Exhibit sophisticated knowledge related to tax accounting rules and regulations, and analyze and resolve tax problems.
- Identify, define, and resolve tax issues through their understanding, knowledge, and application of research methods and databases.
- Recognize and apply relevant ethical standards as required in tax practice.
- Write skillful tax communications and be skillful in oral presentations.
- Demonstrate an understanding of tax issues from an international perspective.
- Understand how data analytics is used to facilitate tax decisions.

Degree Requirements

Course Requirements

Students earn their MS in Taxation degree by completing a minimum of 46 credits, normally 12 courses. Eight courses are required with additional courses chosen from a list of tax electives.

Prerequisite Courses

Students are expected to have completed Principles of Accounting ACC 500 and one introductory tax course ACC 548 prior to beginning the program.

Required Courses

The following eight courses are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</table>
part of this framework include: commitment to social justice, critical thinking through the development of professional portfolios. Values that are central to the TEACH Program engage teacher candidates in critical reflection on their teacher preparation experiences, aligning with a commitment to preparing students with a global mindset, pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Biology (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

</table>

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences.
Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Course Requirements
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th year master’s year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

All coursework in the content area must earn a grade of C or better.

- General Biology I
- General Biology II
- General Biology III
- Ecology
- Cell Biology
- Physiology
- Genetics
- Biology Elective
- Biology Elective
- Biology Elective
- Biology Elective (with lab)
- Biology Elective (with lab)
- College Algebra or Calculus I

- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.
- Trigonometry or Calculus II
- General Chemistry I
- General Chemistry II
- General Chemistry III
- General Physics I
- General Physics II
- General Physics III

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Biology students must complete the following tests:

- Science: Biology Content Area Test (test #105) – assesses knowledge of biological and physical science. Test is required before Student Teaching (deadlines apply)
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

TEACH: Secondary Education Chemistry (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Chemistry major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and chemistry endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The
Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Chemistry (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful
Academic Requirements:

- Follow the requirements before applying for student teaching.
- All students in teacher preparation programs must meet the requirements.

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the requirements.

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Licenses are issued by the Illinois State Board of Education (ISBE) and may change from year to year. Applicants are bound by the requirements in place at the time of their application. Applicants are bound by the requirements in place.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.
DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. edTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Course Requirements**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject.

Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th year master’s year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

**Content Area Requirements for Secondary Chemistry Education**

All coursework in the content area must earn a grade of C or better.

- General Chemistry I
- General Chemistry II
- General Chemistry III
- Organic Chemistry I
- Organic Chemistry II
- Analytical Chemistry
- Physical Chemistry I
- Physical Chemistry II
- Applied Probability and Statistics (2 qh)
- Chemistry Seminar (2qh)
- Calculus I
- Calculus II
- Calculus III
- General Physics I
- General Physics II
- General Physics III

Choose three of the following Chemistry courses: 12 quarter hours

- Organic Chemistry III
- Air Chemistry
- Solid Waste Chemistry
- Physical Chemistry III
- Intermediate Inorganic Chemistry
- Intermediate Organic Chemistry
- Biochemistry I
- Biochemistry II
- Biochemistry III
- Nuclear Chemistry
- Biophysical Chemistry
- Medicinal Chemistry
- Drugs and Toxicology
- Nutrition
- Applied Spectroscopy

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Chemistry students must complete the following tests:

- Science: Chemistry Content Area Test (test #106) – assesses knowledge of both geological and chemical science as well as general biological and physical sciences. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, courses in your program that require hours, visit the College of Education website.

TEACH: Secondary Education English (MEd)

The TEACH Program combines a College of Liberal Arts and Social Sciences (LAS) undergraduate English major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and English endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master's level coursework builds on students' undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students' fifth year. Within the COE, the Junior Year Experiential Course, Capstone
Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in alignment with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education English (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

</table>

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
Clinical Requirements:
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licence Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licence tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.
Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Course Requirements
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the LAS undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their LAS academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

Content Area Requirements for Secondary English Education
All coursework in the content area must earn a grade of C or better, and a minimum of 18 quarter hours must be coursework at an undergraduate upper level or graduate level

- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is
Degree Requirements

Course Requirements

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

All coursework in the content area must earn a grade of C or better.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Environmental Science students must complete the following tests:

- Science: Environmental Science Content Area Test (test #112) – assesses knowledge life science, physical science, and the living environment. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an
Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

TEACH: Secondary Education History (MEd)
The TEACH Program combines a College of Liberal Arts and Social Sciences (LAS) undergraduate History major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and history endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teaching development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure
Illinois Professional Educator License with endorsement in Middle and Secondary Education Social Science-History (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes
Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.
Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Course Requirements**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the LAS undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their LAS academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

**Content Area Requirements for Secondary History Education**

All coursework in the content area must earn a grade of C or better.

### Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. 160; Secondary Education History students must complete the following tests:

- Social Science: History Test (test #246) – assesses core knowledge of history and social science fields. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

### Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

### TEACH: Secondary Education Mathematics (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Mathematics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and math endorsement in the State of Illinois.
The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Mathematics (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

---

### Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

### Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner

<tbody>
<tr>
<td>Total hours required</td>
<td>40</td>
</tr>
</tbody>
</table>

2021-2022-Autumn-Edition 1017
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.
To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Course Requirements

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

Content Area Requirements for Secondary Mathematics Education*

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning or Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
- Abstract Algebra I
- Theory of Numbers I or Abstract Algebra II
- Geometry I
- Geometry II or Real Analysis I
- Probability & Statistics
- History of Mathematics
- *The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Math students must complete the following tests:

- Mathematics Content Area Test (test #208) – assesses knowledge of processes and applications of mathematics. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, and courses in your program that require visits, visit the College of Education website.

TEACH: Secondary Education Physics (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Physics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and physics endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical
pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Physics (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

</table>

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.
Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS System when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.
All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Degree Requirements**

**Course Requirements**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

All coursework in the content area must earn a grade of C or better.

- General Chemistry I
- General Chemistry II
- General Chemistry III

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education History students must complete the following tests:

- Science: Physics Content Area Test (test #116) – assesses knowledge of life and physical science, including Earth systems, technology, and the universe. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

TEACH: Secondary Education Social Science (MEd)
The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, Political Science, Psychology, or Sociology) or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BA or BS in their LAS disciplinary major and a MEd in Education with a Professional Educator License and social science-history endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure
Illinois Professional Educator License with endorsement in Middle and Secondary Education Social Science-History (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes
Students will be able to:
• Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
• Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
• Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
• Implement assessment practices to evaluate student learning and inform instruction.
• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
• Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test
Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Course Requirements
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the LAS undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their LAS academic advisor to complete an undergraduate degree audit that will include an
official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

**Content Area Requirements for Secondary History Education**

All coursework in the content area must earn a grade of C or better.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education History students must complete the following tests:

- Social Science History Test (test #246) – assesses core knowledge of history and social science fields. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.
Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Elementary Education (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

The program includes four distinctive features: 1) Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching; 2) Multiculturalism is infused throughout the curriculum; 3) Field experiences are an integral part of the curriculum; 4) Students are exposed to a variety of educational theories.

The program in elementary education prepares students to teach children in a variety of educational settings, including urban and suburban communities and public and private elementary schools. Students follow a suggested course of study with corresponding field experiences. Graduates earn the Master of Arts or Master of Education degree and are qualified for elementary school teacher licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in elementary education work in diverse settings such as museums, corporations, media and the arts.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 106 hours of daytime field experiences in schools. These school-based clinical experiences are completed in conjunction with methodology courses that require students to spend regular periods of time in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

Licensure
Illinois Professional Educator License with endorsement in Elementary Education (self-contained general education) (grades 1-6), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes
Students will be able to:

- Plan instruction that supports students in meeting rigorous learning goals, drawing upon knowledge of content areas, curriculum, and pedagogy.
- Demonstrate a variety of instructional strategies as they support learners in developing a deep understanding of content areas and their connections, as well as building skills needed to apply knowledge in meaningful ways.
- Apply their understanding of multiple purposes for and methods of assessment in order to monitor and evaluate student progress, make decisions regarding instructional practices, and guide students in reflecting upon their progress toward learning targets.
- Use the central concepts, standards, tools of inquiry, and structures of the discipline(s) they teach to create meaningful learning experiences based upon evidence-based practices that ensure mastery of content.
- Demonstrate an interest in ongoing professional learning, use evidence to evaluate practice, advocate for students, and exhibit professionalism and ethical behavior in all interactions.

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the
degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course). After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

The requirements below are those approved by the Illinois State Board of Education December 2015.

**Content Area Prerequisites**

Elementary education teachers need to have an understanding of the subjects taught in elementary school classrooms. Following the requirements set forth by the Illinois State Board of Education, DePaul’s program requires that students in the elementary program have courses in each of the following areas:

- mathematics
- physical science
- life science
- earth and space science
- history
- geography
- political science/civics
- economics

These courses may be taken at the undergraduate level and may have been included in the student’s bachelor’s degree program. Elementary education students’ transcripts will be evaluated by an academic advisor after admission to determine if additional coursework is needed. Completion of content area requirements is not a prerequisite for admission; however coursework must be completed before student teaching. It is strongly encouraged that applicants meet with an advisor after admission and prior to taking content courses.

DePaul alumni that have taken LSP 120 or IS 120 can receive credit towards the math requirement.

**Course Requirements**

**Introductory Courses: 17 quarter hours required, grade of C or better required.**

Elementary majors must complete the following tests:

- Elementary Education Content Test (test #197-200) – assesses knowledge of language arts and literacy, mathematics, science, social sciences, the arts, health, and physical education. Test is required before Student Teaching (deadlines apply).

- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate lab settings in conjunction with education courses. Students are required to register for one lab for designated paired course. For example, during the first quarter of the program students must register for T&L 404 and SCG 403 plus one field experience lab. During the quarter when students take SER 446, a public school that services students with special needs is required. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Biology (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection on their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the
100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Biology (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
Clinical Requirements:

- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony). Additional information about degree conferral and graduation can be found on the College of Education website.
Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Biology
Note: Effective for all individuals applying for licensure after February 1, 2012, all coursework in the content area must earn a grade of C or better.

- College Biology I
- College Biology II
- Ecology
- Cell Biology
- Physiology
- Genetics
- Molecular Biology
- Biology Elective
- Biology Elective (with lab)
- Biology Elective (with lab)
- College Algebra or Calculus I
- College Chemistry I
- College Chemistry II
- General Physics
- College Environmental Science or Earth and Space Science or Astronomy

Course Requirements

Introductory Courses: 12 quarter hours required, grade of C or better required.

1. Taken in conjunction with TCH 484.

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required

Two courses in Biology at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.
• BIO 300 or 400 level biology course 1
• BIO 300 or 400 level biology course 2

Student Teaching: 8 quarter hours required
Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

Licensure Tests
All individuals licensure by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Biology majors must complete the following tests:

• Science: Biology Content Area Test (test #105) – assesses knowledge of both biological science and physical science. Test is required before Student Teaching (deadlines apply).
• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Chemistry (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major.
Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Chemistry (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.
The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio.
to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Chemistry
Note: Effective for all individuals applying for licensure after February 1, 2012, all coursework in the content area must earn a grade of C or better.

- General Chemistry I
- General Chemistry II
- Organic Chemistry I
- Organic Chemistry II
- Analytical Chemistry
- Physical Chemistry I
- Biochemistry
- Inorganic Chemistry
- Chemistry Elective I
- Chemistry Elective (with lab)
- Chemistry Elective (with lab)
- Calculus I
- Applied Probability and Statistics or Calculus II
- College Physics
- College Biology
- College Environmental Science or Earth and Space Science or Astronomy

Course Requirements

Introductory Courses: 12 quarter hours required, grade of C or better required.

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required

Two courses in Chemistry at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- CHE 300 or 400 level chemistry course 1
- CHE 300 or 400 level chemistry course 2

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Chemistry majors must complete the following tests:

- Science: Chemistry Content Area Test (test #106) – assesses knowledge of both geological and chemical science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - English (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure
Illinois Professional Educator License with endorsement in Middle and Secondary Education English Language Arts (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes
Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
• Implement assessment practices to evaluate student learning and inform instruction.
• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
• Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Content Area Course
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education English
All coursework in the content area must earn a grade of C or better. At least five courses must be at the 300 or above level, with at least two of those courses at the graduate level and completed at DePaul to meet the MEd degree requirements. At least one course must have the Race, Ethnicity, and Sexuality (RES) designation or equivalency for non-DePaul
courses. Content area advisors can make course substitutions based on an analysis of student’s transcripts.

- 1 Literature courses
- 1 Poetry course
- 1 Shakespeare course
- 2 British Literature courses
- 1 Romanticism in American Literature course or approved American Literature substitute
- 2 American Literature courses
- 3 Writing and Oral Language courses
- 1 Grammar or Language and Style course

**Course Requirements**

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education English majors must complete the following tests:

- English Language Arts Content Area Test (test #207) assesses reading, writing and research, speaking and listening, and literature. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.
Teaching and Learning: Secondary Education - Environmental Science (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Environmental Science (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions as educational and professional expectations for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).
Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Environmental Science

All coursework in the content area must earn a grade of C or better.

- College Chemistry
- College Biology
- College Physics
- Environmental Science I
- Environmental Science II
- Earth’s Environmental System I: Life System
- Earth’s Environmental System II: Solid Earth System
- Earth’s Environmental System III: Climate System
- Earth Energy/Resources and Sustainability
- Environmental Science Elective
- Environmental Science Elective (with lab)
- Environmental Science Elective (with lab)
- Ecology
- Oceanography
- College Algebra I OR Intro Statistics
- Plus two courses on Environmental Sciences at the Graduate Level, as noted below in the Graduate Content Area
Course Requirements

Introductory Courses: 12 quarter hours required, grade of C or better required.

1 Taken in conjunction with TCH 484.

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required.

Two courses in Environmental Science at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- ENV 300 or 400 level environmental science course 1
- ENV 300 or 400 level environmental science course 2

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

</table>

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Environmental Science majors must complete the following tests:

- Science: Environmental Science Content Area Test (test #112) – assesses knowledge of life science, physical science, and the living environment. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - History (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency
affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Social Science-History (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

### Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

### Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining
how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively

- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).
After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education History
All coursework in the content area must earn a grade of C or better.

• Two US History courses (any level)
• Two Non-US History courses (any level)
• One additional History course (any level)
• One Economics course
• One Geography course
• One Political Science course focused on American Government
• One Anthropology, Sociology, or Psychology course
• Three additional courses in any social science area (Anthropology, Economics, Geography, History, Political Science, Sociology, or Psychology)

Course Requirements

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education History majors must complete the following tests:

- Social Science: History Content Area Test (test #246) – assesses and measures the candidate's core knowledge across history and social science fields. Test is required before Student Teaching (deadlines apply).

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Mathematics (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools.
In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure
Illinois Professional Educator License with endorsement in Middle and Secondary Education Mathematics (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes
Students will be able to:

- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
Clinical Requirements:

- Respects the requirements, expectations, and procedures of both the College of Education and our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.
**Licensure**
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Content Area Courses**
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for Secondary Education Mathematics**
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Calculus I
- Calculus II

- Calculus III
- Intro to Math Reasoning OR Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
- Abstract Algebra I
- Theory of Numbers or Abstract Algebra II
- Geometry I
- Geometry II or Real Analysis I
- Probability & Statistics
- History of Mathematics

*The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.

**Course Requirements**

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Mathematics majors must complete the following tests:

- Mathematics Content Area Test (test #208) – assesses knowledge of both the processes and applications of mathematics. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Physics (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of
study for middle school and high school levels. In all cases, appropriate
teaching experience plays a critical role. The program combines theoretical
principles of education and field work with the student’s choice of major.
Graduates earn the Master of Arts in Education degree and are
qualified for middle and secondary school licensure. Yet, not all graduates
follow a career in teaching. A number of DePaul graduates in secondary
education work in diverse settings such as museums, corporations,
media, and the arts.

Licensure
Illinois Professional Educator License with endorsement in Middle and
Secondary Education Science-Physics (grades 9-12 or grades 5-12), an
Illinois State Board of Education (ISBE) approved program. Graduates
who earn an initial Professional Educator License in grades 9-12 may also
qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Learning Outcomes
Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and
  meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content
  knowledge with an emphasis on developing students’ conceptual
  understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of
  adolescent learners and content.
- Implement assessment practices to evaluate student learning and
  inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for
  adolescent learners and their communities.
- Evaluate educational research to support their understanding of
  teaching and learning and identify the theories that inform their
  teaching practices.

Dispositions
The academic programs within the College of Education have set forth
these dispositions as educational and professional expectations for
all students. Students should be aware that failing to abide by DePaul
University or College of Education policies including, under certain
circumstances, these dispositions, could result in adverse consequences
for the student, including removal from his or her program, the College
of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses,
  including evaluating strategies for success, finding alternatives for
  inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and
  professionally upon suggestions
- Values critical thinking, including engaging theoretical and
  philosophical frameworks and shows evidence of critical thinking
  through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating
  clearly orally and in writing both in traditional and in new and
  emerging digital formats
- Values and is committed to continually developing strong content
  area knowledge and/or knowledge of the professional field, including
  pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out
  information using a variety of human and material resources and
  technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management
  procedures that reflect respect and care for learners and concern for
  their emotional and physical well being
- Takes the time and effort needed to understand how students learn,
  including discovering their interests and experiences and determining
  how to shape teaching acts (using technology as appropriate) that
  engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and
  ensure the continuous intellectual, social, emotional, and physical
  development of the learner
- Respect and considers cultural contexts in order to determine how
  to be responsive to learners and to proactively promote all students’
  learning
- Values and is responsive to diverse learners’ academic, emotional,
  and social needs through teaching acts (including careful
  instructional planning, implementation, and differentiation) and
  through everyday interactions with students
- Is committed to collaboration with colleagues, families, and
  communities in order to promote all students’ learning and
  development
- Recognizes and fulfills professional responsibilities and habits of
  conduct (e.g., dress, language, preparedness, attendance, punctuality,
  etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect,
  and diplomacy
- Balances self-confidence and assertiveness with respect for others’
  perspectives
- Respects the requirements, expectations, and procedures of both the
  College of Education and of our field partners and appreciates the
  issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are
required to complete licensure tests specific to their teaching license.
Each test has a state mandated timeline by which to pass the test. The
Academic Success Center can provide help through tutoring, workshops,
and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education /
Professional Education Unit must complete supervised field experiences
in appropriate settings in conjunction with education courses. The
field experiences must include a variety of grade levels, multicultural
experiences, and a minimum of 15 hours in special education settings.
All field experiences must be completed prior to final approval for student
Teaching. Field experience hours should be entered by the student
into the FEDS system when completing courses with field experience
requirements.
Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone
that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Physics
All coursework in the content area must earn a grade of C or better.

- College Physics I
- College Physics II
- Classical Mechanics
- Electricity and Magnetism
- Thermal Physics
- Computational and Theoretical Physics
- Quantum Physics
- Physics Elective
- Physics Elective (with lab)
- Physics Elective (with lab)
- Calculus I
- Calculus II or Multivariable Analysis & Linear Algebra I
- College Chemistry I
- College Biology I
- College Environmental Science or Earth and Space Science or Astronomy

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Physics majors must complete the following tests:

- Science: Physics Content Area Test (test #116) – assesses knowledge of both life and physical science, including Earth systems, technology, and the universe. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Social Science (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Social Science-History (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

<table>
<thead>
<tr>
<th>Program Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements (MEd)</td>
<td>56</td>
</tr>
<tr>
<td>Total hours required</td>
<td>56</td>
</tr>
</tbody>
</table>

2021-2022-Autumn-Edition
**Academic Requirements:**
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged.

The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.
Degree Requirements

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Social Science
All coursework in the content area must earn a grade of C or better.

- Two US History courses (any level)
- Two Non-US History courses (any level)
- One additional History course (any level)
- One Economics course
- One Geography course
- One Political Science course focused on American Government
- One Anthropology, Sociology, or Psychology course
- Three additional courses in any social science area (Anthropology, Economics, Geography, History, Political Science, Sociology, or Psychology)

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Social Science majors must complete the following tests:

- Social Science: History Content Area Test (test #246) – assesses and measures the candidate’s core knowledge across history and social science fields. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an
outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Visual Arts (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school licensure. Yet, not all graduates follow a career in teaching number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure
Illinois Professional Educator License with endorsement in Secondary Education Visual Arts (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Illinois Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1244) for grades 5-8.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Visual Arts majors must complete the following tests:

- Visual Arts Content Area Test (test #145) – assesses knowledge of elements, principles, and expressive features of visual arts. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework
through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
Clinical Requirements:
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).
Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Content Area Courses**
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for World Language Education Arabic**
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

• Advanced Arabic I
• Advanced Arabic II
• Advanced Arabic III
• Advanced High Arabic I
• Advanced High Arabic II
• Advanced High Arabic III
• Literature/Culture Elective
• Literature/Culture Elective
• Literature/Culture Elective
• Literature/Culture Elective
• Literature/Culture Elective
• Literature/Culture Elective

**Course Requirements**

**Education Courses:** 40 quarter hours required, grade of C or better required.

Select one of the following:

- SCG 408 EDUCATION AND SOCIETY
- SCG 409 SOCIOLOGY OF EDUCATION
- SCG 411 PHILOSOPHY OF EDUCATION
- BBE 560 SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION
- BBE 570 LANGUAGE, LITERACIES AND CULTURES
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
- T&L 449 STANDARD AND CONTENT-BASED METHODS OF TEACHING WORLD LANGUAGES K-12 (Secondary)
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- BBE 407 EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS
- SER 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

**Education Elective Course:** 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

**Graduate Level Content Area Courses:** 4 quarter hours required, grade of C or better required.

Either a course in Arabic at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses
must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- ARB 300-600 level Arabic course

**Student Teaching: 8 quarter hours required**
Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

**Licensure Tests**
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Arabic majors must complete the following tests:

- Foreign Language: Arabic Content Area Test (test #137) – assesses knowledge of the Arabic language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Oral Proficiency Interview (OPI) Test**
Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

**Teaching and Learning: World Language - Chinese (MA or MEd)**
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major.
Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language Chinese (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Program Requirements Quarter Hours
Degree Requirements (MA) 60
Total hours required 60

Program Requirements Quarter Hours
Degree Requirements (MEd) 56
Total hours required 56

Learning Outcomes

Students will be able to:

• Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
• Integrate theory and research on second language acquisition into praxis for world language learners.
• Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
• Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
• Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.
Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“EdTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of
trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Chinese majors must complete the following tests:

- Foreign Language: Chinese Content Area Test (test #126) – assesses knowledge of the Chinese language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA – assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test
Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - French (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure
Illinois Professional Educator License with endorsement in Foreign Language French (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes
Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
• Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
• Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education French
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced French I
- Advanced French II

**Education Elective Course:** 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

**Graduate Level Content Area Courses:** 4 quarter hours required, grade of C or better required.

Either a course in French at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- FCH 300-600 level French course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education French majors must complete the following tests:

- Foreign Language: French Content Area Test (test #252) – assesses knowledge of the French language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.
Oral Proficiency Interview (OPI) Test

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latín, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - German (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major.

Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language German (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an
application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education German
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

**Education Elective Course:** 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

**Graduate Level Content Area Courses:** 4 quarter hours required, grade of C or better required.

Either a course in German at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- GER 300-600 level German course

**Student Teaching:** 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education German majors must complete the following tests:

- Foreign Language: German Content Area Test (test #253) — assesses knowledge of the German language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

**Teaching and Learning: World Language - Italian (MA or MEd)**

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.
Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

**Licensure**

Illinois Professional Educator License with endorsement in Foreign Language Italian (kindergarten-grade 12), Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
Clinical Requirements:

- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)

- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.
Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Italian
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

Education Elective Course: 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

Graduate Level Content Area Courses: 4 quarter hours required, grade of C or better required.

Either a course in Italian at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.
Student Teaching: 8 quarter hours required
Registration in student teaching requires completion of all requirements and procedures listed in the core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Italian majors must complete the following tests:

1. **Foreign Language** - Italian Content Area Test (test #130) – assesses knowledge of the Italian language and culture. Test is required before Student Teaching (deadlines apply).
2. **OPI Test** (see below).
3. **EdTTPA** - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test
Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Japanese (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:
1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major.
Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

**Licensure**

Illinois Professional Educator License with endorsement in Foreign Language Japanese (kindergarten-grade 12), Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.
Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an

application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of
trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching
Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Latin (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language Latin (kindergarten-grade 12), Illinois State Board of Education (ISBE) approved program.

Program Requirements Quarter Hours
Degree Requirements (MA) 56
Total hours required 60

Program Requirements Quarter Hours
Degree Requirements (MEd) 56
Total hours required 56

Learning Outcomes

Students will be able to:

• Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
• Integrate theory and research on second language acquisition into praxis for world language learners.
• Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
• Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability,
reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.

- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education
Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Students must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Latin
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Latin majors must complete the following tests:

• Foreign Language: Latin Content Area Test (test #133) – assesses knowledge of the Latin language and culture. Test is required before Student Teaching (deadlines apply).
• OPI Test (see below).
• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.
Oral Proficiency Interview (OPI) Test
Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test — an Interview — before you begin student teaching. You must earn a rating of "intermediate high" or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Russian (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major.

Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Learning Outcomes
Students will be able to:

• Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
• Integrate theory and research on second language acquisition into praxis for world language learners.
• Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
• Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
• Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

**Clinical Requirements:**
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an
application means you intend to finish your degree requirements by the
end of the term for which you have applied.

Graduate students must be approved for student teaching and complete
student teaching, seminar, and induction courses to be cleared for the
degree. Student must submit graduation application for the quarter you
are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after
the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect.
Select the Academic Progress tile, then apply for Graduation. On screen
instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees
are posted 30 days after the official end of the term. Official dates are
listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If
you intend to participate, you must first apply for graduation (degree
conferral) for the current academic year and then submit a cap and gown
order. Honors are not announced at the ceremony for undergraduates
completing their final courses in spring quarter because a final GPA
is not available at the time of the ceremony. Eligibility for the June
Commencement ceremony is limited to individuals that complete the
entirety of their program (including student teaching) within the same
academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be
found on the College of Education website.

Licensure
Requirements for licensure include completion of the full
licensure program and all licensure tests (including OPI for world
language majors). A bachelor’s degree is required; a master’s degree is
not.

Individuals must submit an application directly to the Illinois State
Board of Education after completion of requirements and after DePaul
has submitted notification to ISBE. Application requirements include
application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of
application for the license. Requirements are subject to change per the
discretion of ISBE.

Individuals seeking additional endorsements after applying for the
license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any
individual seeking teaching licensure in the State of Illinois. The new
requirement is the Teacher Performance Assessment ("edTPA"), which
is mandated by the Illinois State Board of Education (ISBE) for anyone
that completes student teaching in Fall 2015 and beyond. EdTPA is an
assessment conducted during the student teaching experience. For this
assessment, teacher candidates are required to create video clips of
instruction, lesson plans, student work samples, analyses of student
learning, and teacher candidate reflective commentaries for a learning
segment and submit these components using an electronic portfolio
to Evaluation Systems an outside agency that is a group of Pearson
Publishing. The portfolio will be independently evaluated by a panel of
trained reviewers hired by Pearson. For this service a fee is charged.
The panel of scorers of edTPA are selected and trained by Evaluation
Systems. DePaul University is neither affiliated with Evaluation Systems
nor Pearson Publishing and by ISBE regulation cannot be involved in
edTPA registration, submission of portfolios, or scoring of individual
teacher candidate portfolios. Institutions of higher education are required
by the Illinois State Board of Education to provide teacher candidates
with information to prepare for edTPA; however, the process of edTPA is
external to DePaul University and is not monitored by DePaul University’s
College of Education.

Degree Requirements
Content Area Courses
All students need to have sufficient knowledge of the subject they will
be teaching. Illinois State Board of Education requires a minimum of 48
quarter hours (32 semester hours) in the content area subject. Students
should meet with their designated Content Area advisor at the beginning
of their program for an official written content evaluation and provide
a copy to your academic advisor. Requirements can be satisfied by
undergraduate coursework or courses taken elsewhere. Content courses
must be completed before student teaching.

Requirements for World Language Education Russian
All coursework in the content area must earn a grade of C or better and a
minimum of 18 quarter hours (12 semester hours) must be coursework at
an undergraduate upper level or graduate level.

• Advanced Russian I
• Advanced Russian II
• Advanced Russian III
• Advanced High Russian I
• Advanced High Russian II
• Advanced High Russian III
• Literature/Culture Elective
• Literature/Culture Elective
• Literature/Culture Elective

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Russian majors must complete the following tests:

- Foreign Language: Russian Content Area Test (test #134) – assesses knowledge of the Russian language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Spanish (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.
Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

### Licensure

Illinois Professional Educator License with endorsement in Foreign Language Spanish (kindergarten-grade 12), Illinois State Board of Education (ISBE) approved program.

### Learning Outcomes

Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

### Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licenses Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)

• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.
Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements
Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Spanish
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Spanish I
- Advanced Spanish II

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Spanish majors must complete the following tests:

• Foreign Language: Spanish Content Area Test (test #260) — assesses knowledge of the Spanish language and culture. Test is required before Student Teaching (deadlines apply).

• OPI Test (see below).

• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test
Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching English in Two-Year Colleges Certificate
The Certificate Program in Teaching English in Two-Year Colleges is an interdisciplinary program housed in the Department of English and taught by faculty in both English and the Department of Writing, Rhetoric, and Discourse. The program is designed to prepare prospective teachers of introductory classes in English, Writing, and the Humanities in city and community college settings. Participants in the Certificate Program will learn to teach critical and analytical reading, the processes and disciplines of writing, and other aspects of the arts, humanities, or communication curriculum in two-year colleges.

The Certificate is comprised of 16 hours of credit: three pedagogy-based courses and a teaching internship, enrolled as an Independent Study.

Application
To be admitted to the Certificate Program, students must have completed or be currently pursuing a master’s degree in English; Writing and Publishing; Writing, Rhetoric, and Discourse; or a related field.

Applications are accepted at any time. Interested students should contact their program director or Professor Michele Morano for more information, mmorano@depaul.edu (.%20mschell2@depaul.edu). Please email all application materials directly to Michele Morano (not to Graduate Admissions).

Application materials:

• Cover letter describing interest in teaching in a two-year college
• Current CV (résumé)
• Undergraduate and graduate academic transcripts
• Sample of recent academic or professional writing
• Names of two faculty references
Teaching English to Speakers of Other Languages Certificate

WRD 550  TOPICS IN TEACHING WRITING AND LANGUAGE (when topic is relevant)

WRD 582  WRITING CENTER THEORY AND PEDAGOGY

Or another graduate course approved by the Program Director.

Two-Year College Teaching Internship

Graduate students in English or a related field are eligible to apply for the internship even if they are not enrolled in the Certificate Program. Please contact Professor Morano about applying for an internship.

Also, please note: Chicago-area two-year colleges operate on the semester system; therefore, the internship’s duration does not correspond to DePaul’s academic calendar. The intern should expect to complete the work for ENG 509 some time after the end of the quarter in which registered. A grade of “R” (indicating work in progress) will be assigned temporarily, to be changed to a letter grade when work is completed.

Teaching English to Speakers of Other Languages Certificate

The WRD department offers a Graduate Certificate in TESOL, which may be completed by students in an existing DePaul graduate program or by students who wish to complete only the Certificate. Made up of courses in the programs of Writing, Rhetoric, & Discourse, Bilingual-Bicultural Education, English, and Modern Languages, the Certificate prepares students to teach English as a Second Language (ESL) to adult learners in the United States and abroad. The Certificate may also be attractive to faculty at non-U.S. institutions who wish to come to the U.S. for education in working with second language learners.

Field Experience

20 hours of field experience working with adult language learners. Field experience will be arranged individually with the Coordinator of the Certificate program.

¹ ENG 478 counts for TESOL credit only with this subtitle.

Students completing the Master’s in Bilingual-Bicultural Education can complete the Certificate program by taking their Theory and Sociolinguistics courses in BBE and their Methods and Language Structure courses in WRD; they must complete all requirements for the BBE program to receive the Master’s degree. Students in the Master of Arts in English (MAE) may complete their Language and Structure requirement in English; any two additional courses form the list above will count for credit in both MAE and the TESOL Certificate. For Students in the MA in WRD, a maximum of two courses (8 credits) from MOL or BBE may be counted as credits toward the MA in WRD degree.

Students who are concurrently completing any other graduate degree program at DePaul must work with their program director/advisor to determine if TESOL Certificate courses will count toward their degree requirements.

Admission Requirements

Applications are accepted at any time, and students may begin the program at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor’s degree.

There are two processes for applying to the program, depending on the status of the applicant.

Current graduate students in any DePaul program should write a personal statement of 300-500 words describing their interest in the certificate, prior experience in TESOL or related fields, and professional goals for pursuing the certificate. Email the statement to the TESOL Coordinator, Professor Jason Schneider (jason.schneider@depaul.edu).
Applicants who are not currently enrolled as DePaul students should apply online (https://www.depaul.edu/apply/Pages/default.aspx), and be prepared to submit the following:

- an LAS graduate admission online application
- transcripts from all schools attended
- a personal statement of 300-500 words describing their interest in the program, prior experience in TESOL or related fields, and professional goals for pursuing the certificate

Television Production (Minor)
The Television Production minor will give you a foundation in writing, editing and producing television programs. You may specialize in a specific area to complement your major course of study.

Theatre Arts (BFA)
The Theatre School's Bachelor of Fine Arts (BFA) degree in Theatre Arts is our most flexible program and allows students to study and get experience in a variety of theatrical disciplines. The program is tailored toward students interested in pursuing careers in areas as diverse as directing, arts writing, educational outreach, literary management, arts administration or law.

Newly admitted Theatre Arts majors are automatically placed in the standard Theatre Arts curriculum, which includes all core and elective requirements for the BFA degree in Theatre Arts. After completing a minimum of two quarters of study at The Theatre School, students have the option of adding a concentration in either Theatre for Young Audiences (TYA) or Directing.

With respect to the core and elective requirements, students who do not declare a concentration remain in the standard Theatre Arts curriculum, which includes successful completion of all core requirements plus six elective courses in theatre (24 credit hours), chosen in consultation with the student’s advisor. The requirements for those students who declare a concentration in either TYA or Directing include successful completion of all core requirements plus eight courses (or 32 credit hours) to fulfill the requirements of the concentration.

Learning Outcomes

Core Outcomes
Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes
Students will be able to:

- Read and interpret a theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling approach to the production of the text.
- Demonstrate an understanding of the history of theatrical literature and practice in the context of social and cultural development.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.
The Theatre Arts (BFA) program offers a comprehensive curriculum designed to provide a strong foundation in both the theoretical and practical aspects of theatre. The program is divided into First Year, Sophomore Year, Junior Year, and Senior Year, with specific requirements and electives to be completed. Each year builds upon the previous one, preparing students for their role in the theatre world.

First Year Program

**Chicago Quarter**

- LSP 110 DISCOVER CHICAGO or LSP 111 EXPLORE CHICAGO

**Focal Point**

Not Required

**Writing**

- WRD 103 COMPOSITION AND RHETORIC I
- WRD 104 COMPOSITION AND RHETORIC II

**Quantitative Reasoning**

- LSP 120 QUANTITATIVE REASONING

**Sophomore Year**

**Multiculturalism in the US**

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

**Junior Year**

**Experiential Learning**

Not Required

**Senior Year**

**Capstone**

Not Required

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120.
   The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

**Learning Domains**

**Arts and Literature (AL) (p. 1174)**

- THE 204 HISTORY OF DRAMATIC LITERATURE
- THE 205 HISTORY OF DRAMATIC LITERATURE
- THE 206 HISTORY OF DRAMATIC LITERATURE

**Historical Inquiry (HI) (p. 1178)**

- 1 Course Required

- Not Required

**Philosophical Inquiry (PI) (p. 1180)**

- 1 Course Required

**Religious Dimensions (RD) (p. 1181)**

- 1 Course Required

**Scientific Inquiry (SI) (p. 1183)**

- 1 Lab Course or 1 SWK Course Required

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)**

- Not Required

**Other (p. 1174)**

- Choose 1 course from the above learning domains as an elective

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Production Practice/Internship: Select eight credits total in consultation with advisor

Standard Plan
In addition to the requirements above 24 credit hours of Theatre Electives must be completed, to be chosen in consultation with the student’s advisor.

Additional Requirements
26 credit hours of Open electives is also required to meet the minimum graduation requirement of 192 hours. Courses should be chosen in consultation with the student’s advisor. Students are strongly encouraged to utilize these courses to pursue a minor or second major.

Concentration Requirements
Students pursuing a concentration must complete the requirements from one of the following concentrations: Theatre for Young Audiences or Directing.

Concentration Requirements
• Directing Concentration, Theatre Arts (BFA) (p. 1103)
• Theatre for Young Audiences Concentration, Theatre Arts (BFA) (p. 1103)

Directing Concentration, Theatre Arts (BFA)
The concentration in Directing focuses on the theoretical knowledge and practical skills necessary for continuing work in this field. The concentration requires 8 courses or 32 credit hours of coursework that includes the first two quarters of the Dramaturgy I sequence (8 credit hours), two courses chosen from a corpus of four, depending on the student’s directorial focus and interests (8 credit hours), a combination of two production practices and/or internship (8 credit hours), and two additional courses approved in consultation with the student’s advisor. The breakdown of this coursework is as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>THE 234</td>

Open Electives
Open elective credit is also required to meet the minimum graduation requirement of 192 hours. Courses should be chosen in consultation with the student’s advisor. Students are strongly encouraged to utilize these courses to pursue a minor or second major.

Theatre for Young Audiences Concentration, Theatre Arts (BFA)
The concentration in Theatre for Young Audiences (TYA) focuses on the theoretical knowledge and practical skills necessary for continuing work in this field. The concentration requires 8 courses or 32 credit hours of coursework. The breakdown of this coursework includes the three-term Dramaturgy I sequence (12 credit hours), a minimum of three terms (12 credit hours) of Production Practice assignments in The Theatre School’s Playworks Series and/or a TYA Internship—in which the student serves as assistant director, dramaturg, or assistant dramaturg, and two additional courses (8 credit hours) as approved by the student’s advisor, as follows:

Theatre Management (BFA)

The Theatre School’s Bachelor of Fine Arts (BFA) degree in Theatre Management program teaches students both the art and business of theatre while preparing them for careers in the extensive and growing performing arts industry. With a focus on both non-profit arts administration and the commercial theatre, the Theatre Management program uses the theatrical community in Chicago as a laboratory where students interview arts leaders, discover best practices through research, and participate in the art form through internships and production practice assignments.

The Theatre Management curriculum combines Theatre Arts courses from The Theatre School with courses from the Liberal Studies program and The Driehaus College of Business. In alternating years the program offers the New York City Intensive, a one week independent study in New York City, America’s commercial theatre capital. Theatre Management faculty members are industry professionals allowing you a first-hand experience.

Upon completion of the Theatre Management program you will earn a Bachelor of Fine Arts (BFA) in Theatre Management at The Theatre School and, with the addition of a single course, a minor in Management through The Driehaus College of Business.

Program Specific Outcomes

Students will be able to:

- Design and implement a plan for the preparation, rehearsal, and presentation of theatrical productions, including budgeting and marketing.
- Demonstrate an understanding of the practice of the various disciplines involved in the creation of a theatrical performance and both the artistic and practical requirements of each.
- Communicate effectively, both orally and in writing, and have an understanding of the documentation required for the planning and execution of theatrical productions, including budgeting and contracts.

Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours. Courses should be chosen in consultation with the student’s advisor. Students are strongly encouraged to utilize these courses to pursue a minor or second major.

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

</table>
Dramatic Literature Electives: Select three courses in consultation with advisor 12
Internships: Select two, six credit-hours each 8

1 Internships are designed to meet the individual needs of the student. The internship will entail practical work in the Theatre Management field with a producing theatre company. Internships will be supervised and evaluated by the faculty of the program.

Open Electives
Open elective credit may also be required to meet the minimum graduation requirement of 192 hours.

Theatre Studies (Minor)
The Theatre School offers a minor as a way for DePaul University students in other colleges to engage and explore their interest in the theatre through a broad range of theatre coursework. Theatre School students are not eligible to declare a minor in Theatre Studies.

Course Requirements
A minor in Theatre Studies requires the completion of 24 Theatre School credits of the student’s choosing, based on the list below. Students from outside The Theatre School may take the following classes at their home college tuition rate:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</tbody>
</table>

This repeatable course may only be applied once to fulfill a minor requirement.

All courses are offered on an as needed basis. On occasion, Theatre Studies minors may take Theatre Studies (THE) classes not listed above. Availability of those courses is dependent on space available in the class, completion of appropriate prerequisites and permission of the instructor, which the student must obtain in order to enroll. Classes in the acting program (PRF) are not open to students pursuing a minor.

Students pursuing a minor who are approved to take Theatre School courses not on this list will be charged the part-time, per-credit Theatre School tuition rate for those classes.

1 If approved by instructor, any Theatre Studies (THE) course may be applied towards completion of the minor.

Theatre Technology (BFA)
The Theatre School’s Bachelor of Fine Arts (BFA) degree in Theatre Technology trains students to execute the realization of a designer’s vision. Theatre Technology majors collaborate with the Scenic, Lighting, and Sound Designers, and other artists and technicians, to create the set, props, light, and sound for theatre and entertainment productions.

Program Requirements
Liberal Studies Requirements 52
Major Requirements 147
Total hours required 199

Learning Outcomes

Core Outcomes
Students will be able to:

• Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
• Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
• Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes
Students will be able to:

• Understand and interpret a design concept or design elements and create a plan to fabricate and implement the design for production.
• Effectively communicate, orally and in writing, with members of the production team and be able to both create and interpret appropriate production documents.
• Demonstrate and apply an expertise in a variety of technologies in a broad range of applications for theatrical production.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Course | Title | Hours
--- | --- | ---
**First Year Program**

**Chicago Quarter**
LSP 110 or LSP 111 | DISCOVER CHICAGO or EXPLORE CHICAGO | 4

**Focal Point**
Not Required

**Writing**
WRD 103 | COMPOSITION AND RHETORIC I | 4
WRD 104 | COMPOSITION AND RHETORIC II | 4

**Quantitative Reasoning**
LSP 120 | QUANTITATIVE REASONING | 4

**Sophomore Year**

**Multiculturalism in the US**
LSP 200 | SEMINAR ON MULTICULTURALISM IN THE UNITED STATES | 4

**Junior Year**

**Experiential Learning**
Not Required

**Senior Year**

**Capstone**
Not Required

1 Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

**Arts and Literature (AL) (p. 1174)**
• THE 204 HISTORY OF DRAMATIC LITERATURE
• THE 205 HISTORY OF DRAMATIC LITERATURE
• THE 206 HISTORY OF DRAMATIC LITERATURE

**Historical Inquiry (HI) (p. 1178)**
• 1 Course Required

• Not Required

**Philosophical Inquiry (PI) (p. 1180)**
• 1 Course Required

Religious Dimensions (RD) (p. 1181)
• 1 Course Required

Scientific Inquiry (SI) (p. 1183)
• 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
• Not Required

Other (p. 1174)
• Choose 1 course from the above learning domains as an elective

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit.

This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

Translation and Interpreting Studies Graduate Certificate

The certificate consists of three to five 4-credit courses and one 2-credit course, for a total of 14-22 credits.

Students can choose from one of three tracks:

- Translation
- Interpreting
- Translation and Interpreting (T&I)

To declare the certificate, students must contact Elias Shakkour (e.shakkour@depaul.edu) and include the following information in the email:

- Student ID
- Primary College
- Track (Translation, Interpreting or T&I)

Course requirements are listed below. For each track, courses may be substituted on a case-by-case basis following consultation with the Director of TIC, and, if appropriate, the respective language program director.

### Translation Track:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 470</td>
<td>PROFESSIONAL TRANSLATION AND INTERPRETING</td>
<td>4</td>
</tr>
<tr>
<td>MOL 471</td>
<td>TRANSLATION AS AN ART &amp; SCIENCE</td>
<td>4</td>
</tr>
<tr>
<td>MOL 472</td>
<td>TRANSLATION LANGUAGE-PAIR PRACTICE</td>
<td>4</td>
</tr>
<tr>
<td>MOL 479</td>
<td>TRANSLATION/INTERPRETING PRACTICUM</td>
<td>2</td>
</tr>
</tbody>
</table>

**Note:**

MOL 471 and MOL 472 are both required if the Department of Modern Languages does not offer a language-specific translation course in the student’s language. If the Department of Modern Languages does offer a language-specific translation course in the student’s language, the student is required to take a language-specific translation course and either MOL 471 or MOL 472. If it is not feasible for a student to register for a language-specific translation course because it is not offered during the student’s time at DePaul, because it conflicts with the student’s schedule, or for any other reason, the student will be required to take both MOL 471 and MOL 472.

Examples of language-specific courses that can meet this requirement:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>

### U.S. Legal Studies (LLM)

The Master of Laws in U.S. Legal Studies is designed for students who received a first degree in law outside the United States and who wish to pursue advanced study in American law. International lawyers will improve English language skills and gain a deep and sophisticated understanding of the U.S. legal system.

The degree is flexible, allowing students to select a combination of core courses that give a strong foundation in American law. Students complete a minimum of 24 credits and a maximum of 32 credits to earn the degree, with six credits of required foundational coursework.

The degree is designed to give foreign-trained lawyers the opportunity to meet the course requirements to sit for the bar exam in a select group of states. Successful completion of a bar exam is one of the requirements to receive a license to practice law in a U.S. jurisdiction.

### Program Requirements

<table>
<thead>
<tr>
<th>Program Requirements</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Core Requirements</td>
<td>9</td>
</tr>
<tr>
<td>Elective Requirements</td>
<td>15</td>
</tr>
<tr>
<td>Total hours required</td>
<td>24</td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrate understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the U.S. legal system.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.

### Degree Requirements

The Master of Laws in U.S. Legal Studies is designed for students who received a first degree in law outside the United States. It begins with an orientation that introduces graduate students to DePaul’s faculty, staff, library, computer and research facilities. Students also will participate in special courses introducing them to the differences between civil and common law systems, the foundations of the U.S. legal system, the methods of legal reasoning and analysis, and the basics of legal writing in the U.S. legal system.

The LLM in U.S. Legal Studies provides students with the opportunity to meet the course requirements to sit for the bar exam in a select group of states. Students must review requirements of the particular state carefully and discuss individual course selection with their academic advisor.

To earn the LLM in U.S. Legal Studies, a student must complete between 24 and 32 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0, including six credit hours of required coursework. A summer term is counted as a semester for this purpose. Students who complete 32 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. Credits earned as part of the JD program do not count toward the LLM degree. In addition, no credit is given for law courses taken before a student is admitted to and enrolled in the LLM program. Students may be eligible to apply credits earned in the LLM program or in their first law degree toward a JD degree at the College of Law.
Course Requirements
Courses must be selected from the list below to meet the total requirement of between 24 and 32 credit hours. Students seeking to substitute a course that is not on this list must speak with their academic advisor.

</tbody>
</table>

Courses should be selected with the consent of the student’s Geography faculty advisor.

A student completing an Urban Geography and Planning minor is eligible to simultaneously complete a GIS Certificate. Only 2 courses (GEO 141, and either GEO 242 or GEO 243) from the Urban Geography and Planning Minor can also be applied to the undergraduate GIS Certificate. A student wishing to complete an Urban Geography and Planning minor and an undergraduate GIS Certificate will complete a minimum of 8 Geography courses. Please see a faculty adviser in the Department of Geography for further details.

User Experience Design (BS)

The BS in User Experience Design prepares students for the expanding fields of user experience and interaction design. The program integrates visual design, code, and user research. Concepts and skills involved include design principles, prototyping, and usability testing. Students will learn how to analyze, design, develop and evaluate effective computer interfaces to provide better user experiences.

</tbody>
</table>

Learning Outcomes

Students will be able to:
• Plan and conduct a variety of user research methods for developing empathy, understanding problems, and identifying user needs and design opportunities.

• Evaluate, critique, create, and rationalize interfaces with respect to visual design principles, affordances, interaction design principles, and interaction design patterns.

• Transform user research and apply design principles and patterns to create wireframes, mockups, prototypes, and experiences that simulate interfaces and have enough functionality for usability testing with participants.

• Read, comprehend, and write code relevant to contemporary web and mobile devices at a basic level, use code to create rough prototypes, and research, evaluate, and rationalize design decisions as they relate to code.

• Effectively communicate user research findings, design concepts, and design rationale in written and verbal forms.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

• 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)

• 3 Courses Required

• PSY 105

• 2 Additional Courses

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Open Electives

Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

### Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

### User Experience Design (BS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s/Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor’s degrees with a CDM master’s degree following the structure outlined below.

### Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master’s program requires meeting admission requirements ([https://www.cdm.depaul.edu/Admission-and-Aid/Pages/Grad-Program-Requirements.aspx](https://www.cdm.depaul.edu/Admission-and-Aid/Pages/Grad-Program-Requirements.aspx)) for that program
Students should discuss their interest in a CDM combined degree program with a CDM faculty advisor. Before admission to the degree, students should work with the faculty advisor to identify a course plan for the combined degree program, including the list of courses to take and how the courses will be applied toward both the undergraduate and graduate degrees. Non-CDM students can email the CDM advising office (advising@cdm.depaul.edu) if interested in a combined degree with a CDM master’s degree.

If you are currently a CDM student and interested in combining your CDM bachelor’s degree with a non-CDM graduate degree, please contact the respective college for admission and application procedures.

Students enrolled in the Bachelor of Arts in Computing or the Bachelor of Arts in Professional Studies with a major in Computing (https://www.cdm.depaul.edu/academics/Pages/BA-Computing.aspx) joint degree programs between CDM and the School of Continuing and Professional Studies are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact SCPS Academic Services (scpsadvising@depaul.edu) for more information. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Program Structure

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor’s and master’s degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor’s degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master’s degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree many not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master’s Degree Courses

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor’s Degree to Master’s Degree Transition

In order to be fully admitted to the designated master’s program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

User Experience Design (Minor)

The User Experience Design minor gives students a foundational skill set in the expanding field of interaction design and its applications to multimedia and web development.

Value-Creating Education for Global Citizenship (MEd)

The program in Value-Creating Education for Global Citizenship offers a comprehensive and in-depth examination of the educational perspectives and practices of Soka educators Tsunesaburo Makiguchi, Josei Toda, and Daisaku Ikeda. The first degree program of its kind anywhere in the world, it engages students in understanding and applying value-creating education for global citizenship in theory, research, policy, and practice in local and global contexts. Students will consider key educational concepts in the Soka heritage, including human geography, communities studies, deductive approaches, value and value creation, wisdom and knowledge, human education, society for education, peace and dialogue, among others. The foundation of the program rests on the sociopolitical and sociocultural implications of value-creating education for global citizenship in local contexts. The program offers two tracks, fully online or face-to-face.

</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements (MEd)</td>
<td>48</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Assess instructional practices that blend a focus on both cognition (i.e., the accretion of knowledge) and wisdom (i.e., application of that knowledge in meaningful and contributive living for oneself and others).
- Design practices that promote interdependent teacher-student relationships for mutual growth and development.
- Analyze and practice dialogic engagement, reflective and relational creativity and criticality, and meaning making.
- Apply value-creating education for global citizenship in local contexts.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.
DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure Option**

Students seeking the master's degree in Value-Creating Education for World Citizenship have the option also to pursue an Illinois initial or subsequent teaching license. This licensure program requires students to be physically present in Chicago for the entire licensure program. Please consult your academic advisor for information regarding requirements and application procedures.

**Visual Effects (Minor)**

Students will explore contemporary concepts and approaches to visual effects in film, television and multimedia. The hands-on curriculum focuses on learning skills in compositing, editing, computer graphics and modeling.

**Wig and Makeup (BFA)**

The Theatre School's Bachelor of Fine Arts (BFA) degree in Wig and Makeup Design & Technology is designed to train students for professional careers as wig and makeup artists. The four-year curriculum simulates the professional experience and process for both designers and technicians in the fields of the wig and makeup arts. Students of the program will receive professional training in wig construction, period hair styling, makeup application and design, and makeup prosthetics that will enable them to work professionally in a variety of entertainment fields, including theatre, opera, film, and television. Wig and makeup students will practice their craft on realized theatrical productions and learn to collaborate with directors, dramaturgs, other designers and technicians, and our professional wig/makeup and costume shop staff.

**Learning Outcomes**

**Core Outcomes**

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works and artistic approaches from antiquity to the present, encompassing a broad range of periods, cultures, and styles.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

**Program Specific Outcomes**

Students will be able to:

- Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept in collaboration with other artists.
- Demonstrate an understanding of the history hair, makeup, clothing, and fashion in the context of social and cultural development.
• Demonstrate and apply expertise in wig and facial hair construction, period hair styling, stage blood mechanics, makeup design and application, and makeup prosthetics.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Women's and Gender Studies (BA)

The Department of Women's and Gender Studies provides students with a strong educational foundation for life-long learning. It nurtures students' abilities to think critically and to examine social and cultural circumstances that too often remain unquestioned. The curriculum also emphasizes the development of strong written & oral communication skills.

A thirteen-course major is offered, consisting of a six-course common core, four courses in a concentration, and three electives.

As a Women's and Gender Studies major, a student will take courses such as:

- Women and Film
- Women in the Middle East
- Feminist Theories
- Gender and Education
- Deconstructing the Diva
- Gender, Community, & Activism: Community-Based Learning in WGS
- Growing Up Female in the U.S.
- Growing up Latino/Latina in the United States
- Gender Violence and Resistance
- Women and Politics
- Mothering, Work, and Reproductive Justice
- Black Women's Experiences
- Antiracist Feminisms
- Introduction to Transgender Studies
- Queer Theory

Learning Outcomes

Students will be able to:

- Identify the meanings and historical constructions of gender and/or women's experiences in transnational contexts.
- Explain the connections between scholarship and activism in the interdisciplinary field of Women's and Gender Studies.
- Differentiate among a variety of theoretical frameworks central to the interdisciplinary field of Women's and Gender Studies.
- Make use of concepts of intersectionality in their written and/or experiential work.
- Evaluate the utility of a variety of interdisciplinary methodologies central to scholarship and/or creative work in the interdisciplinary field of Women's and Gender Studies.
- Articulate the relationship between individual experiences - their own and others' - and broader systemic inequalities.
• Create knowledge of gender and/or women’s experiences in a context of ethically responsible social justice and/or social transformation.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

• placing into 104 or above on the DePaul language placement exam
• completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
• completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
• completing the final course of a four-year sequence of the same modern language in high school*
• completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
• completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Junior Year
Experiential Learning
Required  4

Senior Year
Capstone
WGS 395  WOMEN’S STUDIES ADVANCED SEMINAR  4

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3 A student majoring in Women’s and Gender Studies (WGS) is required to complete the Capstone offered by the WGS Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A WGS major in the University Honors Program shall take the University Honors Capstone and the WGS Capstone.

Learning Domains
Arts and Literature (AL) (p. 1174)
• 2 Courses Required

Historical Inquiry (HI) (p. 1178)
• 2 Courses Required

• 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)
• 2 Courses Required

Religious Dimensions (RD) (p. 1181)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
• 2 Courses Required
[1 Lab Course and 1 SWK Course]

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the experiential learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Concentration
Students must also complete a four-course concentration. All students develop an Individualized Concentration in consultation with their faculty advisor.

WGS students have developed concentrations in areas such as Arts & Activism; International Perspectives; Social Policy & Social Justice; Women of Color & Feminist Thought; Gender & Sexualities; among others. We encourage students to develop an individualized program of study that best suits their academic interests and career goals, and are committed to working closely with students as they develop their major concentration and interdisciplinary curricular focus.

Major Field Electives
Three additional electives chosen by the student from the list of courses approved for the Women’s and Gender Studies major.

Women’s and Gender Studies (BA) + Women’s and Gender Studies (MA)
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.
All current WGS undergraduate majors with junior status (at least 88.0 credits) with a cumulative undergraduate GPA of 3.0 overall are invited to apply for the accelerated BA/MA Degree in the Department of Women's and Gender Studies. In order to be considered for the accelerated program, a student must have completed WGS 100, WGS 200, and WGS 250 and at least three elective courses towards the WGS major. Additionally, students must demonstrate strong critical analytic research, writing, and communication skills. Interested students should contact the WGS graduate director.

In the senior year students complete:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGS 400</td>
<td>FEMINIST THEORIES</td>
<td>4</td>
</tr>
<tr>
<td>WGS 415</td>
<td>FEMINIST GENEALOGIES IN WOMEN'S AND GENDER STUDIES</td>
<td>4</td>
</tr>
<tr>
<td>WGS 465</td>
<td>GLOBALIZATION, TRANSNATIONALISM, AND GENDER</td>
<td>4</td>
</tr>
</tbody>
</table>

Once the student has graduated with their undergraduate BA in Women’s and Gender Studies, they will matriculate into the MA Program. As MA Students, the students take the remaining 9 courses toward the MA degree – usually students will take 3 graduate courses per quarter in order to complete the MA in the one additional year. This will include two of the required graduate courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGS 473</td>
<td>SEMINAR IN GRADUATE PROPOSAL WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WGS 485</td>
<td>WOMEN, GENDER, AGENCY, AND SOCIAL CHANGE</td>
<td>4</td>
</tr>
</tbody>
</table>

Also:

- 6 WGS and WGS approved electives
- 1 course of WGS 493 (taken with Chair of MA Final Project Committee)

Elective courses will be chosen by the student in conjunction with a faculty advisor in order to tailor a coherent program of study to the individual student’s particular academic and/or professional objectives while ensuring that the student sustains strong interdisciplinary focus at the graduate level. Elective courses may be offered by Women’s and Gender Studies or approved courses offered by other departments/programs at DePaul. A list of courses approved by WGS are circulated to required Core Courses in the MA Program, a five-course elective focus, plus an additional one course (total of 4 credit hours) of WGS 493. They will also be required to present and defend the Practical Project to an MA Final Project Committee. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

### Practical Project

The Practical Project Option requires that the student plan, develop, and defend a practical project that is grounded in interdisciplinary scholarship, feminist and/or gender theories, and that has a direct and practical application to community service, advocacy, and/or education. Practical projects take a variety of forms; for instance, it could be a participatory action research project with an organization, or a curriculum to be taught in community-based or educational setting, or a public policy or human rights related educational or advocacy project, or any project created for implementation with a broader community. In general, the MA Practical Project in WGS consists of the project itself (e.g., the curriculum, the participatory action research report) and a Framing Paper (minimum 25 pages) in which you frame the mission, goals, methods, components, and expected outcomes of the project you have undertaken.

Students who select the Practical Project option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional one course (total of 4 credit hours) of WGS 493. They will also be required to present and defend the Practical Project to an MA Final Project Committee. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

### Creative Project

The Creative Project Option requires students to create an artistic and/or literary project that gives voice to issues or questions in Women's and Gender Studies. It should be informed by feminist theory and scholarship, and it should address a significant theme or question within the field. A Creative Project may be a play, an art exhibit, a memoir, a novel, a collection of short stories, a collection of non-fiction essays, a mixed-media work, a dance or musical performance, a film, a website—to name just a few of the multiple possibilities open to students choosing this option. In general, the MA Creative Project in WGS consists of the creative project itself and a Creative Project Framing Paper (minimum 25 pages) in which you describe and frame the creative project.

Students who select the Creative Project Option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional one course of independent study and research as WGS 493.

### Portfolio Project

The Portfolio Final Project Option requires that the student conduct a comprehensive analysis of their learning while a graduate student in WGS. The student must prepare and submit

1. a collection of at least six seminar papers, practical or creative projects, and/or other research products that are the outcomes of core and elective courses; and
2. a Portfolio Essay (minimum 25 pages) that offers a reflective and critical analysis of how the papers/projects reflect the students
intellectual, creative, and analytical development over the course of their graduate studies.

Students who select the Portfolio Option will complete, in addition to required Core Courses in the MA Program, a six-course elective focus, plus an additional course WGS 493 during which they will write the Portfolio Essay. They will also be required to present and defend the portfolio project to the Chair of their Final Project and one additional faculty member, who must both be appointed in the Department of Women's and Gender Studies at DePaul. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

**Application Process**

In order to apply students must fill out an online application and submit all the application materials listed below by May 31st (click here [https://grad.dePaul.edu/apply/](https://grad.dePaul.edu/apply/)).

1. A Statement of Purpose (500-750 words) explaining why the student is seeking admission to the program – including specific goals and interests.

2. A copy of the undergraduate unofficial transcript.

3. A research-based paper as a writing sample (e.g., a copy of a paper from a relevant undergraduate course) of approximately 2000 words.

4. Two letters of recommendation from professors who can speak to your interest in and commitment to Women's and Gender Studies. You must contact your referees and request the letters of recommendation through the application portal. Please ensure that they submit the letters by the application deadline (May 31).

**Women's and Gender Studies (MA)**

The MA in Women's and Gender Studies offers a cutting edge curriculum that focuses on the interconnectedness of local, global, and transnational feminist theories, methodologies, research, public policies, and social movements; attends to interlocking systems of oppression and privilege—gender, race, sexuality, class, nation—to address issues of power, resistance, and social transformation; connects feminist theories to activism and social justice; and engages communities through research, advocacy, and service.

Women's and Gender Studies are complementary interdisciplinary fields whose research, scholarship, and creative activities examine women’s lives, conditions, and contributions within their historical, social, cultural, national, and transnational contexts and explore how gender is constructed and negotiated within and across societies. Women's and men's identities and experiences are examined through the constructs of gender, race, class, sexuality, age, ability, culture, religion, nation etc. within broader historical, social, and global contexts, such as colonialism and globalization, among others.

Through feminist and gender-based theories and methodologies, the Department of Women's and Gender Studies offers critical analyses, reflections, and contributions to knowledge regarding interlocking systems of oppression and privilege, thereby addressing issues of power, resistance and social transformation. In addition, the emphasis on critical theory and analysis allows for work that interrogates feminist discourses as well as those of other disciplines in the arts, humanities, social sciences, and natural sciences. By crossing the boundaries of traditional fields of study, the department seeks to create new, coherent understandings of human experiences. For more information, contact Dr. Sanjukta Mukherjee, Graduate Director.

The MA in Women's and Gender Studies requires completion of 48 credit hours. All Core, and many Elective courses, will be offered during the evening. The program requires six Core courses, five Elective courses organized around a focus tailored to the individual student’s needs, and a Capstone consisting of one course Thesis Option, one course Practical or Creative Project Option, or a one-course Portfolio option.

Course offerings are scheduled so that students will ordinarily complete the program in two years.

The MA in Women's and Gender Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Women's and Gender Studies + Digital Humanities Certificate
- Women's and Gender Studies + Global Health Certificate
- Women's and Gender Studies + Public Health Certificate
- Women's and Gender Studies + Social Research Certificate
- Women's and Gender Studies + Critical Ethnic Studies

**Learning Outcomes**

# Students can identify the experiences of women within multiple local, national, and transnational contexts.

# Students can compare various historically situated theoretical frameworks central to the interdisciplinary field of Women's and Gender Studies.

# Students can articulate the relationship between social and historical constructions of gender and various theoretical frameworks central to the interdisciplinary field of Women's and Gender Studies.

# Students can analyze gender issues and/or women's experiences in terms of intersectional identities and interlocking systems of power, privilege, and/or oppression.

# Students can utilize appropriate interdisciplinary methodologies which inform their own scholarship and/or creative work in the interdisciplinary field of Women's and Gender Studies.

# Students can analyze issues informed by the integral relationship of scholarship and activism, paying particular attention to issues of social justice and/or social transformation.

# Students can construct knowledge informed by socially responsible ethical frameworks relevant to the interdisciplinary field of Women's and Gender Studies.

Select five WGS and WGS-approved electives 20

Elective courses will be chosen by the student in conjunction with a faculty advisor in order to tailor a coherent program of study to the individual student’s particular academic and/or professional objectives while ensuring that the student sustains a strong interdisciplinary focus at the graduate level. Elective courses may be offered by Women’s and Gender Studies or by other departments/programs at DePaul, provided that such courses meet the criteria for inclusion within the Women’s and Gender Studies curriculum (with permission).

**Capstone/Final Project Requirements**

All students must complete an MA Final Project, selecting one of the following options:

**Thesis**

The Thesis Option requires that the student plan, execute, and defend an independent and original analytical research project that makes a contribution to current scholarship in the field of women’s and gender studies and related subfields. The thesis should show accomplishment in methods of research, critical judgment, and, if appropriate, praxis that characterizes feminist research. Thesis research must be grounded in interdisciplinary scholarship as well as feminist and/or gender theories, and must reflect considerable engagement with relevant literature and methodology in the field. The thesis consists of approximately 50 pages of text with a substantial bibliography.

Students who select the Thesis option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, and one course of WGS 493 focused on researching and writing the thesis. You are required to present and defend the thesis to an MA Final Project Committee. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

**Practical Project**

The Practical Project Option requires that the student plan, develop, and defend a practical project that is grounded in interdisciplinary scholarship, feminist and/or gender theories, and that has a direct and practical application to community service, advocacy, and/or education. Practical projects take a variety of forms; for instance, it could be a participatory action research project with an organization, or a curriculum to be taught in community-based or educational setting, or a public policy or human rights related educational or advocacy project, or any project created for implementation with a broader community. In general, the MA Practical Project in WGS consists of the project itself (e.g., the curriculum, the participatory action research report) and a Framing Paper (minimum 25 pages) in which you frame the mission, goals, methods, components, and expected outcomes of the project you have undertaken.

Students who select the Practical Project option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional one course of WGS 493. They will also be required to present and defend the Practical Project to an MA Final Project Committee. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

**Creative Project**

The Creative Project Option requires students to create an artistic and/or literary project that gives voice to issues or questions in Women’s and Gender Studies. It should be informed by feminist theory and scholarship, and it should address a significant theme or question within the field. A Creative Project may be a play, an art exhibit, a memoir, a novel, a collection of short stories, a collection of non-fiction essays, a mixed-media work, a dance or musical performance, a film, a website—to name just a few of the multiple possibilities open to students choosing this option. In general, the MA Creative Project in WGS consists of the creative project itself and a Creative Project Framing Paper (minimum 25 pages) in which you describe and frame the creative project.

Students who select the Creative Project Option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional one course of independent study and research as WGS 493.

**Portfolio**

The Portfolio Final Project Option requires that the student conduct a comprehensive analysis of their learning while a graduate student in WGS. The student must prepare and submit (1) a collection of at least six seminar papers, practical or creative projects, and/or other research products that are the outcomes of core and elective courses; and (2) a Portfolio Essay (minimum 25 pages) that offers a reflective and critical analysis of how the papers/projects reflect the students intellectual, creative, and analytical development over the course of their graduate studies.

Students who select the Portfolio Option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional course WGS 493 – during which they will write the Portfolio Essay. They will also be required to present and defend the portfolio project to the Chair of their Final Project and one additional faculty member, who must both be appointed in the Department of Women’s and Gender Studies at DePaul. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

**Women’s and Gender Studies (MA), Combined Bachelor’s + Master’s Degree**

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These
12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

**DePaul Undergraduate Degree + Women's and Gender Studies (MA)**

Students interested in applying to the BA + MA programs in Women’s and Gender Studies should contact the Graduate Director of the Department of Women’s and Gender Studies, Dr. Sanjukta Mukherjee smukher8@depaul.edu

All current DePaul undergraduate students with junior status (at least 88.0 credits) with a cumulative undergraduate GPA of 3.0 overall are invited to apply for the Universal Combined Degree BA MA Program in the Department of Women’s and Gender Studies. **You do not need to be a WGS major to apply!!**

If you have taken a minimum of **TWO** WGS or WGS-related courses (for example in the allied fields of African and Black Diaspora Studies, English, Geography, Global Asian Studies, History, International Studies, Islamic World Studies, Latin American and Latino/a Studies, LGBTQ Studies, Sociology, Peace and Justice Studies, among others) and can demonstrate strong critical analytic research, writing, and communication skills you can be considered for the Universal Combined Degree.

**Application Process**

In order to apply students must fill out an online application and submit all the application materials listed below by May 31 here: [https://grad.depaul.edu/apply/](https://grad.depaul.edu/apply/)

1. A Statement of Purpose (500-750 words) explaining why the student is seeking admission to the program – including specific goals and interests.

2. A copy of the undergraduate unofficial transcript.

3. A research-based paper as a writing sample (e.g., a copy of a paper from a relevant undergraduate course) of approximately 2000 words.

4. Two letters of recommendation from professors who can speak to your interest in and commitment to Women’s and Gender Studies. You must contact your referees and request the letters of recommendation through the application portal. Please ensure that they submit the letters by the application deadline (May 31).

**Women's and Gender Studies (MA/MSW Social Work)**

The joint MSW/MA in Women’s and Gender Studies offers a unique and cutting edge graduate program with a focus on gender, community, and social justice. Both programs share a synchronicity of mission and focus on social justice efforts at the community level and together they would provide an excellent foundation for developing a women’s and gender studies-based social work career trajectory.

The joint program is designed to give students the opportunity and flexibility to draw from the strengths of both programs as they build a foundation for their chosen work. The program offers both the broad understanding of social work, with a particular focus on community, and a substantive foundation in the theories and scholarship within women’s and gender studies, with a particular focus on social justice. Students will have the opportunity to deepen their knowledge in the field of women’s and gender studies directly applicable to their interests in social work and build their knowledge-based skills in social work while obtaining the necessary credential for not only securing employment, but the ability to advance their leadership in the profession.

Women's and Gender Studies (Minor)

Similar to the major, the Women's and Gender Studies minor includes three basic social analysis courses aimed at providing students with a gendered lens through which to see social, cultural, and political issues. Students are encouraged to expand their view of their personal lives to include a framework that promotes resilient responses to all forms of oppression. To complete the minor, students take three additional courses to be chosen from the approved course list from the Women's and Gender Studies Department.

Students wishing to attain the Women's and Gender Studies minor are required to successfully complete 24 credit hours (six classes): the three core classes listed below and three general electives approved for the Women's and Gender Studies major.

Three WGS or WGS advisor-approved courses 12

Students majoring in Women's and Gender Studies (BA) are restricted from earning this minor.

Women's and Gender Studies Certificate

Graduate Certificate Program

The Women's and Gender Studies Graduate Certificate Program at DePaul University is available both to non-degree seeking students and to students in other DePaul graduate degree programs.

The Program's requirements are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGS 400</td>
<td>FEMINIST THEORIES (offered Fall Quarter only)</td>

</tbody>
</table>

Select three graduate-level elective courses 12

It is highly recommended that students take the foundational course, WGS 400, prior to the other required three WGS electives. The elective courses may be taken from the Women's and Gender Studies offerings and/or from courses in other departments and programs in the College of Liberal Arts and Social Sciences that have been approved by the Department of Women's and Gender Studies. All three elective courses must not be from the same department or program.

To be considered for the certificate program, please follow the directions below.

Non-Degree Seeking Students

Applications are accepted on an ongoing basis. Complete a DePaul University Liberal Arts and Social Sciences graduate admission online application; submit undergraduate and (if applicable) graduate transcripts and a personal statement of 300-500 words (describing your interest in Women's and Gender Studies, any prior experience in the field, and personal or professional goals for pursuing the certificate), and a letter of recommendation from a current or previous professor.

Students Enrolled in Other DePaul Graduate Degree Programs

Applications are accepted on an ongoing basis. Complete a DePaul University Liberal Arts and Social Sciences graduate admission online application. Submit undergraduate and (if applicable) graduate transcripts, a personal statement of 300-500 words (describing your interest in Women's and Gender Studies, any prior experience in the field, and personal or professional goals for pursuing the certificate), a letter of recommendation from a current or previous professor, and a letter from the Director of Graduate Studies in the degree granting department indicating whether interdisciplinary courses in Women's and Gender Studies may be counted toward departmental degree requirements. Submit transcripts, personal statement and letter from the other graduate program.

Completed applications are reviewed by the Department of Women's and Gender Studies. Admission decisions are based on the prospective student's ability to complete the academic requirements of courses in the program. The Graduate Director may use the personal statement as a basis for advising certificate students on the selection of courses and on any academic skills development that would aid successful participation in and completion of WGS graduate courses.

Descriptions of courses offered through the Department of Women's and Gender Studies can be found in Campus Connect through the "Search for Classes" function.

For more information please contact the Women's and Gender Studies Graduate Program Director, Dr. Sanjukta Mukherjee (773-325-4345 or smukher8@depaul.edu), or visit the Department of Women's and Gender Studies website (https://las.depaul.edu/academics/womens-and-gender-studies/Pages/default.aspx).

World Language Education Chinese (BA)

The Bachelor of Arts program in World Language Education Chinese prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.
The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language Chinese (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern

- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Academic Requirements
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education
Student Teaching Timeline and Deadlines

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content areas tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

WLE 384  CAPSTONE IN WORLD LANGUAGE EDUCATION  3  4

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3 This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1174)
• 2 Courses Required

Historical Inquiry (HI) (p. 1178)
• 2 Courses Required
(Note: One must be US History)

• 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)
• 2 Courses Required:
  • LSE 380
  • 1 Additional Course
  (Note: PHl 100 recommended)

Religious Dimensions (RD) (p. 1181)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
• 2 Courses Required:
  • 1 BIO Course
  • 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
• 2 Courses Required:
  • PSC 120 THE AMERICAN POLITICAL SYSTEM
  • 1 Additional Course

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements
Content Area Courses
Note: Language courses begin at the Advanced level for the major. A placement test in the language is required to determine skill level and appropriate level to begin the language. Beginning and Intermediate language courses are in addition to the content area requirements but can fulfill open elective requirements.

Advanced Language Core: 24 quarter hours required, grade of C or better required.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Chinese majors must complete the following tests:

- Chinese Content Area Test (test #126) – assesses knowledge of the Chinese language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see above).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

World Language Education French (BA)
The Bachelor of Arts program in World Language Education French prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.
Licensure

Illinois Professional Educator License with endorsement in Foreign Language French (Kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality
**Skill Building Courses**
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Modern Language Competence Requirement**
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

**Licensure Tests**
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

**Clinical Requirements**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.
Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1174)
- 2 Courses Required

Historical Inquiry (HI) (p. 1178)
- 2 Courses Required
  (Note: One must be US History)

- 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)
- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1181)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/PHY Course
  (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- 2 Courses Required:
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - 1 Additional Course

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Content Area Courses

Note: Language courses begin at the Advanced level for the major. A placement test in the language is required to determine skill level and appropriate level to begin the language. Beginning and Intermediate language courses are in addition to the content area requirements but can fulfill open elective requirements.

Advanced Language Core: 12 quarter hours required, grade of C or better required

Pursuing certification in the teaching of a world language (Chinese, French, German, Italian, Japanese, or Spanish) requires the oral proficiency test — an Interview — before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

Open Electives: 8 quarter hours are required
Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95. EE 281 recommended as open elective course. Electives must be approved by the WLE Program director.

Student Teaching: 12 quarter hours required, grade of B- or better required
Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take WLE 384 with student teaching (listed in the Liberal Studies section).

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education French majors must complete the following tests:

- French Content Area Test (test #252) – assesses knowledge of the French language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see above).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

World Language Education German (BA)
The Bachelor of Arts program in World Language Education German prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Learning Outcomes
Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.
College Core Requirements

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Physical Education, Secondary Education, and World Language Education majors only:

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**

• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

**Clinical Requirements**

• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines**

• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.
To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3. This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

**Arts and Literature (AL)** (p. 1174)
- 2 Courses Required

**Historical Inquiry (HI)** (p. 1178)
- 2 Courses Required
  (Note: One must be US History.)

- 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)

- 2 Courses Required:
  - LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
  - 1 Additional Course
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1181)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1183)

- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/ GEO/PHY Course
  (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)

- 2 Courses Required:
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - 1 Additional Course

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Content Area Courses

Note: Language courses begin at the Advanced level for the major. A placement test in the language is required to determine skill level and appropriate level to begin the language. Beginning and Intermediate language courses are in addition to the content area requirements but can fulfill open elective requirements.

Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a world language (Chinese, French, German, Italian, Japanese, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

Open Electives: 8 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95. EE 281 recommended as open elective course. Electives must be approved by the WLE Program director.
Student Teaching: 12 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take WLE 384 with student teaching (listed in the Liberal Studies section).

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education German majors must complete the following tests:

- German Content Area Test (test #253) – assesses knowledge of the German language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see above).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

World Language Education Italian (BA)

The Bachelor of Arts program in World Language Education Italian prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language Italian (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:
• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPs Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.
Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per
the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Liberal Studies Requirements**

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Italian majors must complete the following tests:

- Italian Content Area Test (test #130) – assesses knowledge of the Italian language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see above).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.
World Language Education Japanese (BA)

The Bachelor of Arts program in World Language Education Japanese prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language Japanese (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well-being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher on the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings.

All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.
### Learning Domains

**Arts and Literature (AL)** (p. 1174)
- 2 Courses Required

**Historical Inquiry (HI)** (p. 1178)
- 2 Courses Required
  (Note: One must be US History.)

**Math and Computing (MC)** (https://catalog.depaul.edu/undergraduate-core/liberal-studies-program/liberal-studies-learning-domains/math-and-computing/)
- 2 Courses Required
  [1 CR Course and 1 SR Course]

**Philosophical Inquiry (PI)** (p. 1180)
- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

### Religious Dimensions (RD) (p. 1181)
- 2 Courses Required

### Scientific Inquiry (SI) (p. 1183)
- 2 Courses Required:
  - 1 Bio Course
  - 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

### Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
- 2 Courses Required:
  - PSC 120
  - 1 Additional Course

### Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Major Requirements

#### Course Requirements

**Content Area Courses**

Note: Language courses begin at the Advanced level for the major. A placement test in the language is required to determine skill level and appropriate level to begin the language. Beginning and Intermediate language courses are in addition to the content area requirements but can fulfill open elective requirements.

**Advanced Language Core: 24 quarter hours required, grade of C or better required**

---
must earn a rating of “intermediate high” or better on the test. Pursuing certification in the teaching of a world language (Chinese, French, German, Italian, Japanese, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You are required to complete licensure tests specific to their teaching license. World Language Education Japanese majors must complete the following tests:

- Japanese Content Area Test (test #256) – assesses knowledge of the Japanese language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see above).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

### World Language Education Spanish (BA)

The Bachelor of Arts program in World Language Education Spanish prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require...
students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

*Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.*

**Licensure**

Illinois Professional Educator License with endorsement in Foreign Language Spanish (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

**College Core Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content areas tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in EdTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Experiential Learning

Met by successful completion of required field experience hours.
Senior Year
Capstone

WLE 384 CAPSTONE IN WORLD LANGUAGE EDUCATION 4

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

3 This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1174)
• 2 Courses Required

Historical Inquiry (HI) (p. 1178)
• 2 Courses Required
(Note: One must be US History)

• 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)
• 2 Courses Required:
  • LSE 380
  • 1 Additional Course
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1181)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
• 2 Courses Required:
  • 1 BIO Course
  • 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
• 2 Courses Required:
  • PSC 120
  • 1 Additional Course

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements

Content Area Courses
Note: Language courses begin at the Advanced level for the major. A placement test in the language is required to determine skill level and appropriate level to begin the language. Beginning and Intermediate language courses are in addition to the content area requirements but can fulfill open elective requirements.

### Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a world language (Chinese, French, German, Italian, Japanese, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

### Open Electives: 8 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95. EE 281 recommended as open elective course. Electives must be approved by the WLE Program director.

### Student Teaching: 12 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take WLE 384 with student teaching (listed in the Liberal Studies section).

### Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Spanish majors must complete the following tests:

- Spanish Content Area Test (test #260) – assesses knowledge of the Spanish language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see above).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

### Writing and Publishing (MA)

The Master of Arts in Writing and Publishing offers advanced training in the art and craft of writing poetry, fiction, and nonfiction. The program combines the practical experience of writing workshops and studies in literature with course work in language and style, pedagogy, editing, publishing, and other topics. The Master of Arts in Writing and Publishing attends to publishing as an integral part of the practice of the creative writer and affords interested students the opportunity to gain first-hand experience with various facets of the publishing industry.

The MA in Writing and Publishing seeks to meet the needs of a range of students, including the following:

- Students with interest and experience in creative writing, including fiction, poetry, and a variety of nonfiction genres.
- Professional writers, including freelance writers and staff writers for general and trade publications or the Internet.
- Feature writers for daily, weekly, or monthly newspapers.
- General and specialized editors employed by publishing houses, magazines, and corporations.
- Working professionals for whom high-quality writing is an essential component of their jobs.
- Current and prospective teachers of English and/or writing at the secondary or post-secondary level.
- Students seeking a master’s-level foundation for further graduate work in creative writing, English, teaching, or related fields.

Electives in the MA in Writing and Publishing may be used for graduate certificate programs, such as the Certificate in Teaching English in Two-Year Colleges and the Certificate in Digital Humanities. With planning, combined MA + certificate programs may require no additional coursework to fulfill all requirements.

Students participating in a combined MA + certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Writing and Publishing + Digital Humanities Certificate
- Writing and Publishing + Teaching English in Two-Year Colleges Certificate
- Writing and Publishing + Women’s and Gender Studies Certificate

Courses in the Master of Arts in Writing and Publishing are offered at DePaul’s Lincoln Park campus and online. Check with the program director or www/english-exlibris.com for online offerings.
Learning Outcomes

Students will be able to:

- Create original works of poetry, fiction, and nonfiction.
- Apply skills of narration, description, exposition, and research to their own and others' writing.
- Explain the literary history of the various genres they practice.
- Evaluate and develop new ideas and experiment with form; for example: the prose poem, the short-story cycle, or the lyric essay.
- Apply what they have learned by marketing their work for publication and connecting with literary communities beyond the classroom.

Degree Requirements

Course Requirements

Writing Workshop: 20 hours

- All workshops, except for ENG 480, ENG 487, ENG 490, ENG 491, and ENG 497, are reserved for graduate students in the Department of English.

Any courses in literature if not used to satisfy the Literature category requirement, above

Courses from other programs may be substituted only with approval of program director
Students will be able to:

- Produce clear, cohesive, and precise prose.
- Compose audience-centered texts in a variety of public and professional genres.
- Design persuasive multimodal texts.
- Assess the ethical, cultural, or political dimensions of rhetoric, language, or writing technologies.

**College Core Requirements**

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
• completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Arts and Literature (AL) (p. 1174)
• 3 Courses Required

Historical Inquiry (HI) (p. 1178)
• 2 Courses Required

• 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1180)
• 2 Courses Required

Religious Dimensions (RD) (p. 1181)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1183)
• 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1185)
• 1 Course Required
Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the experiential learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

1 May be repeated for credit when the topic is different.

Major Field Electives
The equivalent of seven additional four-hour electives may be drawn from either of the elective categories above and from the following:
Students must achieve a cumulative GPA of 3.35 by the end of their necessary Liberal Studies Program or Honors Program requirements. To maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework. Key Program Features:

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 603).

Experiential Learning (EL) Requirement

All Writing and Rhetoric majors are required to take one EL-designated course within the major. WRD courses designated both EL and LSP EL will fulfill the major’s EL requirement and the Liberal Studies Experiential Learning requirement simultaneously. A LSP EL course taken outside of WRD will not count toward the EL major requirement.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Writing and Rhetoric 3+3 (BA+JD)

In the 3 + 3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Writing, Rhetoric, and Discourse (MA), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Writing, Rhetoric and Discourse (MA)

Any DePaul student regardless of major may apply for the Combined DePaul Bachelor’s + MA WRD program. If admitted, undergraduate students will be allowed to take up to three courses in the MA WRD during their senior year as open electives in their undergraduate degree program. Final approval of the MA WRD courses as open electives will continue to reside with the college hosting the specific bachelor’s degree program. Writing and Rhetoric majors who choose the BA + MA option may count their three graduate courses as major or open electives. In addition to the credit earned toward their bachelor’s degree, participants will be allowed to double-count the course credit toward the requirements.
of the MA WRD degree program. Current DePaul undergraduate students with junior status (at least 88.0 credits) and a cumulative DePaul grade point average (GPA) of 3.2 are eligible to apply to the Combined DePaul Bachelor’s + MA WRD.

Application Deadlines:
• To begin in Autumn Quarter, for Spring Graduation: April 15
• To begin in Winter Quarter, for Autumn Graduation: November 15
• To begin in Spring Quarter, for Winter Graduation: February 15

Writing and Rhetoric (BA) + Secondary Education English (MED)

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate English major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BA in Writing and Rhetoric and a MED in Education with State of Illinois Secondary English Language Arts licensure. This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

Students may apply to the Program during the spring of their junior year. They must complete the Junior Year Experiential Learning course, TCH 320, and meet other application criteria prior to applying; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a Program capstone course, TCH 390 and three 400-level courses that count toward both their undergraduate and graduate degrees:

### Junior Year Coursework: 4 undergraduate quarter hours required

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach English at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1005) English Majors interested in the TEACH Program should consult Dr. Carolyn Goffman, TEACH Program Advisor for English, at cgoffman@depaul.edu or 773-325-8688.

**Writing, Rhetoric and Discourse (MA)**

The Master of Arts in Writing, Rhetoric, and Discourse (WRD) combines a strong theoretical foundation in rhetoric and discourse with practical training in the areas of teaching writing and language, professional and technical writing, and digital content creation. The program’s mix of theory and practice prepares students to write and to create digital content in professional, technical, or nonprofit settings; to teach writing and English in post-secondary institutions; and to continue academic study in related PhD programs.

The MA in WRD may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- WRD + Digital Humanities Certificate
- WRD + Teaching English to Speakers of Other Languages (TESOL) Certificate
- WRD + Teaching English in Two-Year Colleges Certificate
- WRD + Women's and Gender Studies Certificate
- WRD + Strategic Writing and Advancement for Nonprofit (SWAN) Certificate

**Learning Outcomes**

Students will be able to:

- Describe key concepts, theories, and histories in the study of writing and rhetoric.
- Produce complex written arguments that demonstrate a clear, cohesive, and appropriate written style.
- Design persuasive multimodal texts.
- Assess the ethical, civic, or political dimensions of rhetoric, language, or writing technologies, including dynamics of culture and power.

**Concentration Specific Outcomes**

**Professional & Technical Writing Concentration**

Students will be able to:

- Compose effective texts for specific workplace or professional audiences.

**Teaching Writing & Language Concentration**

Students will be able to:

- Apply current theories and principles of writing pedagogy to the production and analysis of pedagogical materials.

**Degree Requirements**

**Course Requirements**

Students complete 12 courses (48 credits) to graduate from the MA in WRD program. Program requirements vary based on whether or not the student declares a concentration.

Electives (8-32 credits)

- Students who declare a concentration take four elective courses (16 credits); students who do not declare a concentration take eight elective courses (32 credits).
- Students may declare a concentration by completing the LAS Graduate Concentration Declaration (https://lascollege.depaul.edu/ConcentrationDeclaration/Login.aspx).
- All 500-level WRD courses count for elective credit.
- Students who have completed six MA in WRD courses may take up to two courses outside of the MA in WRD for elective credit; the WRD Graduate Committee must approve any course a student wishes to take outside of the department.

Portfolio Requirement

All students will keep a portfolio of significant work done for courses. This work will be curated and submitted as a portfolio at both the midpoint of the program and at its culminating point. For a full description of the portfolio requirement, please download the Portfolio Requirement Guide (https://catalog.depaul.edu/programs/writing-rhetoric-discourse-ma/2020-MAWRD-portfolio-requirement.pdf). For additional resources, please visit the Portfolio (https://wrdblog.org/tag/portfolio/) page on the WRD Blog (https://wrdblog.org/).

Mid-Program Portfolio

After completing the sixth course but before taking the ninth course, all students must submit a portfolio to their advisor and meet with this advisor to discuss both the portfolio and their future plans in the program. The Mid-Program Portfolio must be submitted, discussed with a student’s advisor, and approved before the student can register for their ninth course in the program.

Professional Portfolio

In the final quarter of coursework, all students must submit a Professional Portfolio and reflective essay. The portfolio will be evaluated by the WRD Graduate Committee as “Pass” or “Fail.” A Professional Portfolio that does not initially earn a score of “Pass” must be revised until it does so.

Student Handbook

Probation

To maintain good standing, students must

- Complete at least two courses in WRD within twelve months of their admission to the program; and-
- Maintain an overall grade-point average of at least 3.0 in their course work.

Students whose cumulative GPA falls below 3.0 will be placed on probation and given two quarters to raise their average to the minimum 3.0 level. Students on probation are required to consult with the program director before registering for classes. Failure to meet these requirements constitutes grounds for dismissal.

Dismissal

A student may be dismissed from the program in any of the following cases:

- failure to maintain a GPA above 3.0 for three consecutive quarters;
- failure to meet with the program director before registering for classes while on academic probation; or
- failure to complete at least two courses in WRD within twelve months of their admission to the program.

Readmission

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal application process.

Transfer Credit

Students may transfer up to 12 credits (or three courses) of relevant coursework taken in another program.

Students may not transfer credits taken in pursuit of a completed degree or certificate. The exact number of credits and courses that transfer
Financial Assistance

Graduate Assistantships/Fellowships

One or two graduate assistantship (GA) positions and two Partial Tuition Fellowships (PTFs) are typically available for MA in WRD students on an annual basis. Details regarding upcoming GA and PTF opportunities are available on the Financial Assistance (https://las.depaul.edu/academics/writing-rhetoric-and-discourse/student-resources/graduate-resources/Pages/graduate-assistantships.aspx) page of the WRD website.

Partial Tuition Waivers

Partial Tuition Waivers (PTW) are awarded quarterly to eligible students. Eligibility is based on GPA and financial need. There is no limit to the number of times that an eligible student may apply for and receive a PTW award during their MA degree. Only WRD courses are eligible for PTW reimbursement awards.

To apply for a PTW award, students must complete the application form circulated by the MA in WRD Program Director at the end of week two of each quarter.

Internships

Internships in professional or digital writing (WRD 590) or in teaching (WRD 591) can be completed for credit. Students interested in completing an internship should visit the professional internships (https://las.depaul.edu/academics/writing-rhetoric-and-discourse/student-resources/Pages/professional-internships.aspx) page for more information on the internship process. In some cases, students may be eligible for a Community- and Project-Based Learning (CPBL) Internship Scholarship (https://las.depaul.edu/student-resources/internships/Pages/cpbl-internship-scholarships.aspx)—a competitive award from the College of Liberal Arts and Social Sciences—to offset the cost of the internship course.

Independent Studies

WRD 595 Independent Study (https://catalog.depaul.edu/search/?P=WRD%20595) is offered to allow students the opportunity to explore specific interests for which a formal WRD course is not offered. In general, WRD 595 courses will count as electives in a student's degree program. WRD 595 can only fulfill area requirements (Rhetoric & Discourse or a concentration area) when these requirements cannot be filled through a formal course (e.g., because such a course is not offered).

A WRD graduate faculty member with expertise in the proposed topic typically serves as the instructor of record for WRD 595. The student should meet with the faculty member to discuss their ability to lead the independent study. The student and instructor should work together to develop course materials for the independent study, including learning outcomes, schedule, readings, and project descriptions. In addition to the course materials, the student should write a 250-word rationale explaining why they are requesting the independent study and how it fits within their course of study in the program and professional or academic goals. All materials should be emailed to the Director of the MA in WRD at least four weeks prior to the start of the quarter in which the independent study is to occur. The WRD Graduate Committee will review the materials for the independent study. The WRD Graduate Committee may return the materials with instructions for revisions; revised materials should be submitted to the MA WRD Director no less than two weeks prior to the start of the quarter.

If the independent study is approved, the student will be asked to make a 20-minute presentation about their scholarship to an audience of interested students and faculty near the end of the quarter in which the independent study is completed.

If a student wishes to complete a WRD 595 course with a non-WRD graduate faculty member, the student should consult with the Director of the MA in WRD.

Graduate Assistantships/Fellowships

One or two graduate assistantship (GA) positions and two Partial Tuition Fellowships (PTFs) are typically available for MA in WRD students on an annual basis. Details regarding upcoming GA and PTF opportunities are available on the Financial Assistance (https://las.depaul.edu/academics/writing-rhetoric-and-discourse/student-resources/graduate-resources/Pages/graduate-assistantships.aspx) page of the WRD website.

Partial Tuition Waivers

Partial Tuition Waivers (PTW) are awarded quarterly to eligible students. Eligibility is based on GPA and financial need. There is no limit to the number of times that an eligible student may apply for and receive a PTW award during their MA degree. Only WRD courses are eligible for PTW reimbursement awards.

To apply for a PTW award, students must complete the application form circulated by the MA in WRD Program Director at the end of week two of each quarter.

Internships

Internships in professional or digital writing (WRD 590) or in teaching (WRD 591) can be completed for credit. Students interested in completing an internship should visit the professional internships (https://las.depaul.edu/academics/writing-rhetoric-and-discourse/student-resources/Pages/professional-internships.aspx) page for more information on the internship process. In some cases, students may be eligible for a Community- and Project-Based Learning (CPBL) Internship Scholarship (https://las.depaul.edu/student-resources/internships/Pages/cpbl-internship-scholarships.aspx)—a competitive award from the College of Liberal Arts and Social Sciences—to offset the cost of the internship course.

Independent Studies

WRD 595 Independent Study (https://catalog.depaul.edu/search/?P=WRD%20595) is offered to allow students the opportunity to explore specific interests for which a formal WRD course is not offered. In general, WRD 595 courses will count as electives in a student's degree program. WRD 595 can only fulfill area requirements (Rhetoric & Discourse or a concentration area) when these requirements cannot be filled through a formal course (e.g., because such a course is not offered).

A WRD graduate faculty member with expertise in the proposed topic typically serves as the instructor of record for WRD 595. The student should meet with the faculty member to discuss their ability to lead the independent study. The student and instructor should work together to develop course materials for the independent study, including learning outcomes, schedule, readings, and project descriptions. In addition to the course materials, the student should write a 250-word rationale explaining why they are requesting the independent study and how it fits within their course of study in the program and professional or academic goals. All materials should be emailed to the Director of the MA in WRD at least four weeks prior to the start of the quarter in which the independent study is to occur. The WRD Graduate Committee will review the materials for the independent study. The WRD Graduate Committee may return the materials with instructions for revisions; revised materials should be submitted to the MA WRD Director no less than two weeks prior to the start of the quarter.

If the independent study is approved, the student will be asked to make a 20-minute presentation about their scholarship to an audience of interested students and faculty near the end of the quarter in which the independent study is completed.

If a student wishes to complete a WRD 595 course with a non-WRD graduate faculty member, the student should consult with the Director of the MA in WRD.

Graduate Assistantships/Fellowships

One or two graduate assistantship (GA) positions and two Partial Tuition Fellowships (PTFs) are typically available for MA in WRD students on an annual basis. Details regarding upcoming GA and PTF opportunities are available on the Financial Assistance (https://las.depaul.edu/academics/writing-rhetoric-and-discourse/student-resources/graduate-resources/Pages/graduate-assistantships.aspx) page of the WRD website.

Partial Tuition Waivers

Partial Tuition Waivers (PTW) are awarded quarterly to eligible students. Eligibility is based on GPA and financial need. There is no limit to the number of times that an eligible student may apply for and receive a PTW award during their MA degree. Only WRD courses are eligible for PTW reimbursement awards.

To apply for a PTW award, students must complete the application form circulated by the MA in WRD Program Director at the end of week two of each quarter.

Internships

Internships in professional or digital writing (WRD 590) or in teaching (WRD 591) can be completed for credit. Students interested in completing an internship should visit the professional internships (https://las.depaul.edu/academics/writing-rhetoric-and-discourse/student-resources/Pages/professional-internships.aspx) page for more information on the internship process. In some cases, students may be eligible for a Community- and Project-Based Learning (CPBL) Internship Scholarship (https://las.depaul.edu/student-resources/internships/Pages/cpbl-internship-scholarships.aspx)—a competitive award from the College of Liberal Arts and Social Sciences—to offset the cost of the internship course.

Independent Studies

WRD 595 Independent Study (https://catalog.depaul.edu/search/?P=WRD%20595) is offered to allow students the opportunity to explore specific interests for which a formal WRD course is not offered. In general, WRD 595 courses will count as electives in a student's degree program. WRD 595 can only fulfill area requirements (Rhetoric & Discourse or a concentration area) when these requirements cannot be filled through a formal course (e.g., because such a course is not offered).

A WRD graduate faculty member with expertise in the proposed topic typically serves as the instructor of record for WRD 595. The student should meet with the faculty member to discuss their ability to lead the independent study. The student and instructor should work together to develop course materials for the independent study, including learning outcomes, schedule, readings, and project descriptions. In addition to the course materials, the student should write a 250-word rationale explaining why they are requesting the independent study and how it fits within their course of study in the program and professional or academic goals. All materials should be emailed to the Director of the MA in WRD at least four weeks prior to the start of the quarter in which the independent study is to occur. The WRD Graduate Committee will review the materials for the independent study. The WRD Graduate Committee may return the materials with instructions for revisions; revised materials should be submitted to the MA WRD Director no less than two weeks prior to the start of the quarter.

If the independent study is approved, the student will be asked to make a 20-minute presentation about their scholarship to an audience of interested students and faculty near the end of the quarter in which the independent study is completed.

If a student wishes to complete a WRD 595 course with a non-WRD graduate faculty member, the student should consult with the Director of the MA in WRD.
After receiving approval from the Graduate Committee, the student must request registration online. Registration should be completed one week before the beginning of the quarter. After online approval by the course instructor and Director of the MA in WRD, the student will be enrolled in WRD 595.

UNDERGRADUATE CORE

Undergraduates at DePaul take their general education courses in the Liberal Studies Program or the Honors Program. The only exception is students in the School of Continuing and Professional Studies. ¹

Liberal Studies

The Liberal Studies Program (LSP) is the general education program for students in the eight undergraduate colleges at DePaul. It is designed to develop students’ writing abilities, computational and technological proficiencies, and critical and creative thinking skills along while also introducing subjects to subject matter across a variety of disciplines. The LSP aligns with values central to DePaul’s unique Catholic, Vincentian, and urban mission.

The LSP is organized into two kinds of curricular experience: the Core and the Learning Domains.

The Core is intended to serve as a sequential set of common experiences – a kind of through-line of student development – ranging from first-year courses focused on the city and the campus (Discover/Explore Chicago) and fundamental skills of writing and quantitative reasoning, through focused multicultural engagement and experiential learning to a Senior Capstone near the end of the degree.

The Learning Domains introduce students to a breadth of knowledge across seven categories. These include: Arts and Literature (AL), Historical Inquiry (HI), Math and Computing (MC), Philosophical Inquiry (PI), Religious Dimensions (RD), Scientific Inquiry (SI), and Social Cultural and Behavioral Inquiry (SCBI).

University Honors Program

The Honors curriculum replaces the Liberal Studies requirements for students in the Honors Program. Honors students complete the same number of general education courses as students in the Liberal Studies Program, but the course requirements are different. The Honors curriculum stresses seminar-based coursework, interdisciplinary learning, and advanced research opportunities for highly motivated students.

To reinforce its alignment with DePaul’s mission and values, the Liberal Studies Program has adopted the University’s six Learning Goals as its own:

1. Mastery of Content
2. Intellectual and Creative Skills
3. Personal and Social Responsibility
4. Intercultural and Global Understanding
5. Integration of Learning
6. Preparation for Career and Beyond

In its variety of intentional learning experiences, the Liberal Studies program is greater than the sum of its parts; it establishes a cumulative foundational experience that helps DePaul students shape purposeful lives and rewarding careers to benefit society in recognition of the dignity of all people.

Curriculum

The Liberal Studies Program (LSP) has two primary components. The first is termed the Common Core, and consists of a series of classes taken sequentially by students as they progress towards their degree. Core requirements begin for incoming students in their first autumn quarter when all take a Chicago Quarter (CQ) course. From over a hundred different topic offerings, each student selects a single class that is either Discover Chicago, which includes an intensive immersion week experience prior to the start of fall classes, or Explore Chicago, which meets during the regular fall term. Regardless of type, all CQ instructors use both traditional and experiential pedagogies to teach students not only relevant course content, but also information about the City’s people, communities, institutions, and system of public transportation. All CQ classes also include a co-curricular component called the Common Hour, which is designed to facilitate students’ transition to the college experience, and give them initial exposure to DePaul’s distinctive mission.

Another Common Core requirement in the first year is First-year Writing. The WRD 103-WRD 104 sequence introduces students to different conventions of writing and instructs them how to analyze readings, to write for different audiences, and to take a rhetorical stance in their scholarly papers. (Students taking WRD 103 and/or WRD 104 at DePaul must receive grades of C- or better.) Upon successful completion of First-year Writing, students have the ability to express themselves creatively and can defend and document a clearly articulated thesis in a scholarly paper. The Focal Point Seminar (see College requirements) further emphasizes different forms of writing, oral communication skills,
and seminar behavior, such that they are able to intellectually discuss and debate beyond their own opinions. Lastly, first-year students take (depending on College/major requirements) a Quantitative Reasoning course designed to develop numerical reasoning.

Students continue to take Common Core courses based on their class standing. In the second year, the requirement is the Seminar on Multiculturalism in the U.S. This seminar draws students into key debates about multiculturalism and encourages critical thinking and reflection in a diverse workplace and society. The LSP requirement for the junior year is an Experiential Learning course, which can take the form of doing laboratory or field research, studying abroad, engaging in community service, or completing an internship in a field of study. Students connect their experiences to in-class readings and writing assignments. The final Common Core course is the Senior Capstone, which enables students to synthesize the methods and knowledge learned in their major field of study courses into a final project, while reflecting upon the values and content of their liberal studies classes.

The second component of the LSP is made up of seven distinct Learning Domains:

1. Arts and Literature
2. Historical Inquiry
3. Math and Computing
4. Philosophical Inquiry
5. Religious Dimensions
6. Scientific Inquiry, and
7. Social, Cultural, and Behavioral Inquiry

These Domains reflect a conventional liberal arts and sciences curriculum, yet are not based in any one discipline. Within any single Domain, basic criteria, learning outcomes, and modes of inquiry are shared, but the courses themselves come from many different departments, programs, and Colleges across the University. By having such broadly defined Learning Domains, students receiving a liberal education at DePaul are assured a breadth of pedagogical experiences but also enjoy great latitude in selecting, experiencing, and applying the many types of intellectual inquiry taking place in a modern university.

Liberal Studies Program Essential Learning Outcomes

Preamble
DePaul’s Catholic, Vincentian, and urban character distinguishes its students’ experiences. In turn, its Liberal Studies Program connects students – in progressively more integrated ways – to the university’s mission and to values associated with social justice, diversity, and the desire to work toward socially and environmentally sustainable communities.

To prepare its students to understand, engage, and effect change as global citizens, these revised Liberal Studies Program learning goals and outcomes provide students with an integrative and intellectually challenging education. The rhetorical, creative, intellectual, analytical, quantitative, and interdisciplinary knowledge gained from the program’s connected coursework facilitates success as students and as lifelong learners. The Liberal Studies Program supports the student’s academic major with learning across disciplines – both in and beyond the classroom.

Faculty from virtually every department, interdisciplinary program, and college teach over 1,400 different courses from which students can choose to fulfill their Liberal Studies Program requirements. This wide spectrum of participation on the part of students and faculty alike contributes to a strong sense of intellectual community at DePaul University as well as a shared commitment to its mission and values.

Goal 1. Mastery of Content
This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul students will demonstrate and be able to apply:

- general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
- specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills
In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul students will be able to:

- systematically access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying assumptions and formulate conclusions.
- solve quantitative problems.
- create and support arguments using a variety of approaches.
- use existing knowledge to generate and synthesize ideas in original ways.
- communicate clearly in speech and writing.

Goal 3. Personal and Social Responsibility
This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular, are challenged to consider their own values in light of the university’s mission.

Outcomes: DePaul students will be able to:

- articulate their own and others’ beliefs about what it means to be human and to create a just society.
- articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
- evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
- benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding
This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul students will demonstrate:
• respect for and learning from the perspectives of others different from themselves.
• knowledge of global interconnectedness and interdependencies.
• knowledge to become a steward of global resources for a sustainable future.

**Goal 5. Integration of Learning**

Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul students will be able to:

• relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
• make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
• design, develop, and execute a significant intellectual project.

**Goal 6. Preparation for Career and Beyond**

This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul students will be able to:

• set goals for future work that are the result of realistic self-appraisal and reflection.
• articulate their skills and knowledge and represent themselves to external audiences.
• work toward goals independently and in collaboration with others.
• employ technology to create, communicate, and synthesize ideas.
• set priorities and allocate resources.
• apply strategies for a practice of life-long learning.

**Additional Notes**

The revised learning goals and outcomes are derived from national research and best practices surrounding liberal education. Building on the four pre-existing LSP meta-goals reflectiveness, value consciousness and ethical reasoning, multicultural perspective, and creative and critical thinking), and recognizing the challenges and opportunities of the contemporary world, these revisions amplify the four traditional outcomes of a liberal education while engaging DePaul University’s mission throughout the program.

**Liberal Studies Common Core**

The Liberal Studies Common Core consists of a series of classes taken sequentially by students as they progress towards their degree.

• First Year Program (p. 1167)
• Seminar on Multiculturalism in the United States (p. 1169)
• Experiential Learning (p. 1170)
• Senior Capstone (p. 1173)

**First Year Program**

The First Year Program in the Common Core is made up of the Chicago Quarter (Discover or Explore Chicago), the Focal Point Seminar, First Year Writing, and Quantitative Reasoning.

The First Year experience begins when incoming students in autumn take a Chicago Quarter (CQ) course. From over a hundred different topic offerings, students select either Discover Chicago, which includes an intensive immersion week experience prior to the start of fall classes, or Explore Chicago, which meets during the regular fall term. Regardless of type, CQ instructors use both traditional and experiential pedagogies to teach students not only relevant course content, but also information about the city’s people, communities, institutions, and system of public transportation. All CQ classes further include a co-curricular component called the Common Hour, which is designed to facilitate students’ transition to the college experience, and give them initial exposure to DePaul’s distinctive mission.

Students take additional Common Core courses during their first year. The WRD 103-WRD 104 sequence introduces different conventions of writing, and instructs students on how to analyze readings, write for different audiences, and take a rhetorical stance. Some students may be required to take preparatory writing classes before being eligible to enroll in WRD 103.

Offered during winter and spring quarters, each Focal Point Seminar employs a multi-disciplinary approach to investigate a significant person, place, event, text, or idea. As with the Chicago Quarter, students may choose from an array of more than 100 course offerings taught by faculty from throughout the university. Focal Point courses stress seminar behavior: active learning through critical questioning, speaking, listening and discussion driven by ideas gleaned from readings that include original works, primary sources and secondary literature. Writing and revision further sharpen the academic skills needed to succeed in and get the most out of college.

Lastly, first-year students take Quantitative Reasoning (LSP 120) designed to teach them how to critically evaluate real-world issues and problems by applying quantitative reasoning and analyzing quantitative information. Some students may be required to take preparatory math classes before being eligible to enroll in LSP 120, while other students may have this course met by AP scores, transfer credit, or proficiency tests. Not all majors require LSP 120.

Chicago Quarter

Offered during the autumn quarter, Chicago Quarter courses acquaint first-year students at DePaul with the metropolitan community, its neighborhoods, cultures, people, institutions, organizations and issues. It is through these classes that students make first contact with both the university’s urban identity and its Vincentian mission. Students also learn about university life, resources, and how to be a successful student. This learning is accomplished through a variety of means, but particularly through first-hand observation, participation, personal discovery, reflection, discussion, and guest lectures.

To fulfill the Chicago Quarter requirement, students select either Discover Chicago or Explore Chicago. Discover Chicago includes an intensive immersion week experience prior to the start of fall classes. Whereas Explore Chicago meets during the regular fall term and includes excursions throughout the quarter.

The Chicago Quarter requirement in the Liberal Studies Program comprises a choice between the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSP 110</td>
<td>DISCOVER CHICAGO</td>
<td>4</td>
</tr>
<tr>
<td>LSP 111</td>
<td>EXPLORE CHICAGO</td>
<td>4</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- integrate, in writing, the academic content with student experiences engaging with Chicago;
- articulate the connection between course content and DePaul University’s mission; and
- use Chicago resources in their coursework.

Focal Point Seminar

Offered during winter and spring quarters, each Focal Point Seminar employs a multi-disciplinary approach to investigate a significant person, place, event, text, or idea. As with the Chicago Quarter, students may choose from an array of more than 100 course offerings taught by faculty from throughout the university.

A guiding principle is that understanding is deepened when the perspectives of various disciplines and methodologies are brought to bear upon the same issue. The faculty member who leads each seminar draws on his or her different experiences and intellectual perspectives, with the result that students learn how scholars strive to understand a singular topic in increasingly focused ways.

The second guiding principle is that students benefit from an early introduction to the seminar approach utilized frequently in higher education. Focal Point courses stress seminar behavior: active learning through critical questioning, speaking, listening and discussion driven by ideas gleaned from readings that include original works, primary sources and secondary literature. Writing and revision further sharpen the academic skills needed to succeed in and get the most out of college. To foster seminar behavior and encourage a mentoring relationship between faculty and students, enrollment in each class is limited to 20 students.

The Focal Point Seminar requirement in the Liberal Studies Program comprises many topics in the following course:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSP 112</td>
<td>FOCAL POINT SEMINAR</td>
<td>4</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Discuss and analyze work from at least three different fields in their written work for the course.
- Participate actively in advancing the collective intellectual understanding of the course topic through class discussions.
- Distinguish between primary and secondary sources, and assess varying degrees of mediation and interpretation in specific source materials.
- Construct arguments based on evidence and the work and interpretations of other sources.
- Revise papers in response to the instructor’s comments.
- Produce a project with a central argument, in which all parts of the project support the central argument.

Quantitative Reasoning

The purpose of the Quantitative Reasoning requirement in the Liberal Studies Program at DePaul is to help students to become confident, critical, and capable users of quantitative information of all kinds. Quantitative Reasoning provides a foundation in quantitative skills for students for their other Liberal Studies courses, for their disciplinary courses at DePaul, for their careers, and for their personal lives.

The program addresses the need for quantitative and numerical literacy in response to the enormous expansion in the use of quantitative methods and information in the social and physical sciences as well as civic and work life. The use and misuse of quantitative information in public policy and scientific issues are particularly emphasized; students are taught to recognize the limitations of the quantitative methods as well as the insights they provide. Students learn by working with data sets from many different disciplines, such as psychology, environmental science, economics, finance, sociology, and history. Students write critiques of quantitative arguments, gather data, and present arguments of their own. The course is taught by instructors from across disciplines.

Preferably in their first year, students take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSP 120</td>
<td>QUANTITATIVE REASONING</td>
<td>4</td>
</tr>
</tbody>
</table>

Some students may be required to take preparatory math classes before being eligible to enroll in LSP 120. Readiness for LSP 120 is determined by a math placement test taken online after admission. Some students may meet the requirement by AP score, transfer credit, or proficiency exam. Certain majors do not require LSP 120. Students are advised to consult their advisor and the University Catalog for the particular Liberal Studies requirements for their major.
QR and MCD Waiver
Depending on a student's program of study, they may need to take LSP 120 - Quantitative Reasoning. Readiness for LSP 120 is determined by the math placement test taken on admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and also successfully complete required work in the Math and Computing Domain (both Computational Reasoning and Statistical Reasoning categories) may take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and it may not be applied to the Scientific Inquiry Domain.

Proficiency Exam
The Quantitative Reasoning Proficiency Exam may be taken at any time by any student. A student who passes the Proficiency Exam is exempt from the QR requirement. Passing the exam earns no credit hours; a student who passes the exam will have an additional open elective in his or her program.

Learning Outcomes
Students will be able to:

- Use proportional reasoning and percent change to analyze data in context.
- Make appropriate and effective graphs to communicate and visualize quantitative information.
- Critique graphs and charts in the media.
- Recognize disaggregation as a factor in interpreting data.
- Use and interpret linear and exponential models.
- Make algebraic calculations within a spreadsheet using cell addresses and formulas and use statistical, logical, and financial functions.
- Critically assess the sources, importance and factual accuracy of quantitative information.
- Make effective quantitative analyses in written form with supporting graphs and/or tables.

First Year Writing
The First-Year Writing Program, a unit within the department of Writing, Rhetoric, and Discourse, provides courses to nearly all university students. The goal of First-Year Writing is to help students learn to read and write critically within the context of the university and to prepare them for reading and writing in the world beyond.

The First-Year Writing requirements in the Liberal Studies Program comprises the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRD 103</td>
<td>COMPOSITION AND RHETORIC I</td>
<td>4</td>

<td>or WRD 103X</td>
<td>COMPOSITION AND RHETORIC I (FOR NON-NATIVE SPEAKERS)</td>
<td></td>
</tr>
<tr>
<td>WRD 104</td>
<td>COMPOSITION AND RHETORIC II</td>
<td>4</td>
</tr>
<tr>
<td>or WRD 104X</td>
<td>COMPOSITION &amp; RHETORIC II (FOR NON-NATIVE SPEAKERS)</td>
<td></td>
</tr>
</tbody>
</table>

Some students may be required to take preparatory writing classes before being eligible to enroll in WRD 103 COMPOSITION AND RHETORIC I, while other students may have one or both FYW courses met by AP scores or transfer credit.

Learning Outcomes
Students will be able to:

- Identify and use key rhetorical concepts, including purpose, audience, and context, through analyzing and composing a variety of texts.
- Integrate critical thinking, reading, and writing.
- Reflect on and develop their own writing processes.
- Appropriately apply knowledge of linguistic structures, genre, and citation.

Seminar on Multiculturalism in the United States
Each LSP 200 seminar addresses a dimension of multiculturalism, such as ethnicity, race, class, gender, language, religion, and sexual orientation, within the context of the United States. Students practice seminar behavior (including class discussion, active listening, and participation) to communicate ideas appropriately for a given audience and setting, and develop the skills to address specific problems through independent intellectual inquiry. Students gain a critical perspective about the historical roots of inequality along with an understanding of the lasting effects of oppression on marginalized groups in society today. Through such analysis, an appreciation of the experiences of various cultural groups is acquired.

Learning Outcomes
Students will be able to:

- Understand the historical debates about and values of multiculturalism. The course will compare at least three different dimensions of multiculturalism, such as ethnicity, race, gender, class, language, and sexuality.
- Develop, through self-reflection and critical analysis, alternative perspectives on the historical roots of inequality along with an understanding of the lasting effects of oppression on marginalized groups.
- Critically analyze multiple sources of information (from, for example, relevant databases and other reference works, primary and secondary sources, community knowledge, etc.) in order to form clear, concise arguments about multicultural issues and to interpret evidence from a variety of points of view.
- Advance collective intellectual understanding —through discussion, group work, active listening and speaking — and use information to address problems and issues related to social inequality, conflict and diversity.

Topics
Below please find examples of previously offered topics for Seminar on Multiculturalism in the United States. For information on current offerings, please consult Campus Connect or the Liberal Studies Program website (https://academics.depaul.edu/liberal-studies/courses-and-requirements/Pages/LSP-200-Course-Descriptions.aspx).
Experiential Learning

The Experiential Learning requirement engages students in the first-hand discovery of knowledge through observation and participation in activities, most often in field-based settings outside the classroom. This inductive process of “learning by doing and reflecting” is supported by theory-based information. In these courses, students compare and analyze issues, problems, and ideas through the lenses of their own personal experiences and evolving intellectual worldview.

Experiential Learning may take place in a regularly scheduled course, an approved internship, a Study Abroad course, or in an independent study approved on a case-by-case basis (utilizing the proper Independent Study Approval Form). All such courses may be offered in the student’s major and may count for both major field and Liberal Studies requirements. When more than four credit hours are earned from such an experience – for example, an eight-hour internship – four hours may be counted toward Liberal Studies requirements and four hours toward major program requirements. Experiential Learning is typically taken in the junior year as major field or other foundational knowledge is essential to ensure a successful outcome.

Forms of Experiential Learning

Study Abroad

Study Abroad programs emphasize social, political, historical and cultural understanding through a total immersion into the life and culture of a foreign country. Study trips abroad range in duration from two weeks to a full academic year.

Students who participate in non-DPU study abroad programs for transfer credit must petition their respective colleges for Experiential Learning credit.

Domestic Study

For students interested in diverse populations and locations outside Chicago yet within the United States, domestic study courses offer the opportunity to pursue such inquiry.

Community-Based Service Learning

Community-based Service Learning courses provide students with the opportunity to work with a community organization or agency and to reflect upon what they have learned through this service in class.
discussions. Opportunities are available through the Steans Center for Community-Based Service Learning.

**Internships**

Internship courses offer students the opportunity to gain real world experience in hiring, employment, communication, and the culture of businesses or organizations. Students who apply and receive internship opportunities through the University Internship Program register for UIP 250. In addition, some Colleges and departments offer 200-level and 300-level internships that satisfy the experiential learning requirement.

**Individual or Group Research Projects**

These research projects involve extensive field or laboratory work. The projects are supervised, evaluated and graded by a faculty member.

**Learning Outcomes**

Students will be able to:

- Apply particular concepts from readings, lectures, etc. to an analysis of lived experiences in the settings provided by the course.
- Use the experiences provided by the course to construct and articulate the impact of their experience on their understanding of course content.
- Demonstrate an understanding of the ethics appropriate to his or her experiential placement.
- Synthesize and articulate how the ideas and experiences provided by the course might inform their personal, academic, and/or professional pursuits.

**Courses**

Below please find examples of courses previously offered for Experiential Learning. For information on current offerings, please consult Campus Connection.

Senior Capstone

The Senior Capstone experience allows students to explore substantive areas of scholarship and creative works within their major. Students are given the opportunity to create knowledge within the context of the ideas, perspectives, and research of others in the discipline. The Capstone further provides students the opportunity to integrate and compare knowledge gained from their major with that which was learned in the domain area and core courses of the Liberal Studies Program. In this culminating experience, students create, under the mentorship of a faculty member, a final project of their own design.

Learning Outcomes

Students will be able to:

• Apply one or more theories or concepts from courses within their major to an analysis of a particular issue relevant to the major.
• Identify an idea, method, or concept from a discipline outside their major field of study and be able to apply it within the context of their major field of study.
• Examine how their previous coursework, including Liberal Studies courses, has contributed to their intellectual development and/or their post-graduation plans.

Courses

Below please find examples of courses previously offered for Capstone credit. For information on current offerings, please consult Campus Connect.

Liberal Studies Learning Domains

- Arts and Literature (p. 1174)
- Historical Inquiry (p. 1178)
- Philosophical Inquiry (p. 1180)
- Religious Dimensions (p. 1181)
- Scientific Inquiry (p. 1183)
- Social, Cultural, and Behavioral Inquiry (p. 1185)

Arts and Literature

Courses in the Arts and Literature domain ask students to extend their knowledge and experience of the arts while developing their critical and reflective abilities. In these courses, students interpret and analyze particular creative works, investigate the relations of form and meaning, and through critical and/or creative activity, come to better understand the original audience that witnessed a work of art and how its meaning and significance changes over time. These courses focus on works of art or literature, however the process of analysis may include social, cultural, and historical issues. Genres covered in this domain include literature, the visual arts, media arts, the performing arts, music, and theater.

Learning Outcomes

Students will be able to:

- Explain, in well-written prose, what a work of art is about and how it was produced
- Articulate and explain the “content” of that work and its methodology of production.
- Comment on the relationship between form and content in a work.
  - How does the 14-line sonnet both enable and inhibit its practitioner, for example?
  - What are the generic expectations of a particular form?
  - How does an artist complicate, enrich, or subvert such expectations?
- Assess the formal aspects of their subject and put those qualities into words, using, when appropriate, specialized vocabulary employed in class and readings.
- Contextualize a work of art.
  - Do so with respect to other works of art in terms of defining its place within a broader style or genre.
  - Contextualize a work of art in terms of contemporaneous aesthetic, social, or political concerns, discussing how these might shape the work's reception and how that reception might differ amongst various peoples and historical periods.

Historical Inquiry

Courses in the Historical Inquiry domain study human life in past societies (primarily pre-1945) as a process of continuity and change over time. Many of the documents that mediate the past to us have considerable aesthetic or intellectual value in and of themselves. However, courses in this learning domain examine texts, art works, and other forms of evidence less for their aesthetic or intellectual value than for their usefulness as tools for reconstructing aspects of the past and building sensible, defensible, and well-informed historical interpretations about the past and about causation in the past. Students generally take two courses in the HI Domain Area.

Learning Outcomes

Students will be able to:

- Demonstrate a depth and breadth of historical knowledge of specified content by:
  - Explaining historical developments in terms of continuity and change.
  - Describing the relevant political, economic, social, and/or cultural contexts of historical events and developments.
  - Explaining how people have lived, acted, and thought in one or more particular historical periods.
- Demonstrate historical skills by:
  - Analyzing and evaluating primary and secondary sources.
  - Differentiating between historical facts and historical interpretations.
  - Articulating a historical argument.
  - Supporting an interpretation with evidence from primary and secondary sources.
- Demonstrate historical thinking by:
  - Articulating how geography and regional differences affect the past.
  - Interpreting the complexity and diversity among issues, events, and ideas of the past.
  - Distinguishing among multiple perspectives that shape interpretations of the past.
  - Using the categories of race, gender, class, ethnicity, region, and religion to analyze historical events and developments.

Courses

Below please find examples of courses previously offered for Historical Inquiry domain credit. For information on current offerings, please consult Campus Connection.

Philosophical Inquiry

Courses in the Philosophical Inquiry domain address conceptual issues fundamental to reflection on such philosophical topics as:

- metaphysics (e.g., being and nonbeing, the one and the many, the nature of reality, same and other, self and other);
- epistemology (e.g., the nature and possibility of knowledge, different ways of knowing, knowledge vs. opinion, truth and falsity);
- ethics (e.g., right and wrong action, good and bad, objectivism and relativism in ethics, social and political philosophies, the idea of value, the problem of evil); and
- aesthetics (e.g., the nature of beauty, aesthetic value, the possibility of aesthetic valuation).

Courses address questions of how such topics impinge upon, shape, and challenge student lives.

Learning Outcomes

Students will be able to:

- Address, critically think about, and analyze philosophical questions and problems.
- Evaluate philosophical questions, issues and/or problems using informed judgment.
- Analyze and interpret the methods used by philosophers in addressing philosophical questions, issues, and/or problems.
- Engage with philosophical topics and figures in their historical context.
- Confront and interpret primary texts from the philosophical tradition.
- Write an analytic essay treating a philosophical question, issue and/or problem that forwards an identifiable thesis, argument, and conclusion.
myth, symbol, ritual and doctrine, these religions not only provide order and meaning, they also carry capacities to challenge and transform individuals and societies. Intellectual and social maturity requires understanding the unique contributions, both positive and negative, of the religious traditions of the world to culture and consciousness as well as coming to terms with ultimacy. This Learning Domain offers courses with a comparative, thematic, or ethical focus, as well as courses in specific traditions.

**Learning Outcomes**

Students will be able to:

- Explain beliefs and practices of one or more religious traditions in their specific social and cultural contexts.
- In courses in which the focus is on one religious tradition, describe the diversity of strands within the tradition and explain with significant depth the modes of interpretation of the world the tradition offers both to adherents and to others.
- Identify religious modes of thinking, acting, and feeling such as: myth and narrative, symbol, ritual, law, doctrine, ethics, religious experience.
- Analyze the impact of religion on personal as well as communal dimensions of human life, including for example the relationship between religion and power, social integration, social transformation, and social justice.

**Courses**

Below please find examples of courses previously offered for religious dimensions credit. For information on current offerings, please consult campus connection.

**Religious Dimensions**

Courses in the Religious Dimensions domain offer students the opportunity to explore the explicitly religious dimensions of life and culture. These dimensions are found in the culturally embedded narratives, beliefs and practices of particular religions, as well as in encounters with realities perceived to be ultimate or sacred. Through
Courses in the Scientific Inquiry (SI) domain are designed to provide students with an opportunity to learn the methods of modern science and its impact in understanding the world around us. Courses are designed to help students develop a more complete perspective about science and the scientific process, including:

- an understanding of the major principles guiding modern scientific thought;
- a comprehension of the varying approaches and aspects of science;
- an appreciation of the connection among the sciences;
- an awareness of the roles and limitations of theories and models in interpreting, understanding, and predicting natural phenomena; and
- a realization of how these theories and models change or are supplanted as our knowledge increases.

Where required, Quantitative Reasoning (LSP 120) is a prerequisite for SI Domain courses. Generally, two SI courses are required; depending on their program of study students may be required to take a designated SI Science as a Way of Knowing (SWK) or SI Lab, or both. The QR and MCD waiver cannot be applied to the SI Domain.

**Learning Outcomes**

**Scientific Inquiry: Science as a Way of Knowing**

Students will be able to:

- Identify the types of questions that can and cannot be answered by science, and recognize the strengths and limitations of science in answering questions about the natural world.
- Critically evaluate the assumptions that underlie scientific investigations.
- Substantiate the claim that scientific knowledge is durable but can evolve with new evidence and perspectives.
- Connect evidence to the predictions made by theories and hypotheses, and then assess the extent to which the presented evidence supports or refutes a scientific claim.
- Evaluate the role of creativity, curiosity, skepticism, open-mindedness and diligence of individuals in scientific discovery and innovation.
- Recognize the uncertainty inherent in the scientific approach and evaluate scientists’ efforts to minimize and understand its effect through experimental design, data collection, data analysis and interpretation.
- Evaluate the role of communication, collaboration, diversity and peer review in promoting scientific progress and the quality of scientific evidence and ideas, and ensuring compliance with ethical standards.
- Determine the extent to which science both influences and is influenced by the societies
- Apply scientific approaches to problem solving and decision-making in their own lives, and evaluate how scientific knowledge informs policies, regulations, and personal decisions.

**Scientific Inquiry: Lab**

Students will be able to:

- Pose meaningful scientific questions and generate testable scientific hypotheses.
- Plan, design and conduct scientific investigations in a collaborative environment using appropriate tools and techniques to gather relevant data in order to test and revise scientific hypotheses.
- Develop and use scientific models (conceptual, physical, and mathematical) to make predictions and develop explanations of natural phenomena.
- Address variability in the data and recognize and analyze alternative explanations and predictions.
- Communicate scientific procedures, results, and explanations and engage in arguments based on scientific evidence.
Courses

Social, Cultural, and Behavioral Inquiry

Courses in the Social, Cultural and Behavioral Inquiry domain focus on the mutual impact of society and culture on individuals, and of individuals on society and culture. Particular attention is given to human relationships and behavior as they are influenced by social, economic and political institutions, spatial and geographical factors, and the events and social and cultural forces at play in the contemporary world. The domain emphasizes the pursuit of knowledge through the development of theory and empirical investigation of the contemporary world. Courses in the domain explore such particular issues as poverty and economic opportunity, the environment, nationalism, racism, individual alienation, gender differences, and the bases of conflict and consensus in complex, urban societies and in global relations.

Learning Outcomes

Students will be able to:

- Analyze and reflect upon arguments about the contemporary world using relevant theory, methods, and/or empirical evidence.
- Analyze interdependent relationships between contemporary society and individuals.

Courses

Below please find examples of courses previously offered for Social, Cultural, and Behavioral Inquiry credit. For information on current offerings, please consult Campus Connection.

Transfer Students

1. Transfer students must meet all Liberal Studies Program requirements:
   a. First Year Program,
   b. the Seminar on Multiculturalism in the United States (unless the student has completed the IAI/GECC),
c. the Experiential Learning Requirement,
d. the Senior Capstone, and
e. the domain courses, as specified by the student’s primary major.

2. Transfer courses are applied to the most appropriate learning domain, based on articulations vetted through the Transfer Articulation Center according to the posted learning outcomes and writing expectations for each requirement.

3. Students who enter DePaul with 30 or more quarter hours may not enroll in Discover Chicago/Explore Chicago or Focal Point courses. Instead, they will complete two domain electives outside their area of specialization, using either transfer credit or DePaul credit.

4. Students may complete the LSP writing requirement with either transfer credit or coursework completed at DePaul. Placement in DePaul writing courses is determined by a placement process.

a. Transfer students who enter DePaul with earned credit for WRD 104 and not WRD 103 may satisfy the second writing course requirement by taking any one of the following expository writing courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRD 103</td>
<td>COMPOSITION AND RHETORIC I</td>
<td>4</td>
</tr>
<tr>
<td>WRD 203</td>
<td>STYLE FOR WRITERS</td>
<td>4</td>
</tr>
<tr>
<td>WRD 206</td>
<td>PROFESSIONAL WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WRD 240</td>
<td>ARGUMENTATIVE WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WRD 300</td>
<td>COMPOSITION AND STYLE</td>
<td>4</td>
</tr>
</tbody>
</table>

Permission to substitute an open elective for the second writing course may be granted based on a review of documentation showing superior achievement and/or professional experience in advanced, expository writing. For more information, please contact the First-Year Writing Program Office.

b. Transfer students who met first-year writing requirements at their previous institution through coursework other than equivalents of WRD 103 and WRD 104 may petition their college offices for a waiver or substitution of this requirement. The petition should include a course description and, if possible, a syllabus. Petitions will be sent to the Director of First-Year Writing who will review them on a case-by-case basis and make a recommendation to the appropriate associate dean. Based on information from the course description and syllabus, a determination will be made as to whether the student:
   i. should take WRD 103 and/or WRD 104,
   ii. should substitute an upper-level writing course from an approved list for WRD 103 and/or WRD 104, or
   iii. have part or all of the requirement waived.

Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

5. Applying transfer credit to the Experiential Learning requirement:

a. Internships: DePaul generally does not award Experiential Learning credit for internships or cooperative learning courses taken at another college or university. Students seeking to request a substitution should contact their home college office for more information on procedures. The student must make the case that the course meets the Experiential Learning guidelines.

b. Study Abroad: Students who transfer in credit from a full-year or term-long study abroad program through an accredited institution, consisting of no less than ten weeks abroad and no less than 12 credits abroad, and having received grades of no less than a "C" in these courses, may use one of these courses to fulfill the Experiential Learning Requirement.

6. The Liberal Studies Senior Capstone requirement may not be substituted or waived. Students who have more than one major should consult with their academic advisor as to their specific Capstone requirement(s).

7. Accumulation of additional credit that fulfills Liberal Studies requirements: In some circumstances, students may earn transfer credit that exceeds Liberal Studies requirements. For example, coursework from institutions organized by semesters earns 1.5 quarter hour credits for each semester hour. Hence each 3-credit course transferred from a semester institution earns 4.5 credits at DePaul. As a result, students may have credits that exceed the required number in a particular component of the program. These excess general education credits may be added up and, when the sum reaches 4 quarter hours (and multiples thereof), applied to other Liberal Studies requirements as follows:

a. Students who have earned more than 30 credits may use the excess credit to fulfill the domain electives that replace Discover/Explore Chicago and the Focal Point Seminar. This substitution will be applied before any other.

b. Students must complete at least one course in each domain, whether through transfer/test credit or DePaul credit. Once that requirement has been met, students may apply the excess credit to any of the following domains: Arts & Literature; Historical Inquiry; Philosophical Inquiry; Religious Dimensions; or Social, Cultural, and Behavioral Inquiry. College-specific rules may apply; see your academic advisor.

c. Students may combine excess credit with the Modern Language Option within a single domain as long as they complete at least one course (transfer or DePaul) per domain.

8. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center (TrAC).

Transfer Students Who Complete the GECC of the IAI

Transfer Credit, General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI)

DePaul University participates in the General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI) only. DePaul does not participate in Phase Two, the Major Phase.

Completion of the GECC/IAI at any participating college or university in Illinois ensures transferring students that most of the general education requirements at DePaul have been satisfied. Hence the GECC/IAI will be accepted as a package. Students who have completed the GECC/IAI should consult with their academic advisor in their college prior to registering for classes. Students who are in DePaul University’s Honors Program should consult with the program director as to their program requirements. Students who are in DePaul University’s School of Continuing and Professional Studies (SCPS) should consult with their academic advisors as to their program requirements. The additional requirements outlined in this policy apply only to those students in degree programs that participate in DePaul University’s Liberal Studies Program.

Students who have completed the GECC/IAI must also meet the following mission-specific requirements in DePaul’s Liberal Studies Program:
Guidelines

1. In an effort to enable students to make the most complete use of their transfer credit, some portion of the two RD and PI courses may be waived under certain circumstances, as long as all students complete at least one PI and at least one RD either through transfer credit or DePaul courses. The following guidelines will direct students and their academic advisors in applying GECC credit and meeting the additional mission-specific requirements:

   a. Students who have accumulated sufficient excess liberal studies credits, may apply the credit toward the waiver of up to one PI and up to one RD requirement; see the Liberal Studies Guidelines section (#7 under Transfer Students).

   b. Students who have used the equivalent of PI and/or RD courses to fulfill GECC/IAI requirements may substitute learning domain course credit (DePaul or Transfer) for a corresponding number of PI/RD mission-specific requirements.

   c. Students who have completed and transferred in the equivalent of a PI or RD course external to the GECC/IAI requirements may use that course to fulfill the appropriate mission-specific requirement.

   d. Students may choose to complete LSP 200 in place of either a PI or RD requirement.

The following table summarizes these policies put into practice:

**Mission Specific Courses—4 Courses Required (2 PI and 2 RD)**

<table>
<thead>
<tr>
<th>Course</th>
<th>Policy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course 1</td>
<td>Course must be designated as PI (if course is DePaul PI or Transfer PI from outside GECC) or LSP Elective (if PI course is included in the GECC).</td>
</tr>
<tr>
<td>Course 2</td>
<td>Course must be designated as RD (if course is DePaul RD or Transfer RD from outside GECC) or LSP Elective (if RD course is included in the GECC).</td>
</tr>
<tr>
<td>Course 3</td>
<td>Course may be WAIVED with sufficient excess LSP credit. If there is not sufficient excess LSP credit, then the course must be designated as one of the following: PI or RD (DePaul or Transfer), LSP 200, or LSP Elective (if second PI or second RD course is included in the GECC).</td>
</tr>
</tbody>
</table>

2. If a course included in the GECC package also fulfills a specific course requirement in the student's primary major, that single course may be used to fulfill both requirements. Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

3. Students transferring from an IAI participating institution with two or fewer IAI requirements remaining may elect to complete the GECC/IAI package with DePaul courses or additional transfer credit that meet the subject area and mission-specific requirements.

4. Students pursuing the GECC/IAI option must earn a grade of "C" or higher in the courses that will apply to the primary major, secondary major, or minor. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center for review.

Students who have earned an Associate of Arts (AA) degree or Associate of Science (AS) degree from an IAI participating institution have satisfied the requirements for the GECC/IAI.

This agreement is in effect for students who entered an associate or baccalaureate degree-granting institution as first-time freshmen in the summer of 1998 and thereafter.

For more information on applying transfer credit to the Liberal Studies program see the Liberal Studies Program Guidelines section of the handbook.

**Honors Program Transfers**

Honors Program courses taken by students who transfer from DePaul's Honors Program to the Liberal Studies program will apply to the Liberal Studies Program as follows:

- HON 100 will apply as WRD 104
- HON 101 as an Arts and Literature domain course
- HON 102 as a Historical Inquiry domain course
- HON 104 as a Religious Dimensions domain course
- HON 105 as a Philosophical Inquiry domain course
- HON 110/HON 111 as LSP 110/LSP 111
- HON 180 as a Math and Computing domain course
- HON 201 as a Social, Cultural and Behavioral Inquiry domain course
- HON 205 as an Arts and Literature domain course
- HON 207 as a Scientific Inquiry: Science as a Way of Knowing domain course
- HON 225 as a Scientific Inquiry: Lab domain course
- HON 301 as LSP 200
- HON 351 as the Experiential Learning requirement
Honors Substitutions for LSP Writing Requirements

In addition students who move from the Honors Program to the Liberal Studies program will satisfy their LSP writing requirement as follows:

- If HON 100 is not complete, then WRD 103 and WRD 104 are required (WRD 103 may be satisfied by AP credit.).
- If HON 100 is complete, it will substitute for WRD 104.
- For students who do not have AP (or other) credit for WRD 103:
  - If HON 101, HON 102, HON 104, or HON 105 is complete, then one domain elective will be required to replace WRD 103.
  - If HON 101, HON 102, HON 104, or HON 105 are not complete, then the WRD 103 requirement may be satisfied by one of the following options: WRD 203, WRD 206, WRD 240, or WRD 300.

Modern Language Option

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.*

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

The MLO substitution cannot be applied to the Math and Computing Domain and the Scientific Inquiry Domain.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

*MLO-eligible courses are taught in the target language (i.e. the language of instruction is French, Spanish, Japanese, etc.). Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option

Transfer Students

This provides general Liberal Studies Program (LSP) guidelines; for the Liberal Studies requirements associated with a specific program, see the catalog description for that respective program. Students in the DePaul University Honors Program should consult with a program advisor about their requirements.

All DePaul Students Who Participate in the Liberal Studies Program

There are a number of general Liberal Studies Program guidelines that pertain to all DePaul undergraduate students (except for students in the School of Continuing and Professional Studies).

1. Students may not use the same course to fulfill a requirement in both their primary major and Liberal Studies. There are two exceptions to this rule:

   a. Designated courses in the major may also be used to fulfill the Experiential Learning requirement. Students who pursue this option will then complete an additional learning domain elective or, if applicable, the third course of the Modern Language Option.
   b. Transfer students who complete the General Education Core Curriculum of the Illinois Articulation Initiative may apply a particular course to fulfilling a requirement in the major (see the GECC/IAI section of this policy.)

2. Students completing a second major or minor may use the same courses to fulfill requirements in those areas and in the Experiential Learning, Senior Capstone, and Learning Domains of Liberal Studies.

3. Students may request to substitute a different course for one of the Liberal Studies requirements. All substitutions must meet the learning outcomes and writing expectations for the particular LSP requirement. Students seeking to request a substitution should contact their home college office for more information on procedures.

Transfer Students Who Complete the GECC of the IAI

Transfer Credit, General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI)

DePaul University participates in the General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI) only. DePaul does not participate in Phase Two, the Major Phase.

Completion of the GECC/IAI at any participating college or university in Illinois ensures transferring students that most of the general education requirements at DePaul have been satisfied. Hence the GECC /IAI will be accepted as a package. Students who have completed the GECC/IAI should consult with their academic advisor in their college prior to registering for classes. Students who are in DePaul University’s Honors Program should consult with the program director as to their program requirements. Students who are in DePaul University’s School of Continuing and Professional Studies (formerly SNL) should consult with their academic advisors as to their program requirements. The additional requirements outlined in this policy apply only to those students in degree programs that participate in DePaul University’s Liberal Studies Program.

Students who have completed the GECC/IAI must also meet the following mission-specific requirements in DePaul’s Liberal Studies Program:

- Two Religious Dimensions courses (RD)
- Two Philosophical Inquiry courses (PI)
- Experiential Learning
- Senior Capstone

Guidelines

1. In an effort to enable students to make the most complete use of their transfer credit, some portion of the two RD and PI courses may be waived under certain circumstances, as long as all students complete at least one PI and at least one RD either through transfer credit or DePaul courses. The following guidelines will direct students and their academic advisors in applying GECC credit and meeting the additional mission-specific requirements:

   a. Students who have accumulated sufficient excess liberal studies credits, may apply the credit toward the waiver of up to one PI...
Students who have completed and transferred in the equivalent of a PI or RD course external to the GECC/IAI requirements may use that course to fulfill the appropriate mission-specific requirement.

d. Students may choose to complete LSP 200 in place of either a PI or RD requirement.

The following table summarizes these policies put into practice:

### Mission Specific Courses—4 Courses Required (2 PI and 2 RD)

<table>
<thead>
<tr>
<th>Course</th>
<th>Policy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course 1</td>
<td>Course must be designated as PI (if course is DePaul PI or Transfer PI from outside GECC) or LSP Elective (if PI course is included in the GECC).</td>
</tr>
<tr>
<td>Course 2</td>
<td>Course must be designated as RD (if course is DePaul RD or Transfer RD from outside GECC) or LSP Elective (if RD course is included in the GECC).</td>
</tr>
<tr>
<td>Course 3</td>
<td>Course may be WAIVED with sufficient excess LSP credit. If there is not sufficient excess LSP credit, then the course must be designated as one of the following: PI or RD (DePaul or Transfer), LSP 200, or LSP Elective (if second PI or second RD course is included in the GECC).</td>
</tr>
<tr>
<td>Course 4</td>
<td>Course may be WAIVED with sufficient excess LSP credit. If there is not sufficient excess LSP credit, then the course must be designated as one of the following: PI or RD (DePaul or Transfer), LSP 200, or LSP Elective (if second PI or second RD course is included in the GECC).</td>
</tr>
</tbody>
</table>

2. If a course included in the GECC package also fulfills a specific course requirement in the student’s primary major, that single course may be used to fulfill both requirements. Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

3. Students transferring from an IAI participating institution with two or fewer IAI requirements remaining may elect to complete the GECC/IAI package with DePaul courses or additional transfer credit that meet the subject area and mission-specific requirements.

4. Students pursuing the GECC/IAI option must earn a grade of “C” or higher in both WRD 103, and WRD 104. Students must earn a grade of “C-” or higher in the courses that will apply to the primary major, secondary major, or minor. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center for review.

Students who have earned an Associate of Arts (AA) degree or Associate of Science (AS) degree from an IAI participating institution have satisfied the requirements for the GECC/IAI.

This agreement is in effect for students who entered an associate or baccalaureate degree-granting institution as first-time freshmen in the summer of 1998 and thereafter.

For more information on applying transfer credit to the Liberal Studies program see the Liberal Studies Program Guidelines section of the handbook.

### Honors Program

**Overview**

The Honors Program offers an alternative to the Liberal Studies Program for well-prepared, highly motivated students who apply and are accepted to the program. Like the Liberal Studies Program, the Honors Program seeks to widen students’ perspectives beyond their academic majors and encourage critical thinking, self-reflection, and an examination of values. In addition, the Honors Program fosters active, participatory learning; promotes interdisciplinary and cross-cultural studies; requires students to develop facility in a second language and to pursue independent research; helps students see themselves as members of larger communities in which they can be leaders; and assists interested students to prepare for post-graduate education. In order to meet these goals, the program: offers small classes designed for Honors students, organized in a seminar format and taught by faculty committed to the program’s goals; emphasizes cross-cultural and interdisciplinary perspectives in all core courses; advances students’ skills in writing, research, reading and analysis; requires intensive language training; encourages self-directed learning through a third-year research course and the fourth-year seminar or thesis; offers lecture and film series, field trips, and opportunities for public service; and provides information and advising to assist with academic planning.

Some students are invited to apply to the Honors Program upon their admission to DePaul. Invitations to apply are issued on the basis of a student’s academic and co-curricular profile. Students are also welcome to initiate their own Honors application. In some cases, continuing DePaul students and transfer students may be considered for the Honors Program through the first quarter of their sophomore year. Students who successfully complete the Honors curriculum will have the designation “Honors Program Graduate” on their official transcript.

### Learning Outcomes

Students will be able to:

- Demonstrate breadth and depth of knowledge of the arts, humanities, mathematics, natural and social sciences.
- Comprehensively access, systematically analyze, and critically evaluate data and ideas.
- Construct, support, and effectively communicate complex ideas and arguments in speech, writing, and other media.
- Analyze and evaluate texts, creative works, and other primary sources.
- Evaluate ethical issues from multiple perspectives and identify opportunities and strategies for social transformation.
• Demonstrate respect for human diversity and a critical awareness of their own assumptions, stereotypes, and biases when confronting difference.
• Demonstrate understanding of global interconnectedness and interdependencies.
• Reflect on connections between individual experiences and the Honors curriculum.
• Design, research, and execute a significant interdisciplinary project.

Honors Program Requirements
Like the Liberal Studies Program, the Honors Program consists of between ten and twenty courses representing 40 to 80 quarter hours, the exact requirements determined according to the student’s home college and/or major. Honors requirements include core courses, a science requirement, a math requirement, an art requirement, a language sequence, a multiculturalism seminar, a junior seminar, and a senior thesis or senior seminar. Some AP and IB credit will apply toward Honors core courses. Credit can also be applied toward the math, science, or language requirements. Depending on the college and major, some Honors requirements may be waived. Specific requirements can be found within the student’s college in the Colleges and Schools section.

* Advanced placement credit will fulfill Honors Core requirements as listed:
- AP Literature credit for ENG 101 (previously ENG 120) will fulfill HON 101
- AP credit for HST 111 or HST 171 fulfills HON 102

1 HON 180 is not required for students with a Calculus, Statistics, or Discrete Mathematics requirement for the major.
2 HON 201 is not required for students in the Theatre School or the College of Education
3 HON 205 is not required for students in School of Music, The Theatre School, or the BFA Animation major in CDM.

Honors Senior Capstone

<td>HONORS SENIOR SEMINAR</td>
<td>4</td>
</tr>
</tbody>
</table>

Honors Senior Thesis Option

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an online application, including a project proposal, signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two faculty members from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Honors director or associate director for further information. Students may opt to enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

Science Requirement

• Honors students who do not have a lab science requirement for the major will fulfill the science requirement with HON 225 (Honors Lab Science Topics) OR a course selected from the university’s Scientific Inquiry Lab courses.
• Honors students in Liberal Arts and Social Sciences, College of Communication, and BA students in the School of Music will complete one additional science course chosen from the university’s offerings of Scientific Inquiry courses.
• Honors students in the College of Education will select a biology course for their additional science course.
• Students in the School of Music (non BA) and the Theatre School will fulfill the science requirement with one course selected from the university’s offerings of Scientific Inquiry courses.

Math Requirement

• Honors students who do not have a Calculus, Statistics or Discrete Math requirement for the major are required to take HON 180. HON 180, or the first course of the required math sequence for the major, is a prerequisite for HON 225.

Language Requirement

• Three courses of intermediate or advanced language study are required for all Honors students who are not in a conservatory or BFA program.
• Students who meet the proficiency requirement by placing at the 200-level of a language may fulfill the language requirement with either one year of advanced study of their proficient language or one year of a language the student has not previously studied.
• Language majors may fulfill the language requirement with one year of language study outside of their major or three additional Honors Approved Electives.
• Honors students in the College of Education have a one year (three course) language requirement. This requirement can be fulfilled through either completion of one year of study of the student’s high school language or one year of a new language the student has not yet studied. Students opting to continue their high school language

HON 351  HONORS SENIOR SEMINAR IN SERVICE LEARNING
HON 395  HONORS SENIOR THESIS
are required to complete a placement test and must begin language study according to their placement.

**Honors Approved Electives**

Approved Electives are chosen in consultation with an Honors advisor to achieve specific academic or professional goals. Courses completed for Study Abroad, 200-300 level courses taken for a minor or second major, or 200-300 level courses taken to pursue a specific area of interest outside of the major can count as Honors Approved Electives. The number of Honors Approved Electives depends on the college and major. Students in the College of Education, the School of Music (except BA students), and the Theatre School do not have Honors Approved Electives.

**Experiential Learning**

Honors students will fulfill the university’s Experiential Learning (EL) requirement by completing an EL-designated course in the major, as an open elective, as an Honors Approved Elective, or as an Honors core requirement (HON 351). Students in the College of Education, the School of Music, and the Theatre School whose programs meet the university requirement in Experiential Learning will be considered to have met the Honors Program requirement as well.

**AP or IB credit will fulfill Honors Core requirements as listed:**

- AP/IB Literature credit for ENG 101 or ENG 120 will fulfill HON 101 (https://catalog.depaul.edu/search/?P=HON%20101)
- AP/IB credit for HST 111 or HST 171 fulfills HON 102 (https://catalog.depaul.edu/search/?P=HON%20102)
- AP/IB credit for BIO 191 or CHE 130 or PHY 150 or ENV 102 fulfills HON 225 and/or the Scientific Inquiry requirement
- AP/IB credit for CHE 102 or GEO 101 or ENV 202 or MAT 150 or MAT 135 fulfills the Scientific Inquiry requirement
- AP/IB credit for MAT 242 or MAT 150 or MAT 135 will fulfill the HON 180 requirement.
- AP/IB credit for ART 104 or ART 105 will fulfill the Fine Arts Elective requirement
- AP/IB credit for a 104, 105, or 106 language course will count toward the language requirement

**Grade Requirements**

A grade of C- or higher in HON 110 or HON 111 is required to remain in the Honors Program. A grade of C- or higher is required to pass the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td>4</td>
</tr>
<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td>4</td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td>4</td>
</tr>
</tbody>
</table>

**Study Abroad**

Study Abroad is particularly appropriate for students in the Honors Program and, though not required, is strongly recommended. Honors students interested in Study Abroad should plan to participate during their sophomore or junior year and should make certain that they have fulfilled appropriate modern language requirements before that point in their undergraduate careers. They should meet with the Honors Associate Director prior to their departure for pre-approval of course substitutions. Coursework completed abroad may substitute for Honors Approved Electives.

**Honors Advising**

All Honors students will work with an Honors advisor for academic planning and to schedule Honors courses in conjunction with their major requirements. As a general rule, Honors students take one or two Honors courses each quarter during their first and second years of study and one or two Honors courses a year in the junior and senior years.

**Transfer Honors**

Transfer Honors offers students the full benefits of the Honors Program (https://academics.depaul.edu/honors/Pages/default.aspx) with the opportunity to fulfill requirements using courses taken at previous institutions. For students admitted to Transfer Honors, the Honors Program offers the full benefits of the Honors Program.
curriculum replaces Liberal Studies requirements. Evaluation of transfer credit toward Honors requirements is done on an individual basis, and specific Honors requirements vary according to a student's college and major. Students who transfer to DePaul with fewer than 16 quarter hours of college credit, excluding AP and IB test credit, will have the same Honors requirements as students who begin the program as freshmen.

Please note that Transfer Honors is a residential program with most classes offered during the day on the Lincoln Park Campus. Students in the School of Music, the Theatre School, and the School of Continuing and Professional Studies are not eligible for Transfer Honors.

Transfer Honors Requirements

Students who enter Transfer Honors will consult with an Honors Program advisor to determine how transfer credit can apply to the following Honors requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>

</table>

WRD 103 Replacement for Students Leaving Honors Program

For students who withdraw from the Honors Program having completed HON 100, and who do not have AP credit for WRD 103, either WRD 103 or one of the following courses must be taken to fulfill the requirement for WRD 103:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRD 203</td>
<td>STYLE FOR WRITERS</td>
<td>4</td>
</tr>
<tr>
<td>WRD 206</td>
<td>PROFESSIONAL WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WRD 240</td>
<td>ARGUMENTATIVE WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WRD 300</td>
<td>COMPOSITION AND STYLE</td>
<td>4</td>
</tr>
</tbody>
</table>

All Transfer Honors students must complete these five courses regardless of the credit hours transferred in.

College of Business

Located in the heart of Chicago's financial and business center, DePaul's Driehaus College of Business (http://business.depaul.edu/) offers highly respected, practical and innovative programs of business study that empower graduates to achieve more. The college encompasses an undergraduate business program and the Kellstadt Graduate School of Business (https://business.depaul.edu/academics/graduate/Pages/default.aspx), which offers the DePaul MBA, specialized master's degrees and a Doctorate in Business Administration. The college's faculty of scholars and experienced business professionals provide a real-world business education, and the college leverages its connections to Chicago's business community to provide students with hands-on learning experiences and extensive career opportunities. Graduates join a DePaul business alumni network that is more than 70,000 strong. The college is accredited by the AACSB International—The Association to Advance Collegiate Schools of Business, a distinction indicating academic excellence that is earned by less than five percent of business schools worldwide.

Administration & Faculty

Administration
Office of the Dean
Driehaus College of Business
DePaul Center
Faculty
Experts in the fields they teach, the Driehaus College of Business faculty includes published scholars and experienced business professionals, including executives, accountants, marketing directors, financial analysts, lawyers, economists, hospitality professionals, consultants and entrepreneurs. These individuals are committed to teaching students both theory and practice in a challenging and engaging learning environment.

Undergraduate Academics
The Driehaus College of Business offers undergraduate, graduate, doctorate and combined degree programs that integrate theory and practice.

Bachelor of Science in Business
The Bachelor of Science in Business (BSB) is the undergraduate business degree offered by the Driehaus College of Business. The degree is based upon the following learning goals and is composed of study in several areas of required coursework.

Learning Goals
The Learning Goals for the Driehaus College of Business undergraduate program are:

- Communication - Driehaus students will be able to communicate effectively both orally and in writing.
- Global Business Perspective - Driehaus students will understand business within a global context.
- Ethical and Legal Awareness - Driehaus students will be able to recognize ethical and legal issues confronting them.
- Decision-making - Driehaus students will be able to use analytical and reflective skills in making decisions.
- Teamwork - Driehaus students will be able to understand group and individual dynamics within a business setting.
- Mastery of Content - Driehaus students will acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Business Core
The Business Core is a group of requirements focusing on professional business preparation to be completed by all students seeking the BSB degree. The specific classes a student takes for Core completion can vary according to selection of major or minor.

Liberal Studies Program
The Liberal Studies Program (LSP) is the common curriculum taken by all students enrolled in the traditional undergraduate colleges at DePaul University. The LSP is designed to enhance writing abilities, mathematical and technological proficiencies, and critical and creative thinking skills, while broadening students' knowledge base beyond their chosen major. LSP courses foster an appreciation of different religious and philosophical worldviews, promote application of ethical reasoning, and realize new understanding of concepts and theories through multiple methods of inquiry and disciplinary perspective. In LSP seminars, students read primary texts, write research papers, and communicate their ideas orally. Business students also take Business Ethics in their Liberal Studies Program.

Major
In the major program, a student pursues specialized coursework in a business area. Some majors in the college require selection of a concentration to further focus the field of study. Majors can be declared at time of admission. A major must be declared prior to graduation. In addition to the primary major in business, a Driehaus student may choose to complete a secondary major, additional concentrations or a minor within the college or from another college at the university.

Open Electives
Open Electives allow a student to explore additional areas of interest or work toward a minor or second major. The selection of major or minor determines the number of open elective hours needed.

Additional Credentials
While not required for completion of the degree, students in the college are able to pursue additional opportunities for study such as minors, modern languages, study abroad programs, and internship-based courses.

Credit Hour Requirement
A minimum of 192 quarter hours of degree applicable credit is required for completion of the BSB. A student’s degree plan and factors such as course selection, transfer credit, and major and minor requirements may result in a student exceeding the hours minimum. In addition to college and departmental requirements, all students pursuing the BSB are subject to university policies on degree conferral (p. 1385).

Additional Undergraduate Policies and Requirements
Detailed requirements and policies for the BSB degree can be found below, in the section pertaining to each Driehaus College of Business.
major or minor, and the Student Handbook (https://catalog.depaul.edu/student-handbooks/undergraduate/undergraduate-academic-policies/) of this catalog.

Course Prerequisites
A student in the Driehaus College of Business is expected to observe and adhere to course prerequisites. Prerequisites for courses are noted in Campus Connection and can include requirements for class standing, course completion and placement testing.

Given the sequential nature of coursework in business and the structure of major and minor programs in the college, consideration of course prerequisites is essential to successful planning and degree completion.

Graduation/Degree Completion
Graduation/degree completion is the official granting of a degree by DePaul University upon successful completion of all degree requirements.

Degrees are awarded at the end of each quarter. In order to have the degree awarded, all requirements must be satisfied, including:

- Submission of an Application for Graduation in Campus Connection
- Declaration of the major (and minor, if applicable) prior to graduation
- Completion of ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, WRD 103*, WRD 104*, the Professional Writing requirement and ICS 392* with a minimum grade of C in each class
- Completion of all courses in the major field (and minor, if applicable) with a minimum grade of C in each class (even if Global Business Perspective, extra or open elective)
- A minimum grade point average of 2.000 within the major (and minor, if applicable)
- A minimum cumulative grade point average of 2.000 for DePaul coursework
- A minimum of 192.0 degree applicable hours
- Completion of the last 60.0 hours of coursework for the degree at DePaul
- Posting of all of grades in Campus Connection by the end of the grading period (five business days after the quarter ends)

*Students in the University Honors Program do not take WRD 103, WRD 104 or ICS 392.

A student who is nearing the completion of the degree should consult with his or her academic advisor in the Undergraduate Programs Office regarding the graduation/degree completion process.

Majors and Minors
For a student to earn the Bachelor of Science in Business, completion of at least one major in the Driehaus College of Business is required. In addition to the primary major in business, a Driehaus student may choose to complete a secondary major, additional concentrations or a minor within the college or from another college at the university.

Non-business students are welcome to complement their areas of study by completing a major or minor in the Driehaus College of Business. They should meet with an academic advisor in the Driehaus Undergraduate Programs Office to review relevant policies and course requirements.

Major Declaration
Upon matriculation into the university, a student may declare a Driehaus major. A student will complete the major requirements in place at the time the student declares the major. Some majors require declaration of a concentration, which is added to the record at the time of major declaration. A major must be declared prior to graduation/degree completion.

Major Policies and Requirements
